After that period, and in any case after the establishment of the board, no instances of recusal of the Examiners shall be accepted.

The Examining Board shall select a Chairperson and a Secretary in charge of the minutes of its meetings, from among its members.

The examining Board shall carry out its activities in the presence of all its members and take its decisions by an absolute majority of its members.

The Examining Board may use computer tools for collective work, in order to allow for the completion of the work within the prescribed period of four months from the date of appointment by decree of the Rector.

Participation in the activities of the board is an official obligation of its members, except in cases of force majeure. The causes of incompatibility and the changes of the legal status occurred after the decision to appoint the board do not affect the position as a member of the Examining Board.

Art. 9 – Duties of the Examining Board

During its first meeting, after having verified the eligibility of applications, subject to a declaration of all its members that there is no reason for incompatibility and absence of conflict of interest, the Examining Board predetermines the general criteria for:

- a. the preliminary comparative evaluation of the curriculum, qualifications, and scientific production, including the doctoral thesis;
- b. the evaluation of the oral examination designed to verify the proper knowledge of a foreign language and/or Italian language for foreign applicants.

The Board also predetermines the criteria for the assignment of an analytical score to the qualifications and to each publication submitted by the candidates admitted to the discussion, to the maximum extent, respectively, of 20 points for qualifications and 80 points for publications.

The Examining Board may hold the sessions online.

The criteria adopted shall be made public by posting in the official University register, for at

least seven days and with, at the same time, the inclusion in the website of the University. After seven days, the board may proceed in its activities. The Examiners access the documentation presented by the candidates online and, in order to guarantee the confidentiality of the data, access is via codes assigned by the university and communicated to each of the Committee members.

The date of publication will be considered the useful day for publicity.

In its first session, the Examining Board shall also:

- set out the types of publications that are to be evaluated;
- decide the weighting of each criterion and parameter to be taken into account;
- set out any further critical criteria and parameters that are more selective than those indicated in the announcement.

In the second session, the Examining Board must declare that there are no situations of incompatibility with the candidates in accordance with articles 51 and 52 of the Italian Code of Civil Procedure, and that there are no family relationships or affinities within the 4th degree, inclusive, with them.

The Examining Board carries out a preliminary comparative assessment of the candidates, with justified analytical judgment on their curriculum, their qualifications and scientific production, including their doctoral thesis, according to the criteria and parameters which are also recognised internationally and identified by a decree of the Italian Ministry of Education, University, and Research MIUR No. 243 dated 23 May 2011 concerning “Criteria parameters for the preliminary assessment of candidates for public procedures for selecting recipients of contracts pursuant to art. 24, paragraph 2, letter c) of the Italian Law dated 20 December 2010, No. 240”.

Following the preliminary comparative assessment, the examining Board shall admit between 10 and 20 percent of the candidates of comparatively higher merit to public discussion of the qualifications and scientific production, and in any case not less than six candidates. All candidates are admitted to the discussion if their number is equal to or lower than six. Following the discussion, a score is assigned to qualifications and to each publication submitted by admitted candidates.

The location, date and time of the discussion and of the oral examination are published on the official register of the University and entered in the University website at least 20 days before the discussion.

The list of candidates admitted to the discussion, together with justified analytical judgments relating to the preliminary comparative assessment will also be published.

These publications shall be fully considered as notifications in all respects. Therefore, the candidates are required to appear with a valid document of identity on the day(s) and place to be determined without any further notice or call. Failure of the candidate to appear shall be considered as final implicit withdrawal from the selection.

The Examining Board proceeds with public discussion of qualifications and publications with candidates and, in the same context, with the oral test, which is designed to verify the proper knowledge of a foreign language and/or Italian language for foreign applicants.

After the discussion, according to the provisions of article 12, the Examining Board assigns

an analytical score to qualifications and to the publications submitted by the candidates admitted to the discussion, evaluates the oral examination, and identifies the suitable candidate by resolution made by the majority of the members.

The overall ratings assigned to the qualifications and publications of candidates admitted to the discussion and the judgment on the oral test aimed at assessing adequate knowledge of a foreign language and/or Italian language for foreign applicants shall be made public by posting on the official register of the University and, at the same time, entered in the website of the University. This publication shall be considered as a notification in all respects.

The consultation of the publications covered by intellectual property rights will take place with respect for the laws in force in defence of publishing activity and copyright.

The proceedings of the selection procedure consist of the minutes of each meeting of which the justified analytic judgments relating to the preliminary comparative evaluation, the scores assigned to the qualifications and publications of candidates admitted to public discussion, and the evaluation of the oral examination aimed at ensuring adequate knowledge of a foreign language and/or Italian language for foreign applicants, are an integral and necessary part.
