The Selection Committee shall be composed of at least three members, usually three professors of the scientific/discipline sector(s) being the subject of the selection identified, after the expiry of the notice, by the Department that proposed the activation of the contract. At least one of the members must be a professor who **does not** belong to the University G. d'Annunzio of Chieti-Pescara.

In case of absence of teachers on the scientific/discipline sector(s), professors in a related field will be appointed.

The Committee may also include one or more experienced members in cases of contracts to be activated by external funding.

The appointment of the Committee shall be established by decree of the Rector published on the official University register and, at the same time, the University website.

From the date of publication in the Official Register of the University of the decree of appointment of the Committee, a period of thirty days shall commence during which candidates can submit any instances of recusal of the Committee members to the Rector. After that period, and in any case after the establishment of the Committee, no instances of recusal of the Committee members shall be accepted.

The Committee shall select a Chairperson and a Secretary in charge of the minutes of its meetings among its members.

The Committee shall carry out its activities in the presence of all its members and take its decisions by an absolute majority of its members.

The Committee may use computer tools for collective work, in order to allow for the completion of the work within the prescribed period of four months from the date of appointment by decree of the Rector.

Participation in the activities of the Committee is an official obligation of its members, except in cases of force majeure. The causes of incompatibility and the changes of the legal status occurred after the decision to appoint the Committee do not affect the position as a member of the Selection Committee.

Art. 9 – Duties of the Selection Committee

During its first meeting, after having verified the eligibility of applications, subject to a declaration of all its members that there is no reason for incompatibility and absence of conflict of interest, the Selection Committee predetermines the general criteria for:

- a. The preliminary comparative evaluation of the curriculum, qualifications, and scientific production, including the doctoral thesis;
- b. The evaluation of the oral examination designed to verify the proper knowledge of a foreign language and/or Italian language for foreign applicants.

The Committee also predetermines the criteria for the assignment of an analytical score to the qualifications and to each publication submitted by the candidates admitted to the discussion, to the maximum extent, respectively, of 20 points for qualifications and 80 points for publications.

The criteria adopted shall be made public by posting in the official University register, for at least seven days and with, at the same time, the inclusion in the website of the University. After seven days, the Committee may proceed in its activities.

In its first session, the Committee shall also

- set out the types of publications that are to be evaluated;

- decide the weighting of each criterion and parameter to be taken into account;
- identify any additional more selective criteria and parameters than those specified in the call.

The weighting of the criteria and parameters must be balanced and justified.

The Selection Committee may hold its sessions using IT systems. The Committee members have access via computer to the qualifications and publications, as well as to the related documentation, via access codes assigned by the University.

The Committee carries out a preliminary comparative assessment of the candidates, with justified analytical judgment on their curriculum, their qualifications and scientific production, including their doctoral thesis, according to the criteria and parameters which are also recognised internationally and identified by a decree of the Italian Ministry of Education, University, and Research MIUR No. 243 dated 23 May 2011 concerning “Criteria parameters for the preliminary assessment of candidates for public procedures for selecting recipients of contracts pursuant to art. 24, paragraph 2, letter c) of the Italian Law dated 20 December 2010, No. 240”.

Following the preliminary comparative assessment, the Committee shall admit between 10 and 20 percent of the candidates of comparatively higher merit to public discussion of the qualifications and scientific production, and in any case not less than six candidates. All candidates are admitted to the discussion if their number is equal to or lower than six. Following the discussion, a score is assigned to qualifications and to each publication submitted by admitted candidates.

The list of candidates admitted to the discussion, together with justified analytical judgments relating to the preliminary comparative assessment, as well as the location, date and time of the discussion and of the oral examination are published on the official register of the University and entered in the University website at least 20 days before the discussion. This publication shall be fully considered as a notification. Therefore, the candidates are required to appear with a valid document of identity on the day(s) and place to be determined without any further notice or call. Failure of the candidate to appear shall be considered as final implicit withdrawal from the selection.

The Committee proceeds with public discussion of qualifications and publications with candidates and, in the same context, with the oral test, which is designed to verify the proper knowledge of a foreign language and/or Italian language for foreign applicants.

After the discussion, the Committee assigns an analytical score for qualifications to each of the publications submitted by the candidates admitted to the discussion, makes a judgment on the oral examination, and identifies the suitable candidate by a decision made by the majority of the members.

The overall ratings assigned to the qualifications and publications of candidates admitted to the discussion and the judgment on the oral test aimed at assessing adequate knowledge of a foreign language and/or Italian language for foreign applicants shall be made public by posting on the official register of the University and, at the same time, entered in the website of the University. This publication shall be considered as a notification in all respects.

The proceedings of the selection procedure consist of the minutes of each meeting of which the justified analytic judgments relating to the preliminary comparative evaluation, the scores assigned to the qualifications and publications of candidates admitted to public discussion, and the evaluation of the oral examination aimed at ensuring adequate knowledge of a foreign language and/or Italian language for foreign applicants, are an integral and necessary part.

Art. 10. Evaluation of Qualifications and Curriculum

The preliminary comparative assessment of candidates as per the article above shall be carried out by the Committee, with reference to the specific sector of the competitive exam and any profile defined only by specifying one or more scientific areas of the curriculum and the following qualifications, which shall be duly documented:

The evaluation of each qualification shall be made considering specifically the significance that it has in respect of the quality and quantity of the research carried out by the individual candidate.

Art. 11. Evaluation of Scientific Production

In making the preliminary comparative assessment of candidates, the Committee shall take into account only publications or texts accepted for publication in accordance with the rules in force as well as essays included in collective works and articles published on paper or digital magazines, with the exception of internal notes or departmental reports. Doctoral thesis or equivalent qualifications are taken into account even in the absence of above-mentioned conditions.

The Committee shall carry out a comparative assessment of the publications on the basis of the following criteria:

- a) Originality, innovation, rigorous methodology, and relevance of each scientific publication;
- b) Consistency of each publication with the competitive exam sector for which the selection procedure is called and with any profile, which is defined only by specifying one or more scientific/discipline areas, or through interdisciplinary matters related thereto;
- c) Scientific relevance of the editorial position of each publication and its dissemination within the scientific community;
- d) Analytical determination, on the basis of criteria set forth in the reference international scientific community, of the individual contribution of the applicant in the case of participation of the applicant in team works.

The Committee shall also evaluate the overall consistency of the candidate's scientific production, its intensity, and its continuity through time, with the exception of adequately documented periods of involuntary stop of research activities, with particular reference to parenting.

In the context of competitive exam sectors in which their use is consolidated at the international level, the Committee shall also make use of the following indicators, in assessing publications, which refer to the date of expiry of the deadline for submission of applications:

- a) Total number of references;
- b) Average number of references per publication;
- c) Total “impact factor”;
- d) Average “impact factor” per publication;
- e) Combinations of the above parameters aimed at increasing the impact of the candidate's scientific production (Hirsch index, or similar).

Art. 12. Conclusion of the Activities of the Committee

The activities of the Committee shall be completed within four months from the order of appointment. The Rector may extend only once and for not more than two months the deadline for completion of the procedure in the case of proven and exceptional reasons reported by the Chairperson of the Committee.

In the event that the activities are not completed within the extension period, the Rector, in a reasoned decision, shall initiate the procedures for replacement of the Committee or of its members components who are liable for the causes of the delay, in accordance with the identification procedures set out in this call and establishing at the same time a new deadline for the completion of the activities.

At the end of the selection process, the Committee, on the basis of overall scores achieved, shall establish the classification and designate the winner or declare that there is no winner.

In the case the Committee identifies the existence of irregularities in the conduct of the procedure, the Rector shall send the relevant documents to the Committee, with a reasoned decision, and assign a deadline for a review of the procedure. The Rector shall approve the formal correctness of the reports of the procedure sent by the Committee, which are published on the University website.

Art. 13. Call of the Department

The Department shall proceed, within 60 days from approval of the documents, with the proposal to call the winner.

The resolution is valid if approved by the affirmative vote of an absolute majority of teachers of first and second level (“prima e seconda fascia”) of the organisation.

The failure to adopt a call resolution, within the deadline mentioned above, involves the inability of the organisation that required the call for candidatures to request a new selection for the same sector for a period of one year.

The resolution containing the proposed call is submitted to the Board of Directors for approval.

In the event that the winner refuses the contract before it is signed, the department may proceed to a new call by following the order in the classification list.
