1st International Workshop on
Affective Computing and Health Care: New Research and Industrial Perspectives

📅 December 5-8, 2023

📍 Istanbul, Turkey

🔗 **www.affective-health2023.it**

Topics of interest

Artificial intelligence algorithms in affective computing
Affective communication
Computer vision systems for affective computing
Speech recognition and natural language processing
Facial expression recognition
Body gesture analysis
Sentiment analysis
Affective odour perception and their impact
Physiological signals processing
Wearable solutions for affective computing and health care
Mobile solutions for affective computing
Affective computing in telemedicine
Human-robot interaction

General Chairs

Daniela Cardone *University "G. d'Annunzio" Chieti-Pescara (Italy)*
Arcangelo Merla *University "G. d'Annunzio" Chieti-Pescara (Italy)*
David Perpetuini *University "G. d'Annunzio" Chieti-Pescara (Italy)*

Program Chairs

Ijaz Ahmad *Università Telematica L. Da Vinci (Italy)*
Alessia Amelio *University "G. d'Annunzio" Chieti-Pescara (Italy)*
Francesco Cauteruccio *Polytechnic University of Marche (Italy)*

Paper submission deadline
October 10th, 2023

A joint event of

IEEE BIBM 2023
5-8 December 2023 •Istanbul & Turkey

Ud'A
Università degli Studi "G. d'Annunzio"
