

DiLe Diploma de Lengua Española, Cultura y Civilización

The Universidad Autónoma de Madrid (UAM) is being systematically ranked among the top 3 Spanish universities. UAM has a 550-acre open air campus with several teaching and research related buildings, as well as plenty of sport fields, facilities, and residence halls for students and faculty members in campus.

UAM is about to launch SAM, Study Abroad at Madrid - UAM, a program to help students to develop their Spanish language skills and acquire a deeper understanding of several aspects of our rich and varied culture. In this regard, we have envisaged several subprograms with different length and intensity for different purposes.

SAM includes a variety of programs like Summer School, Pre-session, Fast – Track, and Tailor-made Spanish courses to accommodate your needs in terms of Spanish language level, Spanish culture classes, duration, intensity, accommodation, calendar, non-academic activities (field trips). Just let us know what your needs are and we will prepare a proposal just for you.

In September 2014 will be launched DiLe, ‘Diploma de Lengua, Cultura, y Civilización Española’ (Diploma on Spanish language, culture, and civilization). The Diploma is a program structured in two semesters where students improve their Spanish language skills and learn about Spanish culture (art, literature, politics, economics...). Students may take one or two semesters at their own convenience. Every semester has 225 teaching hours. There will be a maximum of 30 students per class with the best teachers.

Application date starts in May 15th, 2014.

A certificate will be given at the end of the course. The Diploma is also ideal for students willing to enroll in an official Spanish degree (at graduate and undergraduate level).

Our programs are designed to have mixed groups of international students from any country around the world. However, separate group for your students can also be arranged (minimum 25 students).
