The certificates issued by the competent authorities of the country the non-EU citizen is a citizen of shall include an Italian translation authenticated by the Italian Consulate, which certifies that it conforms to the original.

In these latter cases, the documentation (qualifications in original, certified copy of the original, or copy declared true to the original) must necessarily be submitted together with the application and attachments.

The Administration reserves the right to carry out appropriate checks, including sample checks, on the truthfulness of the affidavits.

No reference may be made to documents submitted to this or other authorities, or documents attached to the application form to any other selection procedures.

Please note that the number of applications received is published on the website in the reserved section accessible at the following address www.concorsigelmini2019.

Art. 7 - Waiver of the Candidate for the Procedure

Any waiver of participation in the selection process, signed and dated, must be immediately reported to the Rector by certified e-mail (ateneo@pec.unich.it) or sent by registered letter with notification of receipt or delivered by hand (refer to provisions pursuant to 'art. 4).

The waiver will take effect from the first committee meeting following the date of receipt.

Art. 8 - Composition of the Selection Committee

The Selection Committee shall be composed of at least three members, usually three professors of the

scientific/discipline sector(s) being the subject of the selection identified, after the expiry of the notice, by the Department that proposed the activation of the contract. At least one of the members must be a professor who does not belong to the University G. d'Annunzio of Chieti-Pescara.

In the case of absence of teachers on the scientific/discipline sector(s), professors in a related field will be appointed.

The Committee may also include one or more experienced members in cases of contracts to be activated by external funding.

The above must be completed by the current ANVUR productions - as indicated by art. 6 paragraphs 7 and 8 of Law 240/2010 - particularly with reference to ANVUR no. 132, dated 12 September 2016. In particular, the requirements must be possessed at the date of publication of the notice. The relevant verification will be carried out in this sense.

The appointment of the Committee shall be established by decree of the Rector published on the official University register and, at the same time, the University website.

From the date of publication in the Official Register of the University of the decree of appointment of the Committee, a period of thirty days shall commence, during which candidates can submit any instances of recusal of the Committee members to the Rector. After that period, and in any case after the establishment of the Committee, no instances of recusal of the Committee members shall be accepted.

The deadline for objection, i.e. the possible sub-procedure of objection, is not useful for the purposes of calculating the terms of the competition, in accordance with the guidelines provided by the District Attorney's Office of the State of L'Aquila, with note prot. no. 15124 of 07/05/2018 acquired at the General Protocol of the University on the same date with prot. n. 27859, which reads as follows: "the deadline for the submission of applications for the objection of the commissioners, and the conduct of the entire sub-procedure of objection, suspend the maximum deadline for the conclusion of the insolvency proceedings, which will resume from the expiry of the first or the outcome of the decision on the application, except for interruptive events related to the possible need to replace the commissioners objected to in order to reinstate the committee";

The Committee shall select a Chairperson and a Secretary in charge of the minutes of its meetings, from among its members.

The Committee shall carry out its activities in the presence of all its members and take its decisions by an absolute majority of its members.

The Committee may use computer tools for collective work, in order to allow for the completion of the work within the prescribed period of four months from the date of appointment by decree of the Rector.

Participation in the activities of the Committee is an official obligation of its members, except in cases of force majeure. The causes of incompatibility and the changes of the legal status occurred after the decision to appoint the Committee do not affect the position as a member of the Selection Committee.

Art. 9 – Duties of the selection committee

The Selection Committee, at its first meeting, after having declared that the causes of incompatibility and

absence of conflict of interest do not exist, and in compliance with the provisions of Ministerial Decree 243/2011 "recognised criteria and parameters, also at international level, for the preliminary assessment of the candidates to whom the contracts pursuant to art. 24 of Law 240/2010 are addressed", generally determines the elements on which it will express a reasoned preliminary assessment with regard to the titles, curricula, publications and overall scientific production of the candidates through the expression of a reasoned analytical assessment.

The Commission, in order to carry out the comparative evaluation of the candidates, on the basis of the

elements that are subject to evaluation at the preliminary evaluation stage, also predetermines the criteria to be used for the attribution of a score to the titles, to each of the publications submitted by the candidates admitted to the interview and to their overall scientific production, within the range indicated below:

- > TITLES AND CURRICULA → min. score 10 max 40
- > OVERALL SCIENTIFIC PRODUCTION → min. score 0 max 15
- > SCIENTIFIC PUBLICATIONS PRESENTED → min. score 45 max 75
- > CLINICAL-ASSISTANCE ACTIVITY OR PROFESSIONAL ACTIVITY IN A NON-MEDICAL SECTOR, BOTH IN THE PUBLIC SECTOR min. score 0 max 15

It should be stated that the assessment of the clinical-assistance activity or professional activity in a non-medical sector, both in the public sector, must be assumed from the qualifications or curricula presented.

The determination of the evaluation score in the range indicated will be specified by the Committee when identifying the criteria unless it has been established by the Department when requesting the activation of the procedure. In the latter case, reference is made to form 1 annexed to the notice.

Considering that the total must always be equal to 100, the formula to identify the final score to be assigned to the assessments is indicated below.

$$(x) = \frac{\frac{\text{score selected}}{\text{max score}} \times \text{score rep (x)}}{\text{max score}}$$

CALCULATION OF SCORE REPORTED e.g.: OVERALL SCIENTIFIC PRODUCTION

SCORE SELECTED: defined by the Committee/Department e.g.: maximum score 15

MAX SCORE: maximum possible score in the "overall scientific production assessment": E.g.: [6 (max score per criterion)

• 3 (number of criteria)] = 18

SCORE: Sum of score assigned to the "overall scientific production assessment" for the single candidate e.g.: (criterion a: 6 + criterion b: 4 +etc... = 14) e.g.: 14

$$(x) = \frac{14 \times 15}{18} ; (x) = 11.67$$

It also predetermines the general criteria for:

The evaluation of the oral examination designed to verify the proper knowledge of a foreign language and/or Italian language for foreign applicants.

In its first session, the Committee shall also:

- set out the types of publications that are to be evaluated;
- decide the weighting of each criterion and parameter to be taken into account;
- set out any further criteria and parameters that are more selective than those indicated in the notice;
- establishes the date, time and place where the public discussion of the titles and scientific production will take place, as well as the verification of the knowledge of the foreign language and/or the Italian language for foreign candidates.

This publication has the value of full notification and therefore no further convocation will follow. If the date indicated by the Commission for the interview has changed, the new date will be published in the section indicated <http://www.unich.it/concorsigelmini2019> by means of a notice; however, no further communication to candidates will follow. This publication will be made 20 days before the date indicated for the discussion.

The Selection Committee may hold the sessions online.

The criteria adopted shall be made public by posting in the official University register, for at least seven days and with, at the same time, the inclusion in the website of the University. After seven days, the Committee may proceed in its activities. The members of the Committee access the documentation presented by the candidates online and, in order to guarantee the confidentiality of the data, access is via codes assigned by the university and communicated to each of the Committee members.

The date of publication will be considered the useful day for publicity.

In the second session, the Committee must declare that there are no situations of incompatibility with the candidates in accordance with articles 51 and 52 of the Italian Code of Civil Procedure, and that there are no relationships by marriage or by civil union or cohabitation regulated in compliance with law dated 20 May 2016, No. 76, or of kinship or affinities within the 4th degree, with them.

The Committee carries out a preliminary comparative assessment of the candidates, with justified analytical judgment on their titles, curriculum and publications, including their doctoral thesis, if presented, and overall scientific production.

Following the preliminary comparative assessment, the Committee shall admit between 10 and 20 percent of the candidates of comparatively higher merit to public discussion of the qualifications and scientific production, and in any case not less than six candidates. All candidates are admitted to the discussion if their number is equal to or lower than six.

Promptly - with respect to the date set for the interview - a report will be published containing a reasoned preliminary assessment of the candidates.

Following the public discussion, the Committee assigns a score to the titles and curriculum vitae, to each of the publications presented, and to the overall scientific production, and expresses an opinion on the oral test aimed at ascertaining the adequate knowledge of a foreign language and of the Italian language for foreign candidates. These assessments will be made public through publication in the official University Register and, at the same time, will be posted on the University website, being considered as a notification to all intents and purposes.

The Committee must establish for each title the criterion on the basis of which to assign the score, respecting the consistency of the titles with the S.S.D. that is the subject of this procedure.

In assessing the overall scientific production, the Committee may take into account that already indicated by the applicant when submitting the application.

The Committee is required to apply the principles expressed in the European Charter for Researchers on the qualitative and quantitative evaluation of merit. This evaluation focuses on exceptional results obtained in a personal path diversified exclusively in the number of publications and considers teaching and supervision activities, teamwork, the transfer of knowledge, research management, innovation and public awareness activities. Career breaks, for the purpose of pursuing other experiences with public or private bodies, or changes in the chronological order of the curriculum, are considered as a contribution to the professional development of researchers along a multi-dimensional pathway. Any mobility or change of discipline or sector is considered a valuable contribution.

The consultation of the publications covered by intellectual property rights will take place with respect for the laws in force in defence of publishing activity and copyright.

The proceedings of the selection procedure consist of the minutes of each meeting of which the justified analytic judgments relating to the preliminary comparative evaluation, the scores assigned to the qualifications and publications of candidates admitted to public discussion, and the evaluation of the oral examination aimed at ensuring adequate knowledge of a foreign language and/or Italian language for foreign applicants, are an integral and necessary part.
