**ART. 8 - PROCEDURES FOR THE ONLINE MEETINGS OF THE COMMISSION**

In application of D.R. no. 953, prot. no. 43861 of 16/06/2022, which issued the "Rules for the online conduct of collective and selective sessions for the recruitment of personnel", the Commission’s meetings will be held online.
The members of the selection boards attend the meeting using their own devices, in compliance with the procedures envisaged in the aforementioned Rules.

**ART. 9 – PROCEDURES FOR THE VERBAL INTERVIEW**

The verbal interview will also take place online using the Microsoft Teams platform, in view of the agreements in place regarding data sharing.

With this in mind, when filling in the application, the candidate must indicate their Skype address so that they can be contacted in the public call for the interview. The Commission will organise the meeting on Teams, forwarding the link for connection to the candidate's email address.

The duly signed Form G "Declaration of acceptance of telematic mode", must also be sent with the application.

The interview shall be held in compliance with the following principles:
(a) simultaneous connection between participants;
(b) security of the data and information exchanged during the session;
(e) publicity of the tests;
(d) guarantee of unambiguous identification of candidates.

The use of audio-video connection tools must allow
(a) visibility of the candidate throughout the test;
(b) correct identification of the candidate by means of a valid identity document;
(c) holding of the session in public, guaranteed by the possibility of connection in temporary mode for the entire duration of the session by all candidates and by third parties who request this from the Administration.

Like the members of the selection boards, candidates attend the interview session using their own devices. Università d'Annunzio shall not be held liable in the event of technical problems of any kind that are not attributable to it and which do not allow the test to begin or to be conducted correctly.

The online interview will be preceded by the following preliminary activities:
a) the candidate must formally accept the online mode, undertaking not to use any aids and to ensure the absence of supporting persons during the test;
b) the candidate must certify that they are aware that Università Gabriele d'Annunzio is exempt from all liability in the event of technical problems of any nature whatsoever not attributable to the latter, which do not allow the test to begin or to be conducted correctly.
c) the online connection between the members of the selection board and all the candidates must necessarily take place on the date and at the time scheduled by the selection board, in accordance with the calendar published on the University website;
d) The connection must be audio and video;
e) the session is conducted by the Chairman of the Commission, who must immediately check the operation of the audio-video connection with the candidates and the other members of the Commission. To this end, candidates are asked to log on at least 20 minutes before the start of the online session;

Please note that the Commission is entitled, by means of a communication from the President - once the candidates have been contacted via the Skype address provided - to invite all candidates and any others present at the call to enter the Microsoft Teams platform via the link created for this purpose by the Commission.

If one of the members of the Commission or one of the candidates is unable to take part or to continue participating in the discussion or the test for technical reasons, the session will be suspended and must be resumed as soon as possible, in compliance with the provisions adopted by the Chairman.

In any case, the identification of the candidate and publicity of the test must be ensured.

In order to take part in the online interview, candidates must indicate their Skype contact details in their application and ensure that the workstation from which they will be interviewed is equipped with both a webcam - essential for recognising candidates - and a microphone and headphones/headset. Candidates must show the Commission their identity document and a copy of their application at the beginning of the online interview.

Please note that the candidate must be available at the Skype contact previously indicated in the application, on the date and at the time indicated for the interview. Omission or incorrect communication of a personal Skype contact will be considered as a waiver of participation in the interview and, therefore, the selection.

In the event of failure to reply and/or the unavailability of the candidate on the appointed date or at the appointed time, the Commission will immediately attempt to contact the candidate either by email or by calling them on their mobile phone number in order to invite them to answer the Skype call and attend the interview. Failure to reply will also be considered as a waiver of participation in the interview and, therefore, the selection.

The connection must remain active for the duration of the test. In the event of an interruption of the connection, the above shall apply.

Failure to present the identity document sent as an attachment to the application, or a copy of the application itself, will also be considered as a waiver of participation in the interview and, therefore, the selection.

The candidate is responsible for providing proof of the causes and/or technical anomalies and/or criticalities beyond their control which prevented them from taking part in the interview. In this case, the candidate must immediately inform the Commission by email.

The interview will take place as follows:
a) following activation of the connection and completion of the above-mentioned preliminary activities, the Chairman of the commission will check the list of those admitted to the test and identify them;
b) the order of discussion is determined by drawing lots and the Chairman of the Commission invites the first candidate to get ready;
c) the commission proceeds with the tests with the first candidate and, subsequently, with each of the other candidates;
d) after the tests have been completed, the Chairman of the Commission closes the session with the candidates and the online connection;
e) the Commission continues the session without the presence of the candidates and proceeds to assess each candidate, awarding scores in relation to the criteria decided at the preliminary meeting;
f) the secretary of the commission, or the Chairman of the commission, draws up the minutes, which are read together by the members of the commission and signed by all commissioners. Commissioners who do not have digital signatures shall make their own concurrence statements, which shall be attached to the minutes and kept by the secretary, or the Chairman of the commission. The minutes are forwarded to the office in charge of the Administration of the competition procedure together with the minutes of the other meetings, if any.

The contract will be considered rescinded with no need for forewarning in the event of annulment of the selection process.

In order to determine the date of effect of service, delays can only be justified in the event of duly proven and documented serious health conditions or causes of force majeure.
Any deferrals of the start date of the research activities or interruptions of the same that may arise will only be allowed if the winner or grant owner can prove they fall within the conditions provided for working mothers (Legislative Decree no. 151 dated 26/3/2001).

SECTION 4 INFORMATION FOR RESIDENTS ABROAD

The undersigned, in compliance with President of the Republic Decree no. 445 dated 28/12/2000, hereby declares:

(tick the relevant boxes)

4.1 Non-resident without fixed premises in which to carry out activities in Italy, with no tax return in Italy for this particular case, thereby their activity cannot be ascribed to any of the hypothetical cases provided above. Payments are subject to withholding tax as per art. 25 pf President of the Republic Decree no. 600/1973 if there is no international double taxation agreement in place between the country of residence and Italy and/or any convention in place does not apply the exoneration of taxation in Italy and/or there is not intention to request the application of the conventional treatment.

TO BE
Non-resident without fixed premises in which to carry out activities in Italy, with no tax return in Italy for this particular case, thereby their activity cannot be ascribed to any of the hypothetical cases provided above. Payments are exempt from withholding tax as per art. 25 of President of the Republic Decree no. 600/1973 in relation to that provided through the international bilateral double taxation agreement between Italy and ______________ as per Italian Law ______________ art. __________ which establishes the taxation of income from activity in the country of residence of the recipient for the income situation subject to the appointment.

In order to apply the international double taxation agreement to income produced in Italy by non-residents, it is necessary to provide the following documents to this administration:
1. certificate of residence abroad issued by the competent foreign authorities;
2. tax certificate issued by the designated foreign authority regarding the taxation situation in the foreign country (with court-certified Italian or English translation);
3. self-certification that the subject wishes to avail themselves of the convention between their country of origin and Italy;
4. copy of a document of identification.

Considering the high level of responsibility taken on by the University for the application of the treatment provided by the double taxation agreements, the certificate mentioned in point 2 (issued during the current tax year) must include a declaration attesting that the person in question is indirectly subject to tax and therefore subject to taxation in the foreign country of residence and must also, furthermore, revoke the double taxation agreement signed between the country of residence and Italy. Should said document be lacking in the above-described elements, it shall not be accepted for application of the relief provided for by the international agreement of reference and all payments will be taxed according to the current fiscal and national insurance regime in force in Italy.

By signing you hereby give your consent to the processing of all data provided for institutional purposes and in compliance with the law regarding personal data protection.
Università degli Studi G. d'Annunzio di Chieti - Pescara is in the process of updating the information to be supplied to data subjects, in compliance with the provisions of European Regulation 2016/679 on the protection of individuals with regard to the processing of personal data (referred to hereinafter more simply as "the Regulation"). Consequently, this information on the processing of your personal data, which is a requirement under current legislation, may be subsequently amended and/or supplemented (in which case you will be promptly informed).

In order to facilitate the reading and understanding of its contents, the disclosure is divided into specific paragraphs, as follows: I. Purposes of processing; 2. Legal basis of processing; 3. Method of processing; 4. Nature of the provision of data; 5. Communication of personal data and any transfers abroad; 6. Data subjects; 7. Data retention periods; 8. Rights of the data subject and how to exercise them; 9. Personal data protection officer.

1. Purposes of processing

In accordance with the provisions of current legislation, we wish to inform you that Università G. d'Annunzio (referred to hereinafter simply as "the University") processes your personal data in order to allow you to access the posts envisaged by the University's calls for applications, or to take part in recruitment procedures for employment as an employee or contractor.

For your greater awareness, the main definitions of the legislation in force are outlined below. "Personal data" shall mean "any information relating to an identified or identifiable natural person ("data subject"); an identifiable person is one who can be identified, directly or indirectly, by reference in particular to an identifying factor such as a name, an identification number, location data, an online identification or to one or more factors specific to their physical, physiological, genetic, mental, economic, cultural or social identity"; while "processing" means "any operation or set of operations, performed with or without the aid of automated processes and applied to personal
data or sets of personal data, such as the recording, organisation, structuring, storage, adaptation or amendment, extraction, consultation, use, communication by transmission, disclosure or any other form of availability, comparison or interconnection, restriction, deletion or destruction”.

The University processes your personal data, particularly personal and tax data, as well as data relating to criminal convictions and offences, solely for the purpose of carrying out activities relating to selection, comparative and assessment procedures for the recruitment of staff, or for the activation of collaboration contracts.

The University may also process your personal data for statistical purposes.

The processing of your personal data is carried out in compliance with the legislation currently in force, the rights, fundamental freedoms and dignity of the data subject, with particular reference to confidentiality, personal identity and the right to the protection of personal data, as well as the principles of lawfulness, correctness, relevance, proportionality and purpose.

2. Legal basis of the process

For the purposes referred to in paragraph 1 above, the personal data provided by you are processed in compliance with the conditions set out in article 6, par. 10, lett. b) and lett. c) of Regulation (EU) 2016/679, the processing being necessary for the performance of the procedures indicated, as well as for the fulfilment of specific legal obligations incumbent on the University.

3. Processing methods

The processing of your personal data is carried out, by means of the operations or set of operations indicated by the above-mentioned statutory definition of “process”, with or without the aid of electronic instruments.

4. Nature of the supply of data

The nature of the provision of personal data is compulsory as it is necessary for the fulfilment of the competition procedures. Your refusal to provide personal data will make it impossible for the University to carry out the activities necessary for the fulfilment of the aforementioned procedures.

5. Disclosure of personal data and possible transferral abroad

Your personal data will be processed by the structures and employees of the University exclusively for the purposes instrumental to the procedures.

Your personal data will also be processed by the Examination Commissions, by the Ministry of Education, University and Research (MIUR) - as part of the compulsory disclosures required for teachers/researchers and research grant holders who are successful in order to update the ministerial databases - by the Certifying Administrations when checking the affidavits submitted pursuant to Presidential Decree 445/2000.
If necessary for the above-mentioned purposes, and also for the use of services upon individual request, your personal data may be disclosed to public or private companies, including:

- Job Centre or territorially competent body for recruitment pursuant to Law 68/1999;
- Provincial administrations and the Regional Job Centre regarding the policy on employment, termination and changes to the employment relationship, drawn up pursuant to Law 68/1999;
- Legal authority (Criminal Code and Code for Criminal Procedure);
- private companies that manage the platform through which it is possible to submit an application.

The University also uses the support of external suppliers for the provision of specific services instrumental to the management of the procedures for the sole purpose of the service requested. The list of said external suppliers, who may become aware of personal data, is available on the University website (www.unich.it).

The University does not disclose your personal data to entities (either public or private) located in countries outside the European Union.

The University will publish your data in observance of the limits envisaged by the legislation currently in force, for the needs of disclosure relating to the procedure, i.e. for the fulfilment of the statutory provisions on transparency and information in the context of publicly announced selection procedures.

6. Data controller

The data controller is Università G. d’Annunzio, located in via Vestini 31, 66100 Chieti, legally represented by the Rector, Tel. +39 0871 - 3556010, e-mail rettore@unich.it; certified email: ateneo@pec.unich.it.

7. Data retention period

Your personal data, with particular reference to registry data and career data, shall be kept for 10 (ten) years, without prejudice to the longer term that may be necessary due to the possible use of the rankings in place, or for an unlimited period of time if the procedure has been the subject of litigation. The retention of the remaining data is subject to the periods imposed for retention of the administrative acts that contain it (reference to the maximum retention period for documents relating to university staff files, as well as the current University regulations on the flow of documents issued with D.R. no. 397 dated 28/06/2013).

8. Rights of the data subject and methods of exercise

Under the legislation currently in force, you, as data subject, are entitled to:
- obtain from the data controller confirmation as to whether or not personal data relating to you is being processed;
- obtain access to your personal data and, in particular, to the following information: the purposes of the process; the categories of personal data undergoing processing; the recipients or categories of recipients to whom the personal data has been or will be disclosed, particularly if they are recipients belonging to third countries or international organisations; where possible, the period for which the personal data is to be retained or, if this is not possible, the criteria used to determine that period; whether or not automated decision-making, including profiling, takes place and, if so, significant information on the logic used, as well as the importance of the process and the envisaged consequences of such process for the data subject;

<td>Investigate the recurrence times, their variability and probability of occurrences of moderate-to-large magnitude earthquakes in a fault-based 3D model, including coseismic Coulomb stress changes, and time-dependent fluid migration and viscoelasticity. The 3D fault model will mimic complex networks of active faults. The objective is to build a workflow, computational resources and realistic benchmarks that can be tuned to include alternative inputs. These will simulate synthetic catalogues of earthquake ruptures, including multi-fault ruptures, useful to study how inputs affect the resulting space-time evolution of earthquake series and their epistemic uncertainties. The available earthquake catalogues will be used to rank the modelled space-time earthquake series.</td>
