Each Commission must be composed in one of the following ways:

1 internal member of the University + 2 external members

1 intraneous component (not necessarily to be drawn by lot) + 2 external components;

3 external components

It is understood that the Commission can be integrated by one or more expert members in the cases of contracts to be activated with external financing.

The above must be completed by the current ANVUR productions - as indicated by art. 6 paragraphs 7 and 8 of Law 240/2010 - particularly with reference to ANVUR no. 132, dated 12 September 2016. In particular, the requirements must be possessed at the date of publication of the notice. The relevant verification will be carried out in this sense.

The appointment of the Committee is decided by the Rector and published in the official register of the University and, at the same time, on the University website;

From the date of publication in the Official Register of the University of the decree of appointment of the Committee, a period of thirty days shall commence, during which candidates can submit any instances of disqualification of the Committee members to the Rector. After such time and always after the establishment of the Committee, no instances of disqualification of the Committee members shall be accepted

The deadline for disqualification, i.e. the possible sub-procedure of disqualification, is not useful for the purposes of calculating the terms of the competition, in accordance with the guidelines provided by the District Attorney's Office of the State of L'Aquila, with note prot. no. 15124 of 07/05/2018 acquired at the General Protocol of the University on the same date with prot. no. 27859, which reads as follows: "the deadline for the submission of applications for the disqualification of the commissioners, and the conduct of the entire sub-procedure of disqualification, **suspend the**

#### **Art. 9 - Duties of the Selection Committee**

The Commission, in order to carry out the comparative evaluation of the candidates, based on the elements that are subject to evaluation in the preliminary phase, also predetermines the criteria to be used for the attribution of a score to the qualifications, to each of the publications presented by the candidates admitted to the discussion and their overall scientific production, within the ranges indicated below::

- QUALIFICATIONS AND CURRICULUM → min. score 10 max 40
- COMPREHENSIVE SCIENTIFIC PRODUCTION → min. score 0 max 15
- SCIENTIFIC PUBLICATIONS PRESENTED → min. score 45 max 75
- CLINICAL-ASSISTANCE ACTIVITY OR PROFESSIONAL ACTIVITY IN A NON-MEDICAL SECTOR, BOTH IN THE PUBLIC SECTOR ( to be understood as carried out within the P.A. broadly) → min. score 0 max 15

The determination of the assessment score in the range indicated will be specified by the Committee when identifying the criteria unless it has been established by the Department when requesting the activation of the procedure. In the latter case, reference is made to form 1 annexed to the notice.

The Commission of selection in the first session, subject to the declaration of the individual members of the non-existence of the causes of incompatibility and absence of conflict of interest between them, following the provisions of the Ministerial Decree 243/2011 "recognized criteria and parameters, also internationally, for the preliminary assessment of candidates who are recipients of the contracts referred to in art. 24 of the l. 240/2010 ", generally determines the elements on which it will express a motivated preliminary assessment in relation to the qualifications, curriculum, publications, overall scientific production of the candidates through the expression of a reasoned analytical judgment.

Considering that the total must always be equal to 100, the formula to identify the final score to be assigned to the assessments is indicated below:

$$\frac{\text{score selected}}{\text{max score}} = \frac{\text{score rep. (x)}}{\text{score}}$$
$$(x) = \frac{\text{score} * \text{score selected}}{\text{max score}}$$

#### **CALCULATION OF SCORE REPORTED e.g.: COMPREHENSIVE SCIENTIFIC PRODUCTION**

**SCORE SELECTED:** defined by the Committee/Department → e.g.: maximum score 15

**MAX SCORE:** maximum possible score in the "comprehensive scientific production assessment": E.g.: :[6 (max score per criterion)

\* 3 (number of criteria)] = 18

**SCORE:** sum of the scores assigned to the “comprehensive scientific production assessment” for the single candidate  
e.g.: (criterion a: 6 + criterion b: 4 + etc ... = 14) e.g.: 14

$$(x) = \frac{14 * 15}{18}; (x) = 11,67$$

The indicated ratio formula does not apply to the evaluation of qualifications, unless otherwise determined by the Commission.

It also predetermines the general criteria for:

the evaluation of the oral examination designed to verify the proper knowledge of a foreign language and/or Italian language for foreign applicants.

In its first session, the Committee shall also:

- identify the types of publications that are to be assessed;
- decide the weighting of each criterion and parameter to be taken into account;
- identify any further criteria and parameters that are more selective than those indicated in the notice;
- establish the date and time where the public discussion of the qualifications and scientific production through Teams platform, as well as the verification of the knowledge of the foreign language and/or the Italian language for foreign candidates. This publication has the value of full notification and therefore no further convocation will follow. **If the date indicated by the Committee for the conduct of the interview is changed, the new date will be published in the section marked <https://www.unich.it/concorsidocenti2023> by means of a notice, but no further communication will be sent to the candidates.** This notice will always be published 20 days before the date indicated for the interview.

The criteria adopted by the Committee are made public through publication, for at least seven days, in the official register of the University and, at the same time, on the University website; After seven days, the Committee may proceed with its activities. The members of the Committee access the documentation presented by the candidates online and, in order to guarantee the confidentiality of the data, access is via codes assigned by the university and communicated to each of the Committee members.

The date of publication will be considered the day useful for publicity.

In the second session, the Committee must declare that there are no situations of incompatibility with the candidates in accordance with articles 51 and 52 of the Italian Code of Civil Procedure, and that there are no relationships by marriage or by civil union or cohabitation regulated in compliance with law dated 20 May 2016, No. 76, or of kinship or affinities within the 4th degree, with them.

The Committee carries out a **justified preliminary comparative assessment of the qualifications, curriculum and publications** - including the doctoral thesis if presented - and comprehensive scientific production of the candidates, expressing a justified analytical judgement.

Following the preliminary comparative assessment, the Committee shall admit between 10 and 20 percent of the candidates of comparatively higher merit to public discussion of the qualifications and scientific production, and in any case not less than six candidates. **All candidates are admitted to the discussion if their number is equal to or lower than six.**

**Promptly - with respect to the date set for the interview - a report will be published containing a justified preliminary assessment of the candidates.**

Following the public discussion, the Committee assigns a score to the qualifications and curriculum vitae, to each of the publications presented, and to the comprehensive scientific production, and expresses an opinion on the oral test aimed at ascertaining the adequate knowledge of a foreign language and of the Italian language for foreign candidates. These assessments will be made public through publication in the official University Register and, at the same time, will be posted on the University website, being considered as a notification to all intents and purposes.

The Committee must establish for each qualification the criterion on the basis of which to assign the score, respecting the consistency of the qualifications with the S.S.D. that is the subject of this procedure.

In assessing the comprehensive scientific production, the Committee may take into account that already indicated by the applicant when submitting the application.

The Commission is obliged to apply the principles expressed in the European Researchers' Charter regarding the evaluation of merit on the qualitative and quantitative levels. Said evaluation highlights the exceptional results obtained in a personal route diversified exclusively by the number of publications and considers in an opportune manner teaching and supervision activities, team work, transfer of knowledge, research management, innovation and activities to sensitise the public. Career breaks, aimed at building up other experiences in public or private organisations, or variations in the chronological order of a CV are considered as a contribution to the professional development of researchers within a multidimensional journey. Any experiences of mobility or change in discipline or sector are also considered important contributory aspects.

The consultation of publications subject to intellectual property rights must take place in observance of the laws on copyright and publishing.

The proceedings of the selection procedure consist of the minutes of each meeting of which the justified analytic judgements relating to the preliminary comparative evaluation, the scores assigned to the qualifications and publications of candidates admitted to public discussion, and the evaluation of the oral examination aimed at ensuring adequate knowledge of a foreign language and/or Italian language for foreign applicants, are an integral and necessary part.
