

11TH SCIENTIFIC MEETING of the SIS Group
“Statistics for the Evaluation and Quality in Services” (SVQS)

August 30 -
September 1
2023

DISFIPEQ
Sezione di Economia
e Metodi Quantitativi
Campus di Pescara

STATISTICAL
METHODS
FOR EVALUATION
AND QUALITY:
TECHNIQUES,
TECHNOLOGIES
AND TRENDS (T³)

University
of Chieti-Pescara
“G. d’Annunzio”
Viale Pindaro, 42
Pescara

AUGUST 30

	ROOM 31	ROOM 33	ROOM 35	ROOM 27B
12:00	Registration			
14:30	Welcome ceremony			
15:00	Plenary session <i>Ron Kenett</i>	Befitting Cross Validation with 3 case studies		
15:45	Round Table	Governance and Methods for Statistical Quality		
16:30	Coffee Break			
17:00	Invited session	Statistical analysis and modeling of environmental pollution data	Statistics in sports	Statistical methods for the analysis of university student choices and academic performance
18:30	Invited session	Commemoration of Professor Antonio Pacinelli	Statistics in football	Advances in statistical learning from high- dimensional data
20:30	Social Event • Welcome Cocktail “Rustelle” on the beach • Saturno Beach Club			

AUGUST 31

	ROOM 31	ROOM 33	ROOM 35	ROOM 27B
09:00	Contributed session	Education and Labour	Tourism and territory	Social issues
10:30	Coffee Break			
11:00	Plenary session Enrico Giovannini	Planning a system of sustainable and resilient infrastructures: the role of data and models		
11:45	Invited session	Labour market: trends, perspectives and new challenges	Data analysis for web sources	Methodological and applicative contributions for evaluating sustainable development
13:15	Lunch	SVQS Members' Assembly		
14:15	Round table	The algorithm: l'arte di domare i dati tra Statistica, Intelligenza Artificiale e Cybersecurity		
15:15	Invited session	Inequalities in the Labour Market	Statistical methods and complexity for evaluation in finance	Networks data analysis: new perspectives and applications
16:45	Coffee Break			
17:15	Social Event • Guided Tour in Chieti and IES2023 Social Dinner • Lo Scoiattolo Restaurant (Campus of Chieti)			

SEPTEMBER 1

	ROOM 31	ROOM 33	ROOM 35	ROOM 27B
09:00	Invited session	Statistical methods and models for land monitoring with spatio-temporal data	Economic issues (Contributed session)	Methodological issues (Contributed session)
10:30	Coffee Break			
11:00	Plenary session Luigi D'Ambra	An overall look at the cumulative chi squared and related methods		
11:45	Invited session	Statistical methods and composite indicators for healthcare	Distance and Depth- Based statistical learning methods for robust data analysis	Advanced Statistical Methods for Pattern Recognition
13:15	Lunch			
14:15	Invited session	Statistical Methods for Education and Educational Services	Statistical methods for the assessment of transport services and sustainable emissions	New advanced statistical methods for Data Science
15:45	Coffee Break			
16:15	Invited session	Tourism, territory and data analysis	Methodological developments and applications for the assessment of student competencies	Statistical methods for environmental monitoring and sustainability
17:45	Closing ceremony			
18:30	Social Event • Dinner among Vineyards Rows • Marchesi de' Cordano
