THE RECTOR

Considering the Italian Law dated 9 May 1989, No. 168 and subsequent amendments and additions, "Formation of the Ministry of University and Scientific and Technological Research";

Considering the Italian Law dated 7 August 1990, No. 241 and subsequent amendments and additions, "New regulations on administrative procedure and right to access administrative documents";

Considering the Italian Law dated 5 February 1992, No. 104 and subsequent amendments and additions, "Framework Law on assistance, social integration and rights of disabled people";

Considering the Italian Decree of the President of the Council of Ministers, D.P.C.M. dated 7 February 1994, No. 174 and subsequent amendments and additions, "Regulations on access by citizens of EU Member States to the workplace when employed by the public administrations";

Considering the Italian Law dated 27 December 1997, No. 449, and subsequent amendments and additions, "Measures for the stabilisation of public finance";

Given the legislative decree of June 5, 1998, n.204 containing "provisions for the coordination, planning and evaluation of the national policy relating to scientific and technological research, pursuant to Article 11, paragraph 1, letter) d, of Law 15 59 March 1997";

Given in particular Article 1 paragraph 2 of the aforementioned Decree, which provides that the National Research Plan (PNR) is prepared, approved and annually updated, pursuant to Article 2 of the same decree, with reference to the European dimension and international research and taking into account regional research initiatives, contributions and realities;

Considering the Italian Presidential Decree D.P.R. dated 28 December 2000, No. 445 and subsequent amendments and additions, "Consolidated text of laws and regulations on administrative documentation (Text A)";

Considering the Italian Legislative Decree D.Lgs. dated 30 March 2001, no. 165, and subsequent amendments and additions, "General legislation on the employment by public administrations";

Considering the Italian Legislative Decree D.Lgs. dated 06/9/2001, no. 368, and subsequent amendments, "Implementation of directive 1999/70/EC relating to the framework agreement on temporary employment, concluded by the UN/CE, CEEP and CES";

Considering the Italian Law dated 15 April 2004, No. 106, and subsequent amendments and additions, "Laws relating to the legal deposit of documents of cultural interest destined for public use";

Considering the Italian Presidential Decree D.P.R. dated 11 February 2005, No. 68, and subsequent amendments and additions, "Regulations indicating provisions for the use of certified e-mail, in compliance with article 27 of the Law dated 16 January 2003, no. 3";

Considering the Italian Legislative Decree D.Lgs. dated 7 March 2005, No. 82, and subsequent amendments and additions, "Code on digital administration";

Considering Recommendation dated 11 March 2005, no. 2005/251/EC and subsequent amendments and additions, "Recommendation of the Commission concerning the European Charter for Researchers and a code of conduct for the employment of researchers";

Considering the Italian Law dated 31 March 2005, no. 43, and subsequent amendments and additions, "Conversion into Law, with amendments of Decree Law dated 31 January 2005, no. 7 containing urgent provisions for universities and research, for cultural heritage, for the completion of big, strategic works, for the mobility of public employees, and to simplify the fulfilment of obligations relating to tax duty and licensing taxes. Amnesty of the effects of article 4, paragraph 1, of Decree Law D.L. dated 29 November 2004, no. 280";
Considering the Italian Law dated 4 November 2005, No. 230, and subsequent amendments, "New provisions concerning university professors and researchers and mandate to the Government for the reorder of the recruitment of university professors";

Considering the Italian Legislative Decree D.Lgs. dated 11 February 2006, No. 198, and subsequent amendments and additions, "Code of equal opportunities between men and women", in compliance with article 6 of the Law dated 28 November 2005, no. 245";

Considering the Italian Presidential Decree D.P.R. dated 3 March 2006, No. 252, and subsequent amendments and additions, "Regulations on the matter of the legal deposit of documents of cultural interest destined for public use";

Considering the Italian Law dated 9 January 2009, no. 1, and subsequent amendments and additions, "Conversion into Law, with amendments, of Decree Law dated 10 November 2008, no. 180, with urgent provisions for the right to study, the promotion of merit and the quality of the university system and of research";

Considering the Italian Ministerial Decree D.M dated 28 July 2009, No. 89, assessment of qualifications and scientific publications;

Considering the Italian Law dated 30 December 2010, No. 240, and subsequent amendments and additions, "Legislation for the organisation of universities, academic staff and recruitment, as well as mandate to the government to encourage the quality and efficiency of the university system";

Considering the Italian Ministerial Decree D.M dated 25 May 2011 No. 242, and subsequent amendments and additions, "Criteria and parameters for the assessment of educational and research activities carried out by the holders of contracts under Art. 24, paragraph 3, letter a) of Law No. 240/2010";

Considering the Italian Ministerial Decree D.M dated 25 May 2011 No. 243, and subsequent amendments and additions, "Criteria and parameters acknowledged, also in an international sphere, for the preliminary assessment of candidates for receiving contracts under Art. 24, of Law No. 240/2010";

Considering the note of the Italian Ministry for Education, University, and Research MUIR No. 818 dated 25 May 2011 on the procedure for calls for candidates;

Considering the Italian Presidential Decree D.P.R. dated 15 December 2011, No. 232 and subsequent amendments and additions, "Regulations for the salary of professors and university researchers, in accordance with article 8, paragraphs 1 and 3 of the Italian Law dated 30 December 2010, No 240";

Considering the Italian Legislative Decree D.Lgs. dated 29 March 2012, No. 49 and subsequent amendments and additions, "Discipline for the programming, monitoring and evaluation of the budget and recruitment policies of univeristias, implementing the mandate envisaged by article 5, paragraph 1, of Law No. 240 dated 30 December 2010, for the achievement of the aims envisaged by paragraph 1, letters b) and c), according to the legislative principles and directive criteria established by paragraph 4, letters b), c), d), e) and f) and in paragraph 5";

Considering the Italian Decree of the President of the Council of Ministers, D.P.C.M. dated 27 September 2012 "Technical rules on the identification, also online, of the holder of the certified e-mail box, in compliance with article 65, paragraph 1, letter c-bis), of the Code for digital administration, pursuant to Legislative Decree dated 7 March 2006, no. 82, and subsequent amendments";

Considering the Italian Law dated 6 November 2012, No. 190 and subsequent amendments and additions, "Measures for the prevention and suppression of corruption and lawlessness in public administration";

Considering the Italian Decree of the President of the Council of Ministers, D.P.C.M. dated 22 February 2013 and subsequent amendments and additions, "Technical rules on the generation, application and verification of advanced, qualified and digital electronic signatures in compliance with article 20, paragraph 3,24, paragraph 4,28, paragraph 3,32, paragraph 3, letter b), 36, paragraph 2, 36, paragraph 2, and 71";

Considering the Italian Legislative Decree D.Lgs. dated 14 March 2013, No. 33 and subsequent amendments and additions, "Reorganization of the regulations on the right of civic access and the obligations of publicity, transparency and dissemination of information by public administrations";

Considering the Italian Presidential Decree D.P.R. dated 16 April 2013, No. 62, and subsequent amendments and additions, "Regulations on the code of conduct of public employees, in compliance with article 54 of legislative decree, dated 30 March 2001, no. 165";

Given the EU Regulation no. 1303/13 of the European Parliament and of the Council of 17-12-2013 laying down common provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund, the European Agricultural Fund for Rural Development and the European Business Fund and the general provisions on the European regional development fund, the European Social Fund, the Cohesion Fund and the European fund for maritime affairs and fisheries and which repeals Council Regulation (EC) No. 1083/06 and subsequent amendments;

Considering the Italian Law dated 23 December 2014, No. 190, "Provisions for the formation of the annual and long-term budget of the State (stability law 2015)";
Considering the Italian Ministerial Decree D.M dated 30 October 2015, No. 855, "Redetermination of competition sectors and macrosectors";

Considering the Italian Decree of the President of the Council of Ministers, D.P.C.M. dated 6 November 2015, No. 4/2015 and subsequent amendments and additions, "Regulations on the digital signing of classified documents";

Considering the report of the Italian University Council (CUN) prot. no. 1479/2016 ‘report on the update of Ministerial Decree D.M. dated 2 May 2011, No. 2’;

Considering the Italian Ministerial Decree D.M. dated 7 June 2016, No. 120 "Regulations governing criteria and parameters for the assessment of candidates for the assignment of national scientific qualification for access to posts as level one and two university professors, as well as methods for verifying the qualification of the Commissioners, in compliance with article 16, paragraph 3, letters a), b) and c) of Law dated 30 December 2010, no. 240, and subsequent amendments, and articles 4 and 6, paragraphs 4 and 5, of Italian Presidential Decree dated 4 April, no. 95";

Considering the Italian Ministerial Decree D.M. dated 1 September 2016, No. 662, "Definitions of the table of correspondence between Italian and foreign academic positions" with the related integration pursuant to the Ministerial Decree D.M. dated 1 June 2017, No. 372;

Considering the Italian Law dated 27 December 2017, No. 205 (Budget Law 2018), and in particular Art. 1, paragraph 633, which states "in order to support the access of young people to research, the responsible autonomy of universities and the competitiveness of the Italian university system and Italian research at international level", and paragraph 635 which states: "Suspension of fixed-term contracts of female researchers during the period of compulsory suspension for maternity and extension of the contract for a period equal to that of compulsory abstention";

Considering the Italian Ministerial Decree D.M Italian Ministry for Education, University, and Research MIUR No. 589 dated 8 August 2018, which defines the threshold values of the indicators of the impact of scientific production with relative Tables 1-2-3 and 4;

Given the D.D. 30/04/2018 n. 1052 "Procedure for the formation of the 2018/2020 National Commissions for the granting of the national scientific qualification to the functions of university professor of 1st and 2nd bracket";

Considering the Italian Legislative Decree D.Lgs. dated 10 October 2018, no. 101, and subsequent amendments and additions, "Provisions for adapting national law to Regulation (EU) No 2016/679 of the European Parliament and of the Council of 27 April 2016 in relation to the protection of individuals with regard to the processing of personal data and on the free movement of such data and repealing Directive 95/46/EC (General Data Protection Regulation)";

Considering the note of the Italian Ministry for Education, University, and Research MIUR prot. no. 10022 dated 1 August 2018 on 'provisions for compliance with the limits on staff costs and borrowing costs by universities for the three-year period 2018-2020 and Decree on staff points 2018';

Considering Italian Decree of the President of the Council of Ministers, dated 28 December 2018 on 'Provisions for compliance with the limits on staff costs and borrowing costs by universities for the three-year period 2018-2020, In compliance with article 7, paragraph 6 of Italian Legislative Decree dated 29 March 2012, No. 49", as mentioned by Italian Ministerial Decree D.M. dated 29 December 2018, No. 873;

Considering the sentence of the Constitutional Court no. 78 dated 6 March 2019;

Considering the note of the Italian Ministry for Education, University, and Research MIUR prot. 990 dated 18 April 2019 on the Procedures pursuant to articles 18, 22 and 24 of Law 240/2010 - Causes of incompatibility;

Considering the Ministerial Decree 740 of 08-08-2019 which reaffirms, among other things, the aforementioned gratuity for the call of RTD / A;

Considering the coordinated text of the directorial decree of February 26, 2021, n. 553, as rectified by the directorial decree of 5 March 2021, n. 569, relating to the procedure for obtaining the national scientific qualification for the functions of first and second level university

considering the D.L. 30/12 // 2019, n. 162 (Decree "Milleproroghe 2020"), converted with amendments by law February 28, 2020, n. 8, containing urgent provisions regarding the extension of legislative terms;

Considering the D.L. 9 January 2020, n. 1, converted, with amendments, by law 5 March 2020, n. 12, and, in particular, Article 1 which establishes the Ministry of Education and the Ministry of University and Research, with the consequent suppression of the Ministry of Education, University and Research;
Given the provisions relating to the COVID-19 emergency and in particular the rules indicated below;
Considering the D.L. 19/05/2020, n. 34 "Urgent measures in the field of health, support for work and the economy, as well as social policies related to the epidemiological emergency from COVID-19", (Relaunch Decree), converted, with amendments, by law 17/07/2020, n. 77;
Considering to the L. 30/12/2020, n. 178 “State budget for the financial year 2021 and multi-year budget for the three-year period 2021-2023 published in the Official Gazette - General Series no. 322 of 12/30/2020 - S.O. n. 46 (Budget Law 2021);
Considering the D.L. 31/12/2020, n. 183 "Urgent provisions regarding legislative deadlines, creation of digital links, implementation of Council Decision (EU, EURATOM) 2020/2053 of 14 December 2020, as well as the withdrawal of the United Kingdom from the European Union" ("Milleproroghe 2021"), with which it was established that the resources relating to the turnover of the years from 2013 to 2019 can be used until 31.12.2021;
Considering the note MUR prot. n. 743 of 19/01/2021 entered in the acts with prot. n. 3248 of 19/01/2021 with which Minister Manfredi, in view of the resumption of the teaching activities of the second semester which will take place in the various universities between the months of February and March this year, recognizing the opportunity, respecting the autonomy of each institution, to plan in good time the methods of teaching delivery in light of the new provisions contained in the DPCM of 14/01/2021, invites the institutions to put in place all the necessary decision-making and organizational procedures in a short time, establishing, on the basis of the aforementioned Prime Ministerial Decree (Article 1, paragraph 10, letter u) an articulation of the didactic activities that takes into account the specificities of the individual organizational and territorial realities, as well as the progress of the epidemiological framework, in order to guarantee, where possible, a more significant carrying out of activities in the presence. This is within the limits of the guidelines of the Ministry of University and Research and in agreement with the decisions of the relevant regional university committees;
Having regard to the EU Regulation 2020-2021 of the European Parliament and of the Council of 23 December 2020 amending the EU R. 1003/13 regarding the additional resources and implementation methods to provide assistance in order to promote the effects of the crisis in the context the Covid - 19 pandemic and its social consequences and prepare for a green, digital and resilient recovery of the economy (REACT - EU);
Given the decree of the President of the Republic February 5, 2018 n. 22, "Regulations containing the eligibility criteria for expenditure for programs co-financed by the European Structural Investment Funds (SIE) for the 2014/2020 programming period;
Given the New NRP for research 2021/2027 approved by resolution of the Interministerial Committee for Economic Planning n.74 / 20 of 15 December 2020 which approved the new National Research Program (NRP) 2021/2027;
Given the D.D. 29/01/2021, n. 251 "Procedure for the formation of national commissions 2021-2023 for the granting of the national scientific qualification to the functions of university professor of first and second level;
Given the D.D. n. 553 of 25/02/2021 "Procedure for obtaining the national scientific qualification (ASN) for the functions of first and second level university professor”;
Given the D.M. n. 1062 on 10.08.2021 relating to the National Operational Program (PON) "Research and Innovation" 2014-2020 with which, as part of the PON endowment, they were assigned to the University "G. D'Annunzio" of Chieti-Pescara Parma, € 1,498,403.38 for the activation of public selection procedures for the recruitment of fixed-term researchers of type a) pursuant to art. 24, paragraph 3, of law no. 240/2010. as part of Green research contracts and € 878,185.14 as part of research contracts on innovation issues;
Given the note MUR n. 12025 of 8.9.2021 concerning "Indications regarding Ministerial Decrees no. 1081 and n. 1062 of 10 August 2021 "which reads as follows:” Ministerial Decree 1062/2021 provides that the financial coverage of the selected researchers will be ensured with the resources referred to in the decree until 31 December 2023 and that the financial coverage of the contracts for the period following the December 31, 2023, must be financed by the individual beneficiaries of the resources referred to in art. 1, charged to its budget. The universities therefore finance the remaining portion of the contract with resources from their own budget. It is also permitted to use the resources referred to in Ministerial Decree 737 of 25/06/2021, art. 2, point 1 (the minimum percentage of employment reserved for research contracts can be freely increased by the same), or other external funds...";
Given the Ministerial Decree no. 737 of 25.06.2021
Having regard to art. 2, paragraph 3, of Ministerial Decree 1062 which provides that the research contracts signed by the beneficiaries and recipients of the resources may provide for the full-time or defined-time commitment regime and that the quantification of research, teaching, supplementary teaching and student service activities, is established pursuant to art. 6, paragraphs 1 and 2, of law no. 240 of 2010;
Having recalled art. 3 of Ministerial Decree 1062 referred to above, entitled "Selection of operations" which reads as follows: "1. Each subject beneficiary (omissis) under penalty of inadmissibility to finance the operations with the resources referred to in this decree, proceeds with the selection of candidates through one or more ad hoc public notices, providing for the implementation of activities strictly coherent and responsive to the restricted thematic areas referred to in art. 2, paragraph 2, letters a) and b) on the basis of a consistency assessment carried out by the body deemed competent and in line with the provisions of the Regulations;

Considering that public selection notices must be issued in compliance with current legislation and the regulations in force in the individual universities;

Considering that the MUR checks the admissibility of the contracts selected and assigned to the individual universities through the MUR online platform http://www.ponricerca.gov.it/siri;

Recalled the Implementation regulations for "research and Innovation" 2014-2020, with particular reference to actions iv.4 "PhDs and research contracts on innovation topics" and action iv.6 "research contracts on green issues" considers it an integral part of this announcement and to which reference should be made for the purposes and effects of the law indicated therein;

Having acknowledged that the documents cited last are published at the same time as this announcement on the page dedicated to the procedure;

Taking into account the need to rapidly start the measures envisaged in the NOP "RESEARCH AND INNOVATION" 2024/2020 which will be implemented through the financial support of the strategic RIACT-EU resources at Union level for the response to the current pandemic crisis and for the seven-year period 2021-2027;

Taking into account the need to ensure the necessary coherence and complementarity between the initiatives supported by the NOP RESEARCH AND INNOVATION 2014/2020, the initiatives in favor of research envisaged by the National Recovery and Resilience Plan (transmitted by the Government to Parliament on 25.04.2021 and subsequently to the European Commission pursuant to art.18, paragraph 3 of the Reg. 2021/241) and the initiatives in favor of Research to be activated for the Community programming period of the Structural Funds 2021/2023;

Considering the need to strengthen measures to support scientific research and to ensure the development of strategic lines in line with the objectives of the next MULTIANNUAL FINANCIAL FRAMEWORK 2021-2027 with the European Union's Horizon Europe research and innovation framework program and with the goals for sustainable development identified in the United Nations 2030 AGENDA;

Given that the topics proposed by the NOP for research and innovation 2024/2000 are related to actions IV.4 "Doctorates and research contracts on innovation topics" and IV.6 "Research contracts on green topics" in implementation of which guaranteed support;

Given the selection criteria of the operations approved by the Supervisory Committee of the PON (Research and innovation) 2014-2020 with written procedure concluded with note prot. n. 11692 of 2 August 2021, for the selection of ESF REACT-EU resources and in particular, of action IV.4 "PhDs and research contracts on innovation topics" and action IV.6 - "Research contracts on Green issues ";

Having recalled the resolutions taken by the University Departments with which these fora identify the projects subject to consistency assessment by the Board of Directors, necessary for the consequent approval of the activation of the 20 procedures for the recruitment of fixed-term researchers, pursuant to art. 24, paragraph 3, lett. a), of law no. 240/2010, under a full-time / defined commitment regime, the financing of which will weigh, for the years 2022 and 2023, on the endowments referred to in the Ministerial Decree. 1062/2021 and for the third year (2024) with funds identified by the Departments in accordance with the aforementioned Ministerial Decree;

Recalled the resolution of the Board of Directors in the session of 28/09/2021 "PON R&I - FSE - REACT-EU - MUR-DM 1062 OF 10.08.2021 - measures and activation of selective procedures" concerning the distribution, between departments, of posts of rtd a), following the resources assigned with DM 10 August 2021 n. 1062 relating to the endowment of the PON "Research and Innovation" 2014-2020 - Actions IV.4 - "Doctorates and research contracts on innovation topics" and IV.6 - "Research contracts on Green issues", with which they were divided, among the departments of the University, n. 20 fixed-term researcher positions of type a) from the resources referred to in Ministerial Decree 1062 of 10 August 2021 of which n. 13 in relation to the project proposals presented under Action IV.4 - "Doctorates and research contracts on innovation topics" and no. 07 in relation to the project proposals presented under action IV.6 - "Research contracts on Green issues";

Having regard to paragraph 4 of art. 3 of the aforementioned Ministerial Decree n. 1062 of 10/08/2021 which provides that: "4. The research contracts activated, following the selections in favor of researchers, by the individual beneficiaries of the resources referred to in table A in implementation of this Decree must:

- to relate to disciplinary and thematic areas (Competition Sector and Scientific-Disciplinary Sector) consistent with the bound issues referred to in points a) and b) of art. 2 ("Action IV.4 - Doctorates and research contracts on innovation topics" and Action IV.6 - Research contracts on Green topics ");

- provide for the implementation of the entire assignment, at the administrative and operational headquarters of the
beneficiary University, without prejudice to the research periods at the company and abroad, planned consistently with
the research activities planned at the premises of the beneficiary;
- provide for research periods within the company from a minimum of six (6) months to a maximum of twelve (12) months;
- And. provide for research periods abroad from a minimum of six (6) months to a maximum of twelve (12) months
  (optional);
- ensure that the researcher can make use of qualified and specific operational and scientific structures for the activities
  Research;
- promote the exploitation of research results and guarantee the protection of intellectual property;
- encourage the involvement of companies in defining the research path also in the context of multiple collaborations
  large with the University the. ensure compliance with horizontal priorities (climate, digital transition, biodiversity, equality
  between women and men) ";

**Considering that the research contracts to be financed within the resources assigned to each beneficiary subject referred**
**to in mod. 1 (attached to the announcement) must be selected in relation to the ability to contribute to the achievement of**
**the aims and objectives of the reference Action of the PON "Research and innovation" 2014-2020, on the basis of the**
**selection criteria approved by the Supervisory Committee referred to in the introduction, according to the following**
**specifications:**

**Having recalled the "COVID-19 anti-contagion security protocol of the" G. D'Annunzio ";**
**Having recalled the "University Regulations for the recruitment of Researchers with fixed-term contracts", issued with D.R. n. 172 of 23 December 2011 modified with D.R. n. 96 of 23/01/17 modified with D.R. n. 206 of 25/02/2021;**
Referring to the Regulations on the academic duties of professors and researchers, on the methods of self-certification, verification and evaluation of teaching and service tasks for students, as well as verification of research activity, issued with D.R. 15 February 2017, n. 597 and subsequent amendments;

Referring to the Integrated Plan for performance, transparency and corruption prevention for the three-year period 21-23, approved by the Board of Directors in the session of 26/01/2021 and available on the University website;

Recalled the 2019/2023 University Strategic Plan approved by the Board of Directors on 25/06/2019 on the opinion of the Academic Senate made in the session of 11/06/2019;

Given the D.R. n. 377 prot. n. 14714 of 02/03/2020, on "Adoption of measures to contain the risk of the epidemiological emergency from COVID-19";

Having regard to the decree law n.105 of 23 July 2021 which extends the state of emergency due to the pandemic from Covid -19 until 31 December 2021;

Given the D.R. n. 437 of 2020 - prot. n.17650 of 11.3.2020 with which the "Temporary Regulation for the conduct of collegial sessions electronically" and amended with D.R. n. 466 of 19.3.2020;

Given the financial availability resulting in the University Budget in reference to the Departmental Funds necessary to finance the contracts referred to in this call for applications for the last year 2024, as indicated by Decree 1062 of 10 August 2021 and by the Regulations connected to it, mentioned above;

Given that for any aspect not expressly governed by this announcement, reference is made in full to the purposes and effects of the law to Ministerial Decree no. 1062 of 10 August 2021 and the Implementing Regulations connected to it and that therefore the activation of the selected contract is strictly subject to and bound to the occurrence of the conditions referred to in the aforementioned decree and specification which will be published together with this announcement;

Given that the notice relating to the publication of this announcement is made in the Official Gazette of 09.28.2021 no. 77.

DECREES

Art. 1 - Subject of the selection
A selective evaluation comparison procedure is launched for the recruitment of n. 20 fixed-term research positions - art. 24 paragraph 3 lett. A) of L 240/2010 (Junior) and by D.M. n. 1062 of 20/08/2021, with full-time commitment - as per Mod. 1 (profiles expressed by means of an indication by S.S.D.) attached at the bottom of the announcement together with Mods. A, B and C, within the National Research and Innovation Program PON "research and innovation" 2014 - 2020, of which n. 13 within ACTIONS IV.4 "DOCTORAL PROGRAMS AND RESEARCH CONTRACTS ON INNOVATION TOPICS" and 7 within ACTION IV.6 "RESEARCH CONTRACTS ON GREEN TOPICS";

Art. 2 - Activities to be carried out under “junior contract”

The Researcher with junior contract is expected to perform, as part of the institutional teaching commitment, at least one annual teaching course or equivalent per academic year. The commitment of the full-time fixed-term Researcher is set at 1,500 hours of work per year, of which a maximum of 350, if full time, and 200 under defined time, are dedicated to teaching, integrated teaching, and service to students, including career advice, tutorship and learning assessment activities – in compliance with art. 6 Law 240/10. Within the scope of the teaching activities, the fixed-term researcher can do a maximum of 60 hours of frontal teaching per academic year, according to the methods outlined in the work contract. In addition to frontal teaching activity carried out during bachelor’s degree courses, master’s degree courses and single cycle courses, for basic teaching (or combined teaching modules) characterising or accompanying within the scope of the disciplinary scientific sector, frontal teaching activities relating to chosen teachings of the study courses, or performed during doctorate courses, masters and specialisation schools fall within the formative activities quantifiable for the purposes of the provisions of this paragraph. In order to check the breakdown of the total hours destined to the researcher’s research activity, a specific register can be used. The provisions on the self-certification of teaching activities envisaged by Regulations (D.R. n. 597 dated 15 October 2017) apply to researchers on temporary contracts, insofar as they are compatible. The activity of the fixed-term researcher is subject to successful review, carried out in the form of written report, of the research programme and educational project. The activities of teaching, integrated teaching, and service to students carried out by the Researcher shall be shown in a specific register to be submitted annually to the approval of the Organisation responsible for teaching. The research activities will be subject to a specific technical-scientific report to be submitted annually to the approval of the Department the researcher refers to. The rejection of the technical-scientific report or register of lessons may give just cause to terminate the contract. All of the above in compliance with the “Regulations on the academic duties of professors and researchers, on self-certification methods, the verification and assessment of educational tasks and services to students, as well as verification on the research” activity, (issued by Rector’s Decree D.R. No. 597 dated 15 February 2017).

According to the rules for their legal status, professors and researchers fulfil their commitment by personally carrying out the teaching activities assigned to them in accordance with current legislation (supplementary teaching
activities and/or lessons), within the degree programmes, master's degree courses, specialisation courses, and courses to obtain master degrees and PhDs Seminars and laboratory activities and field testing of any kind, carried out as a complement of courses under the authority of the teacher, shall be evaluated as part of the educational activity.

Teachers shall ensure their accessibility and availability for tutoring and for reception of students during the whole of the academic year, regardless of the time schedule of the courses. In particular, teachers secure at least one day a week of reception, for a period of not less than two hours, to be held in the facilities of the University.

The hours of lectures, tutorials, and other educational activities, including weekly hours for reception of students, are established in order to ensure that individual teachers dedicate time to teaching in not less than three distinct days of the week, in the manner determined by the individual Departments.

Researchers are required to attend the meetings of the Department Boards and other bodies, as well as the academic committees of which they are members.

The position of professor and researcher is incompatible with the exercise of trade and industry, with the option to set up businesses with characteristics of university spin-offs or start-ups, in accordance with articles 2 and 3 of the Italian Legislative Decree dated 27 July 1999, No.297.

The exercise of freelance activity is compatible with fixed-term basic employment.

All of the above in compliance with the provisions of Regulations pursuant to art. 6, paragraphs 2, 3, 7 and 8 of Law no. 240/2010.

The implementation of the activities for the purposes of eligibility under the PON Research and Innovation Actions 2014 – 2020 - ACTIONS IV.4 “DOCTORAL PROGRAMS AND RESEARCH CONTRACTS ON INNOVATION TOPICS” AND ACTION IV.6 “RESEARCH CONTRACTS ON GREEN TOPICS” Must take place no later than 31.12.2023 and the resources will be insured by 31.12.2023.

Art. 3 - Admission requirements

The candidates can be citizens of countries outside the European Union and shall have the following:
• PhD or equivalent qualification attained abroad or, for the areas concerned, medical specialisation diploma.

The above qualification must be held on the date of expiry of the deadline for the submission of applications for admission to this selection.

In the case of a PhD obtained abroad, it is necessary to enclose, under penalty of exclusion, the decree equivalent to the title of research doctor of the Italian university system issued in compliance with art. 74 of Presidential Decree no. 382/80 or the determination of equivalence of the foreign title to the Italian title issued in compliance with art. 38 of Legislative Decree no. 165/2001. Pending the release by the competent bodies, only for the determination of equivalence can candidate’s present the receipt of presentation of the request for the same (for the release procedure, see: http://www.funzionepubblica.gov.it/strumenti-e-controlli/modulistica). In this case, the candidate will be admitted subject to selection with reserve and, if declared the winner at the end of the competition, such winning candidate shall have 30 consecutive days from the date of communication of the Decree approving the acts by the University to send the Document of equivalence. Failure to send the Decree of equivalence within the indicated time limit will result in automatic exclusion from the procedure. This is to allow the timely call by the Department within the terms of the current Regulations.

In the case of medical specialisation attained abroad, it is necessary to annex, under penalty of exclusion, the decree of acknowledgement with the title of the Italian university system issued in accordance with Presidential Decree no. 162, 10.03.1982. Pending the release by the competent bodies of the decree of acknowledgement, candidate’s present the receipt of presentation of the request for the same (for the release procedure, see: http://www.salute.gov.it/ProfessioniSanitariePubblico/). In this case, the candidate will be admitted subject to selection with reserve and, if declared the winner at the end of the competition, such winning candidate shall have 30 consecutive days from the date of communication of the Decree approving the acts by the University to send the Decree of acknowledgement. Failure to send the Decree of equivalence within the indicated time limit will result in automatic exclusion from the procedure. This is to allow the timely call by the Department within the terms of the current Regulations.

In any case, applicants are admitted to the selection with reserve. If additional preparatory activity is required, the candidates must complete their application within the deadlines assigned, or they will be excluded.
Until the signing of the employment contract, the Rector may, by justified decision, order the exclusion of the candidate due to the lack of any of the requirements for admission provided.

The following persons cannot participate in the selection:

- first and second level professors and researchers already employed for an unlimited period of time, including those who are no longer in service due to retirement;
- those who have had contracts as research fellows and fixed-term researchers under Articles 22 and 24 of Law 240/2010 at the University of Chieti-Pescara or at other Italian State, non-State, or online universities, as well as the entities referred to in paragraph 1 of Art. 22 of Law 240/2010 for a period which, when added to the expected duration of the contract of the call, exceeds a total of 12 years, although not necessarily continuous. For the calculation of the duration of the aforementioned contracts, any periods of time spent away from work on maternity leave or for health reasons shall not be included, according to current legislation;
- those who have been excluded from the enjoyment of civil and political rights;
- those who have been dismissed or excluded, or declared exonerated from civil service in a Public Administration.
- those who, at the deadline for presentation of the application, have a relationship by kinship or affinity to the fourth degree with a professor or researcher of the Department that requires the activation of the contract, or with the Rector, or the General Manager, or a member of the Board of Directors of the University.

The University ensures equal rights and opportunities for men and women for access to employment and treatment at work.

The maximum number of scientific publications to present is specified in Form 1. If the maximum limit of publications is exceeded, the adjudicating commission will evaluate them according to the order indicated in the list, only up to the limit established.

The above shall take place in application of the principles of effectiveness, efficiency and economic pursuit of the procedure. The aforesaid qualifications and requirements stated in the call must be held on the date of expiry of the last date for submission of applications for admission to the procedure.

The contract is awarded in accordance with the Code of Ethics of the University and cannot in any case be given to those who have a relationship by kinship or affinity to the fourth degree with a professor or researcher of the Department that requires the activation of the contract, or with the Rector, or the General Manager, or a member of the Board of Directors of the University.

For employees of public administrations with a fixed-term and open-ended employment relationship, if winners of the selection, the incompatibilities provided for by the current provisions of law and the relative CCNL remain in force

Art. 4 - Applications for Admission - Terms and Procedures

Pursuant to the applicable rules on the digitalisation of administrative documents, in accordance with the provisions of Art. 24, paragraph 2, letter a) of the Italian Law 240/10, in order to allow the proper conduct of this evaluation process using IT systems, the application for participation in this procedure, including the resume of qualifications and publications, should be written and formulated exclusively by means of the computerised procedure available on the website: https://concorsiigelimini.unich.it.

Specific instructions for completing the application will be available on the same website.

The online procedure allows candidates to create their own account (with personal username and password) by entering and registering their personal data, subject to prior acceptance of the clauses relating to the processing of personal data.

If the candidate is already registered in the system, in order to guarantee adequate protection of their identity, it may be necessary to register again, with a new personal email address.

Within the deadline for submission of the application, the system allows you to save the application even if it is not completely filled in.

To submit their application, after registration, applicants shall complete the following sections available in the personal reserved area:
• "admission requirements": the details of the qualifications required to participate in the selection (description of qualification: the type, date of graduation, the institution that released the qualification, and any grade awarded) must be entered in this section;

• "Information about the applicant": any additional personal details of the participant, which are useful for purposes of automatic completion of the application, as well as a declaration by applicants that they are not aware of being subjected to any criminal proceedings or pending criminal proceedings or trials, shall be entered in this section;

• "curriculum vitae" a scanned PDF file of a detailed curriculum of all activities performed and of scientific production must be uploaded into this section. The curriculum shall include the information concerning the periods of maternity leave, other periods of documented absence from service as provided for by law and other than those due to health reasons. PDF file. The curriculum must be dated and signed on the last page and scanned to generate a PDF file.

CONSIDERING THE CRITERIA AND ELEMENTS THAT WILL BE ASSESSED BY THE COMMITTEE, IN COMPLIANCE WITH ART. 10 OF THIS CONTEST, THE CANDIDATE IS INVITED TO PREPARE HIS/HER CURRICULUM VITAE IN A WAY WHICH COMPLIES WITH THEM, IN ORDER TO SIMPLIFY THE ORGANISATION OF THE ASSESSMENT ACTIVITIES BY THE COMMITTEE.

You are reminded that the fact that the qualifications to be assessed must be indicated by the applicant in the application is a general requirement for the contest and, as such, he/she shall describe the qualifications in the degree of detail necessary to allow assessment.

THE CURRICULUM WILL BE ASSESSED IF IT HAS BEEN UPLOADED TO THE ONLINE PLATFORM USED FOR THE SUBMISSION OF THE APPLICATION. THE CANDIDATE MAY, AT HIS OWN DISCRETION, ANNEX THE CURRICULUM WHEN COMPLETING THE APPLICATION.

• comprehensive scientific production: in this section, the candidate, having stated whether the sector of reference of the contest falls within the list of bibliometric or non-bibliometric sectors (refer to Annexes C and D of D.M. n. 120), must indicate: dated 7 June 2016, No. 120, and articles 1 and 2 of D.M. 589/2018) must indicate:

FOR THE BIBLIOMETRIC COMPETITION SECTORS:

• □ Consistency of the overall scientific production, with indication of the total number of publications, as well as the period in which the production was carried out (e.g. from 1999 to 2019);
• □ Intensity of the overall scientific production, with indication of the average of the publications per year referring to the period indicated above;
• □ Continuity of overall scientific production, with indication of the number of continuous years of scientific production referring to the period indicated above.

FOR NON-LIBRARY COMPETITION SECTORS:

• □ Consistency of the overall scientific production, with indication of both the total number of books and the total number of publications other than books (the book chapters, for example, must be understood as publications and not as books), as well as the period in which the production was put in place (e.g. from 1999 to 2019);
• □ Compressive Intensity of overall scientific production, with indication of the average of books per year and the average of publications other than books per year, relative to the period indicated above;
• □ Continuity of overall scientific production, with indication of the number of continuous years of all scientific production, relative to the period indicated above;

The list of publications referred to in this declaration shall be attached as a pdf file; at the end of the list of publications, the candidate will be responsible for indicating the periods of involuntary leave from the research activity, with particular reference to parental duties.

The system will automatically generate a list of the elements indicated above as completed by the candidate, with acknowledgement that the list of publications forming the total scientific production has been scanned. (The aforementioned list will be attached to the application and subject to self-certification at the time of submission of the application).
• "other qualifications acquired and patents": all qualifications obtained shall be entered in this section, with an analytical indication of the type, the date they were obtained, the releasing entity, and any score obtained. Any patents obtained shall also be entered in this section, with an analytical indication of the title, number, significance, authors, and year. Immediately following the completion, the qualification described can be scanned and uploaded in PDF format.

The system will automatically generate a list of qualifications, with acknowledgement that they have been scanned. The aforementioned list will be attached to the application and subject to self-certification at the time of submission of the application.

ONLY QUALIFICATIONS AND PATENTS THAT HAVE BEEN DESCRIBED/SCANNED IN THE SYSTEM WITH THE PROCEDURE SPECIFIED ABOVE WILL BE EVALUATED. ANY OTHER FORMS OF TRANSMISSION THAT ARE NOT CONSIDERED AS VALID AND USEFUL FOR THE PURPOSE OF PARTICIPATION IN THIS PROCEDURE ARE NOT ALLOWED.

THE INCLUSION OF QUALIFICATIONS AND PATENTS IN THE CURRICULUM RENDERED IN THE FORM OF SELF-CERTIFICATION EXEMPTS THE CANDIDATE FROM COMPLETING THE SECTION ON QUALIFICATIONS.

It should be noted that, in compliance with current regulations, the Committee's assessment will cover the curriculum only, while the qualifications presented will be considered only if, in addition to the curriculum vitae, they highlight one or more of the aspects that the Committee is required to assess in relation to this call. Therefore, the qualifications can be described directly in the curriculum, without filling in the qualifications section.

- It should, however, be noted that the Committee is required to examine all of the documentation presented by the candidate.

• "publications" the details of each publication submitted by the applicant shall be entered in this section, with an indication of the type: BOOK (including the title, authors, year, publisher, place of publication, total number of pages, ISBN, and the contribution of the candidate in joint publications, code 001); BOOK CHAPTER OR CONTRIBUTION TO BOOK (including the book title, title of chapter, editor, authors, year, publisher, place of publication, start and end page, ISBN, and contribution of the candidate in joint publications, code 001); ARTICLE IN SCIENTIFIC JOURNALS (including the title of journal and title of article, issue, instalment, year, authors, start and end page, ISSN, and contribution of the candidate in joint publications, code DOI), OTHER.

The candidate shall indicate, for each publication presented, the following:

→ for bibliometric competition sectors: year of publication, Impact Factor (IF) referred to the year of publication or, if unavailable, reference to the following year with relative indication. (should the impact factor refer to a different year to that previously indicated, the data must be included in the "other information" section, selecting the specific item) number of citations obtained by the publication until the year of presentation of the application, years from publication to the year of presentation of the application, average number of citations per year.

The candidate shall also indicate the database where the aforesaid data can be found (Scopus, WoS1).

→ for NON-bibliometric competition sectors:

---

1 Reference to the definitions pursuant to art. 1 of D.M. 120/2016 and to art. 2 of D.M. 589/2018.
2 Reference to Annex D of D.M. 120/2016 articles 4 and 5 as follows:
- article 4: "For each competition sector pursuant to paragraph 1, the ANVUR, also engaging experts and anonymous reviewers, determines and regularly updates, publishing them on its website:
  a) the list of all the scientific journals with ISSN;
  b) the list of "class A" scientific journals with ISSN, acknowledged as excellent at international level for the rigour of the review procedures and for the popularity, prestige and impact on professionals the sector, also indicated by the presence of the journals in the major national and international databases".
- article 5: "For the purposes of classification of the journals in class A, within the scope of those that adopt a peer review system, the ANVUR checks the possession of at least one of the following criteria with respect to the characteristics of the competition sector: quality of the scientific products reached in the RQA (research quality assessment) by the contributions published in the
a) whether it falls within the list of scientific journals;
b) whether it falls within the list of "class A" scientific journals;

Immediately following the completion, the publication shall be scanned and uploaded in PDF format.

ONLY PUBLICATIONS UPLOADED INTO THE SYSTEM WITH THE PROCEDURE SPECIFIED ABOVE WILL BE EVALUATED. ANY OTHER FORMS OF TRANSMISSION THAT ARE NOT CONSIDERED AS VALID AND USEFUL FOR THE PURPOSE OF PARTICIPATION IN THIS PROCEDURE ARE NOT ALLOWED.

The system will automatically generate a list of publications submitted, progressing in the order chosen by the candidate, with acknowledgement that they have been scanned. The aforementioned list will be attached to the application and subject to self-certification at the time of submission of the application.

The candidate is invited to pay particular attention to the order in which the publications are uploaded because of the maximum number of publications that can be presented in exceeded, the Committee will assess them in the progressive order established by the candidate during upload onto the platform, only up to the limit established, without considering the publications that exceed the limit pursuant to Form 1.

⇒ The candidate can present a smaller number of publications than the maximum allowed. However, the score will be based on the maximum number presentable, as indicated on MOD. 1.

The candidate is invited to check that the file has been correctly uploaded, also checking its size. If the file uploaded has a size of "0", it will be usable as such by the Commission, which will not be able to assess its content, but will be able to consider it as part of the list of publication suitable for assessment.

The application form will be automatically drawn up upon correct and complete compilation of all the sections indicated above. In accordance with the current University Regulations for the recruitment of fixed-term researchers (Issued with DR n.172 of 23/12/2011 ess.mm.ii), given the extremely short timeframe with which the Ministry has ordered the completion of the procedure. The deadline for the "closure" of the application is set at 11:59 pm on the twentieth day starting from the date of publication of the notice on the University website, at the dedicated link: https://www.unich.it/pon_dm1052.

THE EXPIRY IS FIXED ON 21 October 2021 IMPROROGABLY

At the end of the compilation of the application, the candidate must close it, clicking on the CLOSE APPLICATION button, printing it out and forwarding it for completion. The date and time of the "closure" as recorded by the system will be used as proof of this, without prejudice to the subsequent processing of the application.

Within the deadline for submission of the application, the system allows you to save the application even if it is not completely filled in.

After closure, the application must be completed in the manner set out below

The following must be entered in the system:

- the details of a valid identification document that must be annexed to the application;

when the application is "closed", the system:
- will show the unique ID code associated with the application;
- will record the date and time of "closure" of the application;
- will allow the user to print the application so that it can be submitted duly signed and dated to the Administration for completion;

- The application for admission to the competition must be completed with printing, signing and subsequent delivery to the University, by 11:59 pm on the twentieth day starting from the day following

    journal;

significant impact of scientific production, where appropriate".
the publication of the notice on the University website, at section dedicated to this purpose at the link: https://www.unich.it/pon_dm1062. The candidate can choose between one of the following methods of submitting the original application, with the relative attachments and a copy of the duly signed identification document:

- hand delivery to this University (Protocol Service – General Management Secretariat at the Rector’s Office, via dei Vestini n. 31 – 66100 CHIETI) - on Monday to Friday, from 9 a.m. until 12 noon (see art. 22);;

- sent by recorded delivery with notification of receipt to the Rector of this University, Via Dei Vestini, 31 – 66100 CHIETI -, within the aforesaid peremptory term. For the purposes of establishing this term, the postmark of the accepting post office shall be taken as proof.

The following method may also be used: dispatch via certified e-mail (PEC) of all the documentation (application and relative annexes) – digitally signed – in compliance with Legislative Decree dated 7 March 2005, no. 823- from a personal certified e-mail address registered in the candidate’s name, which should be formed of the candidate’s name.surname, issued by a professional order, to ateneo@pec.unich.it (indicating in the subject-matter of the certified e-mail “application to assessment procedure - ....” and indicate the competition sector.) Applications sent from a non-certified e-mail address will not be considered valid. It should be noted that the validity of the transmission of the certified e-mail message is certified by the receipt for acceptance and the receipt for delivery supplied by the e-mail carrier, in compliance with art. 6 of Presidential Decree 68 dated 11/02/2005. In the case of transmission via PEC, the date and time of transmission certified by the temporal reference contained therein shall prevail, pursuant to Prime Minister’s Decree of 22 February 2013 - art. 41 and legislative decree no. 82 of 7 March 2005 - art. 20.

3

Art. 1, letter s): “…digital signature: a particular type of advanced electronic signature based on a qualified certificate and a system of interrelated cryptographic keys, one public and one private, enabling the holder via the private key and the recipient via the public key, respectively, to manifest and verify the origin and integrity of a computer document or set of computer documents…”;

Art. 21 of paragraph 2, which states: “…”The computer document signed with advanced electronic signature, qualified or digital, formed in accordance with the technical rules pursuant to article 20, paragraph 3, which ensure the identifiability of the author, the integrity and unchangeability of the document, must be preserved for the time indicated in article 2702 of the Italian Civil Code. The use of a qualified or digital electronic signature shall be presumed to be traceable to the holder, unless the latter proves otherwise…”;

D.P.C.M. 06/11/2015, 4/2015 ‘Rules governing the digital signature of classified documents. (Decree no. 4/2015)’

Art. 7. Digital signature

1. The digital signature guarantees the identifiability of the author, the integrity and the unchangeability of the document.

2. The digital signature of the computer documents referred to in art. 2 must refer unambiguously to a single subject and to the document or set of documents to which it is affixed or associated.

3. For the generation of the digital signature of computer documents referred to in art. 2, a qualified certificate which, at the time of signing, is not out of date or has not been revoked or suspended must be used.

4. The qualified certificate must be used to determine the validity of the certificate itself, as well as the identification of the holder and the CA and any limits on use.

5. The procedures for affixing the digital signature to the computer documents referred to in art. 2 are defined in the Technical Specifications pursuant to art. 33.
In the case of dispatch to the University's certified e-mail, the documentation must be accompanied by a digital signature on this and all the documents on which a conventional hand-written signature would be required.

In the absence of a digital signature, the candidate, after completing the application with its annexes, must print them, sign them by hand, then scan them and send them via PEC in a "pdf" format that cannot be modified. All documents for which the handwritten signature is required in a traditional environment must be transmitted in signed copy and scanned in the above format.

The Administration cannot be held responsible if the files transmitted by PEC are not legible. Any applications delivered or mailed or sent after the deadline established by this Article will not be taken into account.

Applications that are not signed in accordance with the law will not be taken into consideration if the sender cannot be identified, or if the candidate's personal data is missing.

For the electronic transmission of documentation, static and not directly modifiable formats must be used, without macro-instructions and executable codes, preferably pdf.

The message must include in the subject the selection in which you want to participate, specifying the Department, the role, the competition sector and the scientific-disciplinary field.

Please note that certified e-mail does not allow the transmission of attachments with a total size of 50 MB or more.

If the annexes to be presented exceed this capacity, the candidate must send them in separate mails. He or she must send the application in a first mail and state that all or part of the annexes will be sent in one of more subsequent mails, to be sent before the final deadline for presentation of the applications, also by certified e-mail. The subject-matter of the additional e-mails must state: "addition to the application, Department, band, competition sector and scientific-disciplinary sector."

Any applications delivered or mailed or sent after the deadline established by this Article will not be taken into account.

If the deadline falls on a holiday, the deadline is extended to the next working day.

Any applications that are not signed as required by law or without the personal data of the candidate will not be taken into account.

Filling out the online form does not apply in any way to remedy the failure or late submission of the application, which must be submitted in the manner and within the term laid down in this article.

The publications, documents, and qualifications held and deemed useful for the purpose of benchmarking shall be submitted only in the manner indicated above no later than the final deadline for the submission of the application.

The documents can be uploaded until 23:59 hrs on the date of the deadline for submission of applications. We strongly recommended that you avoid forwarding applications close to the deadline, in order to avoid a massive use of the system that may lead to technical problems.

In line with the provisions of the law relating to dematerialisation of documents and to avoid the burden of the procedure resulting in higher costs to the public purse, the candidate shall submit the publications, qualifications, and documents, under penalty of exclusion, in electronic format and within the deadline prescribed.

Any documents and publications submitted after the deadline specified in the preceding paragraph will not be taken into account. Furthermore, any publications and certificates already submitted electronically will not be taken into consideration, if the application was not submitted through the procedures specified above by the final set deadline.

No reference may be made to certificates or publications submitted to this or other authorities, or certificates attached to another application to participate in another competition.
The consultation of publications subject to intellectual property rights must take place in observance of the laws on copyright and publishing.

The Administration will verify the truthfulness of the affidavits, pursuant to Art. 71 of the Italian Presidential Decree D.P.R. dated 28 December 2000 No. 445. If the check reveals the inaccuracy of the content of the declaration, the declaring person shall forfeit the benefits achieved on the basis of false declarations, subject to the provisions of Art. 76 of the aforementioned D.P.R. in the field of criminal penalties.

Only publications or texts accepted for publication will be evaluated in accordance with the rules in force as well as essays included in collective works and articles published on paper or digital magazines with the exception of internal notes or department reports. In line with the provisions relating to the RQA guidelines, publications can be considered as:

a) articles in journals, with an ISSN;

b) contributions in books and, with an ISBN or ISMN (Contributions in books comprise chapters or essays included in books, prefaces, epilogues, entries in dictionaries or encyclopaedias, and contributions to congress documents);

c) books and their chapters, including congress documents, with an ISBN or ISMN, as well as critical publications and scientific comments. (As far as books are considered, those to be considered are monographs or scientific treatises, concordances, critical editions of texts/excavations, publications of unpublished sources, scientific commentaries and translations of books);

d) deposited patents;

e) compositions, drawings, design, performances, organized exhibitions and shows, products, prototypes and works of art and their plans, databases and software, thematic papers when accompanied by publications, in order to allow adequate assessment.

Articles, etc. that are published abroad must, where possible, indicate the following details: date, place of publication or, the ISBN 0 or equivalent code

For works published in Italy before 2 September 2006, the obligations must be complied with, in accordance with the provisions of Art. 1 of the Lieutenancy Decree dated 31st August 1945, No. 660; as of 2 September 2006, the obligations must be complied with in accordance with the Law dated 15 April 2004, No. 108 and the related regulations issued by the Italian Presidential Decree D.P.R. 3 May 2006, No. 252, by the date of expiry of the notice of selection.

The fulfillment of such obligations shall be certified by appropriate documentation, attached to the work itself, or Italian citizens and citizens of the European Union can submit their self-declaration, pursuant to the Italian Presidential Decree D.P.R. dated 28 December 2000, No. 445, about the fulfillment of the obligation.

The qualifications and publications shall be submitted in the original language. The Commission may require a translation into Italian or English. The Administration also reserves the right to ask the candidate, at any time, to provide an official translation, which shall be made by the relevant diplomatic or consular authorities, or by an official translator.

If the candidate does not present the translation requested by the term established, the Commission, being unable to assess publications in languages that it cannot understand, will assess only those works that are comprehensible.

With reference to the aforementioned deadline, to the methods of transmission of the application to participate and the possession of the participation requirements, see the reference to the provision in art. 22 of this announcement.

Art. 5 – Content of applications

The application must indicate the following (as per Form A):

16
• name and surname (married women should indicate their maiden name);
• tax code (Italian or non-Italian citizens having a personal tax code issued by the competent Italian authorities);
• place and date of birth;
• place of residence, e-mail address, and the domicile of the applicant for the procedure. Division 13 (Teaching Staff and Researchers Recruitment Sector) of this University must be informed of any changes; A telephone number shall also be provided.
• nationality of the applicant;
• the selection the applicant intends to participate in, specifying the Department, the type (a), the competitive exam sector and the S.S.D. ;
• your skype address to be able to take the interview;
• possession of at least one of the following mandatory requirements (please tick the appropriate box):
  □ PhD or equivalent qualification obtained in Italy or abroad.
  □ Medical specialisation school certificate/Decree of acknowledgement in the sectors concerned.
• if an Italian citizen: the declaration of registration on the electoral roll with the indication of the local administrative area or the reasons for any non-registration or cancellation; if a non-Italian citizen: the declaration to be in the enjoyment of civil and political rights in the State of residence or origin;
• for Italian citizens only: military service situation;
• that the applicant has not been dismissed or laid off from a public authority due to persistent poor performance and he/she was not dismissed from a public employment according to art. 127, first paragraph, letter d) of the consolidated law on the statute of civil servants of the State, as approved by the Italian Decree of the President of the Republic dated 10 January 1957, No. 3;
• that the applicant is not already employed for an unlimited term as a university professor of “1st and 2nd fascia”, or as a researcher, even if dismissed from the service;
• that the applicant has not held contracts as a research fellow or fixed-term researcher under Articles 22 and 24 of Law 240/2010 at the University of Chieti-Pescara or at other Italian State, non-State, or online universities, as well as the entities referred to in paragraph 1 of Art. 22 of Law 240/2010 for a period which, when added to the expected duration of the contract of the call, exceeds a total of 12 years, although not necessarily continuous.
• for foreign citizens only: possession of an adequate knowledge of the Italian language;
• that the applicant has no criminal convictions, otherwise indicating any criminal convictions and indicating the details of the relevant sentences (even if amnesty, remission, pardon, or judicial plea-bargaining was granted) and any ongoing criminal proceedings of which they are aware or which are pending against them, with an indication of the authority and provisions allegedly infringed;
• that they do not have a relationship by kinship or affinity to the fourth degree with a professor or researcher of the Department that requires the activation of the contract, or with the Rector, or the General Manager, or a member of the Board of Directors of the University.
• that the applicant is aware that the appointment of the Committee will be decided by the Rector and published on the official register of the University and, at the same time, on the University website;
• that the applicant is aware that the criteria adopted by the Committee will be made public through publication, for at least seven days, in the official register of the University and, at the same time, on the University website;
• that the applicant is aware that the Committee, as a result of a preliminary assessment, admits to public discussion of qualifications and scientific production between 10 and 20 percent of candidates of comparatively higher merit, and in any case not less than six candidates and that all candidates will be admitted to the discussion if their number is less than or equal to six;
• to be aware that all those who have submitted an application and who have not received a notice of exclusion are considered summoned to take the oral interview on the date, place and time that the Commission will take care to indicate in the report of predetermination of the criteria that will be the subject of publication. This publication will take place at least 07 days before the date indicated for the interview and has the value of notification in all respects. The same will not be followed by further calls, both in the case in which the number of candidates is lower than 6, and in the case in which it is higher than 6.
• that the applicant is aware that exclusion following the preliminary assessment - even if the number of candidates exceeds six - will be made public through the publication of the relevant minutes. Applicants considered ineligible by the Committee should not be present on the date and at the place and time indicated;
• that the applicant is aware that the candidate’s responsibility to regularly check the section of the website http://www.unich.it/concorsielpimi2021-> sezione BANDI PON 1062/2021 where the competition notice is published and where all subsequent documents will also be published, including the number of applications submitted for participation in the procedure. If the date indicated by the Committee for the conduct of the interview
is changed, the new date will be published in the section marked [http://www.unich.it/concorsigelmini2021](http://www.unich.it/concorsigelmini2021) by means of a notice, but no further communication will be sent to the candidates. This publication will take place at least 07 days before the date indicated for the interview. [The timing is reduced due to the contingency of the terms imposed by the Ministry in the decisions regarding the loan];

- to be aware that following the discussion, a score is assigned to the qualifications and to each of the publications presented by the admitted candidates, as well as to the overall scientific production;
- the applicant is aware that the list of candidates admitted to discussion, together with justified analytical judgements relating to the preliminary assessment will be announced soon after the call indicated;
- the applicant is aware that an oral exam will be held, together with the public discussion of qualifications and publications, aimed at checking the adequate knowledge of a foreign language and/or Italian language for foreign candidates;
- the applicant is aware that the overall scores assigned to qualifications and publications of the candidates admitted to the discussion and judgment on the oral exam aimed at ensuring adequate knowledge of a foreign language and/or the Italian language for foreign candidates will be made public by posting them on the official register of the University and at the same included in the University website. This publication has the value of a notification in all respects;
- the applicant is aware that the outcome of the selection to the Committee, on the basis of overall scores obtained, forms the ranking and designates the winner or declares that there is no winner.
- the applicant is aware that the University "G. d'Annunzio" of Chieti-Pescara will process the data contained in the application for the purposes of managing the competition procedure in accordance with the provisions of EU Regulation no. 679/2016, having read Annex C, which is an integral part of the notice.

- to be aware and accept that the activation of the selected contract will be subject to the suspensive condition of the disbursement of the ministerial loan and to the termination condition, once activated, in the event of the existence of causes for revocation or suspension of the loan pursuant to and for the effects of the provisions referred to in the Ministerial Decree 1002/2021 and the Implementation Regulations, annexed to the announcement and their prerequisite acts.

- To be aware and accept that the selected contract must:
  
  A. relate to disciplinary and thematic areas (Competition Sector and Scientific-Disciplinary Sector) consistent with the bound issues referred to in points a) and b) of art. 2 (Action IV.4 - Doctorates and research contracts on innovation topics "and Action IV.6 - Research contracts on Green topics");
  
  B. provide for the implementation of the entire assignment, at the administrative and operational headquarters of the beneficiary University, without prejudice to the research periods at the company and abroad, planned consistently with the research activities envisaged at the premises of the beneficiary;
  
  C. provide for research periods within the company from a minimum of six (6) months to a maximum of twelve (12) months;
  
  D. provide for research periods abroad from a minimum of six (6) months to a maximum of twelve (12) months (optional);
  
  E. ensure that the researcher can make use of qualified and specific operational and scientific structures for activities and research;
  
  F. promote the exploitation of research results and guarantee the protection of intellectual property;
  
  G. encourage the involvement of companies in defining the research path also in the context of wider collaborations with the University;
  
  H. ensure compliance with horizontal priorities (climate, digital transition, biodiversity, equality between women and men)
• Information relating to research periods at companies and/or abroad are indicated in the project sheets published in the section relating to the publication of this call. It is the candidate’s responsibility to read the project sheets they intend to apply for.

The declarations made in the application are to be considered as made in compliance with the Italian Presidential Decree D.P.R. 28/12/2000, no. 445, by candidates who are entitled to use the forms of simplification of administrative certifications allowed by the aforementioned decree. In this sense, a copy of the identification document must be annexed to the application. A copy that has been scanned and uploaded to the platform is also considered to be correctly annexed.

The Administration reserves the right to carry out appropriate checks, including sample checks, on the truthfulness of the affidavits. If said checks show that the content of the declaration does not correspond to the truth, the applicant shall forfeit any benefits resulting from the provisions made on the basis of false declarations, subject to the provisions of the Criminal Code and any special laws in this field.

Any candidates with recognised disabilities, in accordance with the Italian Law dated 5 February 1992, No. 104, shall provide information about any aid they need in relation to their status, and the possible need for additional time for the interview.

Each candidate may elect a special domicile in the application, for the purposes of communications by the University Administration. The applicant must also indicate the phone numbers and e-mail address in the application.

Any change in the details provided in the application shall be promptly reported to the Rector by certified e-mail at ateneo@pec.unich.it or sent by registered letter with notification of receipt or delivered by hand (refer to provisions pursuant to art. 4).

The University Administration undertakes no responsibility in the event of unavailability of the recipient or for loss of communications due to incorrect address details provided by the applicant or due to missed or late reporting of change of the address specified in the application, or for any postal or telegraph misdelivery, or any misdelivery attributable to third parties, unforeseeable circumstances or force majeure, or if the files transferred via certified e-mail are illegible.

Art. 6 - Annexes to the application

The application TO BE COMPLETED ONLINE ONLY must be accompanied by:

• a photocopy of a valid identity document;

• a curriculum vitae, which must be uploaded to the online platform used for the submission of the application (it may, at the candidate’s discretion, also be attached when the application is completed);

• as well as the version of the curriculum legitimately corrupted by the candidate to obscure their data which will be published for the purposes of transparency of the evaluation.

• a list containing details of qualifications and patents filed, with proof of their scanning. The list shall be dated and signed (the list is generated automatically by the system when filling out the application);

• a list containing numbered indication of submitted publications, with proof of their scanning. The list shall be dated and signed (the list is generated automatically by the system when filling out the application);

• a list of all the documents attached to the application duly signed and dated (the list is generated automatically by the system when filling out the application);

• a list related to the “comprehensive scientific production” (the list is generated automatically by the system when filling out the application), dated and signed;

• declaration under Articles 46 and 47 of the Italian Presidential Decree D.P.R. No. 445/2000 of the indications described in the items listed above (Form B).
• for the doctorate degree obtained abroad, the equivalence decree with the title of research doctor of the Italian university system issued pursuant to art. 74 of Presidential Decree no. 382/80 or the determination of equivalence of the foreign qualification to the Italian one issued pursuant to art. 38 of Legislative Decree n. 165/2001. Pending the release by the bodies in charge, in the sole hypothesis of the determination of equivalence, it is possible to produce the receipt of delivery of the application requesting the same (for the release procedure, see the page: http://www.functionpublic.gov.it/tools-and-controls/forms).

Documentation proving the possession of qualifications and in the case of qualifications obtained abroad, their equivalence/acknowledgement, must be presented as follows:

- European Union citizens: they must demonstrate the possession of qualifications using the instrument of self-certification or affidavit (Form B);
- non-EU citizens in possession of a valid residence permit: they can produce original qualifications, in certified copy, or copy declared true to the original, in the manner provided for the citizens of the European Union, if they need to give proof of statuses, facts, and personal qualities certifiable by Italian public entities, or where the production of affidavits stems from the application of international conventions between Italy and the country of origin of the applicant;
- non-EU citizens not in possession of a valid residence permit may produce qualifications in original, certified copy, or copy declared true to the original. The certificates issued by the competent authorities of the country the non-EU citizen is a citizen of shall include an Italian translation authenticated by the Italian Consulate, which certifies that it conforms to the original.

In these latter cases, the documentation (qualifications in original, certified copy of the original, or copy declared true to the original) must necessarily be submitted together with the application and attachments.

The Administration reserves the right to carry out appropriate checks, including sample checks, on the truthfulness of the affidavits.

No reference may be made to documents submitted to this or other authorities, or documents attached to the application form to any other selection procedures.

Please note that the number of applications received is published on the website in the reserved section accessible at the following address www.concorsigelmini2019.

Art. 7 - Waiver of the Procedure by the Candidate

Any waiver of participation in the selection process, signed and dated, must be immediately reported to the Rector by certified e-mail at (ateneo@pec.unich.it) or sent by registered letter with notification of receipt or delivered by hand. (Refer to the provisions of art. 4).

The waiver will take effect from the first committee meeting following the date of receipt.

Art. 8 - Composition of the Selection Committee

For each procedure, the Commission usually includes three professors from the scientific sector (s) selected by the Department that proposed the activation of the contract. At least two of the members must be professors not belonging to the "G. d'Annunzio" of Chieti and Pescara. In the event of the absence of teachers in the scientific / disciplinary sector / s at the University, professors will be appointed within the relevant competition sector.

Each Commission must be composed in one of the following ways:
1) 1 internal member of the University + 2 external members
2) 1 intrainstitute component (not necessarily to be drawn by lot) + 2 external components;
3) 3 external components

It is understood that the Commission can be integrated by one or more expert members in the cases of contracts to be activated with external financing.
The above must be completed by the current ANVUR productions - as indicated by art. 6 paragraphs 7 and 8 of Law 240/2010 - particularly with reference to ANVUR no. 132, dated 12 September 2016. In particular, the requirements must be possessed at the date of publication of the notice. The relevant verification will be carried out in this sense.

The appointment of the Committee is decided by the Rector and published in the official register of the University and, at the same time, on the University website;

From the date of publication in the Official Register of the University of the decree of appointment of the Committee, a period of thirty days shall commence, during which candidates can submit any instances of disqualification of the Committee members to the Rector. After such time and always after the establishment of the Committee, no instances of disqualification of the Committee members shall be accepted [with reference to this paragraph, see clarification and derogation pursuant to art. 23 of this announcement].

The deadline for disqualification, i.e. the possible sub-procedure of disqualification, is not useful for the purposes of calculating the terms of the competition, in accordance with the guidelines provided by the District Attorney’s Office of the State of L’Aquila, with note prot. no. 15124 of 07/05/2018 acquired at the General Protocol of the University on the same date with prot. no. 27859, which reads as follows: “the deadline for the submission of applications for the disqualification of the commissioners, and the conduct of the entire sub-procedure of disqualification, suspend the maximum deadline for the conclusion of the proceedings, which will resume from the expiry of the first or the outcome of the decision on the application, except for interruptive events related to the possible need to replace the disqualified commissioners in order to reinstate the committee”.

For each procedure, the Commission chooses a President and a Secretary from among its members.

The Commission carries out its work in the presence of all the members and takes its resolutions by an absolute majority of the same.

The Commission may make use of telematic tools for collegial work, in order to allow the conclusion of the work within the prescribed period of four months starting from the date of appointment by Rector's decree, the above also in application of the D.R. n. 437 of 2020 - prot. n.17650 of 11.3.2020 with which the "Temporary Regulation for the conduct of collegial sessions electronically" and amended with D.R. n. 456 of 18.3.2020.

Participation in the work of the commission constitutes an ex officio obligation of the members, except in cases of force majeure. The causes of incompatibility and the changes in the legal status that occurred after the Commission was appointed do not affect the quality of a member of the Commission of selection.

Art. 9 - Duties of the Selection Committee

For each procedure the Commission, in order to carry out the comparative assessment of the candidates, on the basis of the elements that are subject to evaluation at the preliminary assessment stage, also predetermines the criteria to be used for the attribution of a score to the qualifications, to each of the publications submitted by the candidates admitted to the interview and to their comprehensive scientific production, within the range indicated below:

- QUALIFICATIONS AND CURRICULUM → min. score 10 max 40
- COMPREHENSIVE SCIENTIFIC PRODUCTION → min. score 0 max 15
- SCIENTIFIC PUBLICATIONS PRESENTED → min. score 45 max 75
- CLINICAL-ASSISTANCE ACTIVITY OR PROFESSIONAL ACTIVITY IN A NON-MEDICAL SECTOR, BOTH IN THE PUBLIC SECTOR → min. score 0 max 15

The determination of the assessment score in the range indicated will be specified by the Committee when identifying the criteria unless it has been established by the Department when requesting the activation of the procedure. In the latter case, reference is made to form 1 annexed to the notice.

the Selection Committee, at its first meeting, after having declared that the causes of incompatibility and absence of conflict of interest do not exist, and in compliance with the provisions of Ministerial Decree 243/2011 "Criteria and parameters acknowledged, also in an international sphere, for the preliminary assessment of candidates for receiving contracts under Art. 24, of Law No. 240/2010", generally determines the elements on which it will express a reasoned
preliminary assessment with regard to the qualifications, curricula, publications and comprehensive scientific production of the candidates through the expression of a reasoned analytical assessment.

Considering that the total must always be equal to 100, the formula to identify the final score to be assigned to the assessments is indicated below:

\[
\frac{\text{score selected}}{\text{max score}} = \frac{\text{score rep. (x)}}{\text{score}} = \frac{\text{score} \times \text{score selected}}{\text{max score}}
\]

**CALCULATION OF SCORE REPORTED** e.g.: COMPREHENSIVE SCIENTIFIC PRODUCTION

**SCORE SELECTED:** defined by the Committee/Department → e.g.: maximum score 15

**MAX SCORE:** maximum possible score in the "comprehensive scientific production assessment": E.g.: \(6 \times 6 \text{ (max score per criterion)}\)

\[^3 \text{ (number of criteria)} = 18\]

**SCORE:** sum of the scores assigned to the "comprehensive scientific production assessment" for the single candidate e.g.: (criterion a: 6 + criterion b: 4 + etc ... = 14) e.g.: 14

\[
(x) = \frac{14 \times 15}{18}; (x) = 11.67
\]

It also predetermines the general criteria for the evaluation of the oral examination designed to verify the proper knowledge of a foreign language and/or Italian language for foreign applicants.

In its first session, the Committee shall also:

- identify the types of publications that are to be assessed;
- decide the weighting of each criterion and parameter to be taken into account;
- identify any further criteria and parameters that are more selective than those indicated in the notice;
- establish the date, time and place where the public discussion of the qualifications and scientific production will take place, as well as the verification of the knowledge of the foreign language and/or the Italian language for foreign candidates. This publication has the value of full notification and therefore no further convocation will follow. If the date indicated by the Committee for the conduct of the interview is changed, the new date will be published in the section marked [http://www.unich.it/concorsigelmini2021](http://www.unich.it/concorsigelmini2021) by means of a notice, but no further communication will be sent to the candidates. This notice will always be published 7 days before the date indicated for the interview.

The activation of the platform will be carried out by the Commission.

With reference to the completion of the aforementioned assessment and the conduct of the oral interview, see the reference to the provision in Articles 22 and 23 of this announcement.

The adopted criteria are made public by posting in the official University Register, as well as, contextual insertion on the University website. Subsequently The Commission can then continue the work. The members of the Commission
electronically access the documentation submitted by the candidates, to ensure the confidentiality of the data and access is via codes assigned by the University and communicated to each of the Commissioners.

The date of publication will be considered the day useful for publicity.

In the session following the first, the Commission declares that there are no situations of incompatibility with the candidates pursuant to art. 51 and 52 c.p.c. and not to have relations of kinship or affinity, within the fourth degree included, with them.

The Committee carries out a justified preliminary comparative assessment of the qualifications, curriculum and publications - including the doctoral thesis if presented - and comprehensive scientific production of the candidates, expressing a justified analytical judgement.

Following the preliminary comparative assessment, the Committee shall admit between 10 and 20 percent of the candidates of comparatively higher merit to public discussion of the qualifications and scientific production, and in any case not less than six candidates. All candidates are admitted to the discussion if their number is equal to or lower than six.

Promptly - with respect to the date set for the interview - a report will be published containing a justified preliminary assessment of the candidates.

Following the public discussion, the Commission assigns a score to the qualifications and curriculum, to each of the publications presented, and to the overall scientific production and expresses an opinion on the oral test aimed at ascertaining the adequate knowledge of a foreign language and of the Italian language for foreign candidates. These assessments will be made public by publication in the official University Register, as well as, at the same time, posted on the University website and have the value of notification for all purposes.

The Commission will have to establish for each qualification the criterion on the basis of which to assign the score, without prejudice to compliance with the consistency of the qualifications with the S.S.D. subject of this procedure.

In evaluating the overall scientific production, the Commission may take into account what has already been indicated by the candidate when submitting the application.

The Commission is to apply the principles in the European Charter for Researchers on the evaluation of the quality and performance plan. This evaluation emphasizes the results obtained in a personal path diversified exclusively on the number of publications and appropriately considered teaching and supervision activities, team work, knowledge transfer, research management, innovation and public awareness activities. Career breaks, aimed at conducting other experiences in public or private bodies, or changes in the chronological order of the curriculum are considered as a contribution to the professional development of researchers in a multidimensional path. Any experience of mobility or the change of discipline or sector are considered valuable contributions.

The publication of publications subject to intellectual property rights will take place in compliance with current legislation protecting the publishing activity and copyright.

The acts of the selection procedure consist of the minutes of the individual meetings of which they are integrated and the necessary judgments, the analytical reasons relating to the preliminary comparative evaluation, the scores attributed to the evaluation of the candidates admitted to the public discussion and the evaluation of the oral exam aimed to ascertain the adequate knowledge of a foreign language and of the Italian language for foreign candidates.

Art. 10. Evaluation of qualifications and curriculum

The preliminary comparative assessment of candidates as per the article above shall be carried out by the Committee, for each procedure of competence

with reference to the specific sector of the competitive exam and any profile defined only by specifying one or more scientific areas of the curriculum and the following qualifications, which shall be duly documented:
a) PhD or equivalent, or, for the sectors concerned, medical specialisation or equivalent certificate obtained in Italy or abroad;
b) Any teaching activity at university level in Italy or abroad;
c) Documented training or research activity at qualified Italian or foreign institutions;
d) Documented activity in clinical areas in relation to the competitive exam sectors in which these specific skills are required;
e) Implementation of project activities in relation to the competitive exam sectors in which they are required;
f) Organisation, management, and coordination of national and international research groups, or participation therein;
g) Ownership of patents related to competitive exam sectors in which it is required;
h) Speaker at national and international conferences and meetings;
i) Awards and national and international recognitions for research activities;
j) European postgraduate certificate recognised by international Boards, in relation to the competitive exam sectors in which it is required.

The evaluation of each qualification shall be made considering specifically the significance that it has in respect of the quality and quantity of the research carried out by the individual candidate.

Art. 11. Evaluation of Scientific Production

Each Commission, in carrying out the preliminary comparative evaluation of the candidates, takes into consideration only publications or texts accepted for publication according to the regulations in force as well as essays included in collective works and articles published in journals in paper or digital format with the exclusion of notes internal or departmental reports. The doctoral thesis or equivalent qualifications are taken into consideration even in the absence of the aforementioned conditions.

Each Commission must also evaluate the overall consistency of the candidate's scientific production, the intensity, the temporal continuity and the quality of the same, without prejudice to the periods, adequately documented, of involuntary removal from the research activity, with particular reference to the functions parental.

Art. 12. Assignment of points to the qualifications, comprehensive scientific production and publications submitted by the candidate

The Commission - on the basis of the elements which are subject to evaluation at the preliminary assessment stage, on the basis of the criteria indicated by it in report no. 1 for the attribution of a score to titles, to each of the publications submitted by the candidates admitted to the discussion and to their comprehensive scientific production - carries out the evaluation of the following by attributing a score according to the range defined pursuant to Article 9.

➤ EVALUATION OF QUALIFICATIONS

The titles to which points will be attributed are indicated below:

<p>| | |</p>

f) Organisation, management, and coordination of national and international research groups, or participation therein

g) Ownership of patents related to competitive exam sectors in which it is required

h) Speaker at national and international conferences and meetings

i) Awards and national and international recognitions for research activities

j) European postgraduate certificate recognised by international Boards, in relation to the competitive exam sectors in which it is required

k) Professional activity in a non-medical sector in the public sector

l) Other qualifications which the Commission considers it useful to consider as consistent with the profile to be selected from among those listed below: master's degrees, advanced courses, participation in editorial committees, possession of "Fascia II, Fascia I" qualification.

The evaluation of each qualification shall be made considering specifically the significance that it has in respect of the quality and quantity of the research carried out by the individual candidate.

The elements pursuant to the previous points must be assumed from the curriculum/list of qualifications presented by the candidate at the time of application, with self-certification/declaration pursuant to Presidential Decree no. 445/2000.

➢ **EVALUATION OF COMPREHENSIVE SCIENTIFIC PRODUCTION**

The Committee - on the basis of the elements that are subject to evaluation at the preliminary assessment stage, on the basis of the criteria indicated by the same in report no. 1 - evaluates the overall consistency of the scientific production of the candidate, its intensity and continuity over time, of quality except for properly documented periods of involuntary absence from the research activity, with particular reference to parental functions.

The elements pursuant to the previous points must be indicated by the candidate at the time of application, with self-certification/declaration pursuant to Presidential Decree no. 445/2000.

➢ **EVALUATION OF THE PUBLICATIONS PRESENTED BY THE CANDIDATE**

In view of the elements which are subject to evaluation at the preliminary evaluation stage, the Commission - on the basis of the criteria set out in Minutes No 1 for the attribution of an analytical score to each of the publications submitted by the candidates admitted to the discussion - will carry out a comparative evaluation of the publications submitted on the basis of the following criteria:

a) Originality, innovation, rigorous methodology, and relevance of each scientific publication;
b) Consistency of each publication with the competitive exam sector for which the selection procedure is called and with any profile, which is defined only by specifying one or more scientific/discipline areas, or through interdisciplinary matters related thereto;
c) Scientific relevance of the editorial position of each publication and its dissemination within the scientific community;
d) Analytical determination, on the basis of criteria set forth in the reference international scientific community, of the individual contribution of the applicant in the case of participation of the applicant in team works.

In the context of competitive exam sectors in which their use is consolidated at the international level, the Committee shall also make use of the following indicators, in assessing publications, which refer to the date of expiry of the deadline for submission of applications:

a) Total number of references;
b) Average number of references per publication;
c) Total "impact factor";
d) Average "impact factor" per publication;
e) Combinations of the above parameters aimed at increasing the impact of the candidate's scientific production (Hirsch index, or similar).

For non-bibliometric fields, the Committee may take into account the fact that the publication is
a) included in the list of scientific journals;
b) included in the list of “class A” scientific journals.

The indicators and the “ranking” pursuant to the previous points must be indicated by the candidate at
the time of application, with self-certification/declaration pursuant to Presidential Decree no. 445/2000.

If deemed useful by the Commission for a better evaluation of the scientific production of the
candidates, it may consider the congruity to the SSD indicated in the model 1 multiplying factor of the value
of the publication. In this sense, if a publication submitted for evaluation is of a high level but not congruent
with the SSD, it will be evaluated with a lower score.

➢ ASSESSMENT OF NON-MEDICAL PROFESSIONAL AND CLINICAL-ASSISTANCE ACTIVITIES IN THE
PUBLIC SECTOR

To assess the clinical-assistance activity in the public sector, the Committee will take into consideration the
consistency of the comprehensive clinical activity of the candidate with the SSD profile (ref. Form 1 of the competition),
assessing the intensity, continuity and level of responsibility of the assistance activity performed.

To assess the professional activities in the public sector, the Committee will take into consideration the
consistency of the professional activity of the candidate with the SSD profile (ref. Form 1 of the competition), assessing
the intensity, continuity and level of responsibility of the professional activity performed.

The elements pursuant to the previous points must be assumed from the curriculum/list of
qualifications presented by the candidate at the time of application, with self-certification/declaration pursuant

Art. 13. Conclusion of the Activities of the Committee

The work of the Commissions shall be completed within four months from the order of appointment. The Rector
may extend only once and for not more than two months the deadline for completion of the procedure in the case of proven
and exceptional reasons reported by the Chairperson of the Committee.

In the event that the activities are not completed within the extension period, the Rector, in a reasoned decision,
shall initiate the procedures for replacement of the Committee or of its members components who are liable for the causes
of the delay, in accordance with the identification procedures set out in this call and establishing at the same time a new
deadline for the completion of the activities.

At the end of the selection process, the Committee, on the basis of overall scores achieved, shall establish the
classification and designate the winner or declare that there is no winner.

If the Committee identifies the existence of irregularities in the conduct of the procedure, the Rector shall
send the relevant documents to the Committee, with a reasoned decision, and assign a deadline for a review of the
procedure. The Rector shall approve the formal correctness of the reports of the procedure sent by the
Committee, which are published on the University website.

Regarding the work and timing of the Commissions, see the provisions of art. 23 of this announcement.

Art. 14. Call of the Department

The Department shall proceed, within 60 days from approval of the documents, with the proposal to call the
winner.

The resolution is valid if approved by the affirmative vote of an absolute majority of teachers of first and second
level (“prima e seconda fascia”) of the organisation.
Failure to adopt a call resolution, within the deadline mentioned above, involves the inability of the organisation that required the call for candidatures to request a new selection for the same sector for a period of one year.

The resolution containing the proposed call is submitted to the Board of Directors for approval.

In the event that the winner refuses the contract before it is signed, the department may proceed to a new call by following the order of the ranking.

Regarding the call of the winner, see the provisions of art. 23 of this announcement.

Art. 15. Contract of employment and recruitment

The fixed-term employment contract established with the Researcher is signed by the Rector and the Researcher, within the limits of the provisions in force, also with regard to any recruitment limits.

It is not possible to enter into a contract for the employment of the Researcher if the candidate chosen has a relationship by kinship or affinity to the fourth degree with a professor or researcher of the Department that requires the activation of the contract, or with the Rector, or the General Manager, or a member of the Board of Directors of the University.

Within 30 days of the date of approval of the Researcher’s call by the Board of Directors, the Researcher is invited to sign the employment contract, to be finalised within the following thirty days, subject to any appeals.

A trial period of three months is required. During the trial period, either party may terminate the contract at any time without prior notice or compensation in lieu of notice, effective immediately upon receipt of notice to the other party. The trial period cannot be renewed or extended after its end. The assessment of the activities carried out during the trial period is made by the Department Director.

The contract has a duration of three years and is renewable for two years only, if the necessary economic resources are actually found, as resolved by the Board of Directors in the sessions referred to earlier.

The expiry of the contract involves the termination of employment. In no event shall the employment be transformed into permanent employment.

The place of work is the Department that proposed the activation of the contract.

For the purposes of reporting research projects, the figurative quantification of annual research activities, supplementary teaching and service to students is 1,500 hours per year for full-time researchers and 750 hours for fixed-term researchers.

Researchers organise their work in conjunction with the Head of the Department.

In order to check the breakdown of the total hours destined to the researcher’s research activity, a specific register can be used.

The disciplinary authority is governed by Art. 10 of the Italian Law No. 240/2010.

A fixed-term Researcher is entitled to use, for the conduct of the research, the equipment of the Department in which the activities are carried out. The Department shall provide the Researcher with the necessary support for the implementation of the research programme, providing access to the equipment and resources needed, and the use of technical and administrative services.

With reference to the taking of service, stipulation of the contract and start of activities, see the reference to the provisions of Articles 22 and 23 of this announcement.

Art. 16. Payment of salary, taxes, social security and insurance fees
The annual economic treatment deriving from the stipulation of the contract in question is equal to Euro 34,898.06 (full time) Euro 25,317.88 (definite time) a.l. lender including the thirteenth installment, for the entire duration of the contract, pursuant to Presidential Decree 15/12/2011 n. 232 (the items indicated will be adequate for the increases referred to in the Prime Ministerial Decree 03/09/2019 - "Adjustment of personal economic treatment not contracted from 1 January 2018" which provides, based on ISTAT data, from 1 January 2018 an increase of the 0.11%, to which is added an additional 2.25% from 1 January 2019).

Fixed-term researchers are not subject to the economic and career progression of permanent researchers.

The contracts are subject to all the obligations envisaged for the employment relationships entered into with the "G. d'Annunzio" University of Chieti - Pescara.

Regarding the economic treatment of the winner, see the provisions of art. 23 of this announcement

Art. 17. Incompatibility

Notwithstanding the provisions of art. 53 of Legislative Decree No 165 of 30 March 2001, contracts covered by this Regulation are not to be combined with similar employment contracts.

The contract is incompatible:

- with any other employment contract with public and private entities;
- with the ownership of research grants, including those at other universities;
- with doctoral and post-doctoral fellowships, and in general with any scholarship or grant assigned for any reason whatsoever also by third parties
- with the ownership of teaching contracts governed by the applicable provisions.

Type A researchers are allowed to carry out further assignments conferred by third parties, in compliance with the University Regulations, as long as they are compatible with the regular performance of institutional activities and observe current legislation.

For the entire duration of the contracts referred to in this notice, employees of public administrations are placed, without allowances or social security contributions, on leave or in the position of temporary staff in cases where such a position is envisaged by the orders to which they belong, in compliance with Article 24, paragraph 9 bis, of Law no. 240 of 2010.

Fixed-term researchers are subject to the provisions of art. 6, paragraphs 9, 10, 11 and 12 of Law 240/2010, which regulate incompatibilities linked to the legal position of researcher.

The contract shall not give rise to any rights with regard to access to university posts.

The fulfilment of the contract is an advantage in competitions for access to public administrations.

Art. 18. Publicity

Art. 19. Termination of the employment relationship

The termination of the employment relationship is determined by the expiry of the term or by the withdrawal of one of the parties and by any other cause for termination provided for in this notice and by current legislation, with particular
regard to the causes of suspension or revocation of the loan provided for by the art. 4 of the aforementioned Implementation Regulations.

It should also be noted that, again pursuant to the aforementioned Article 4 of the Regulations, an extension of the term of conclusion of the activities covered by the selected contract is admissible, following their suspension exclusively for compulsory maternity (5 months) or for impediment due to severe illness (maximum of 6 months).

The parties may terminate the contract at any time, giving at least thirty days' notice. Withdrawal by the Administration must be justified. The fixed-term researcher who intends to withdraw from the contract is required to notify the Rector and the Director of the Department concerned.

Should the researcher fail to give notice, the Administration is entitled to withhold an amount corresponding to the remuneration for the period of notice not given. This does not affect the right to claim back the funding in the event of liability attributable to the researcher.

Either of the parties may withdraw from the contract before the expiry of the term for causes which, pursuant to Article 2119 of the Civil Code, does not allow the continuation of the relationship.

In every case of early termination of the contract, the fixed-term researcher is obliged to submit a report on the results of teaching and research activities carried out until the date of termination.

In any case, the cancellation of the recruitment procedure that constitutes the prerequisite or of any of its legislative acts required pursuant to and for the purposes of Decree no. 1062, 10 August 2021, constitutes cause for termination of the contract, without notice. of the Regulations connected to it, which the following procedure refers in its entirety.

Regarding the termination of the relationship, see the provisions of art. 23 of this announcement.

Art. 20. Documentation required for the purpose of signing the contract

The winner called by the Department will be invited, for the purpose of signing the contract, to submit to the teaching and research Staff Sector the statements pursuant to Articles 46 and 47 of the Italian Presidential Decree D.P.R. No. 445/2000 proving the existence of the requirements provided by law for admission to employment, as specified in Article 3 of this call, as well as the affidavits of certifications of marital status, household composition, inclusion in any group with special protection, any entitlement to pension, and any membership of professional bodies.

The winner shall also submit the declaration under Articles 46 and 47 referred to above that he/she does not have other employment by public or private entities and that he/she does not carry out any industrial or trade activities. For the entire duration of the contracts referred to in this article, employees of public authorities are placed on leave, without pay or social security contributions, or in the position of temporary staff in cases where this position is envisaged by the orders to which they belong. If the winner is employed by an official institution or private company, he/she shall submit a declaration of acceptance of employment.

If the winner is a non-EU citizen, he/she can submit the declarations pursuant to the Italian Presidential Decree D.P.R. No. 445/2000 only for the parts, personal qualities and facts certifiable by Italian public entities. If the data required refer to documents issued abroad and not registered in Italy or at an Italian Consulate, the winner shall submit the certificates issued by the competent authorities of the state of which he/she is a citizen, accompanied by an Italian translation signed by the Italian consular authorities certifying the conformity of the documents to the original.

The called winner must also present: their own photo in digital format respecting the following indications:

- half-length recovery plan;
- 300 DPI resolution and 24 bit depth;
- photo size possibly 275 x 300 pixels (width x height);

The photo must be sent to the following email addresses:
Fotodocenti@unich.it (for teaching staff)
The above in order to allow the release of the University card.
Art. 21. **Processing of personal data**

The processing of personal data is carried out in accordance with EU Regulation 2016/679 and Legislative Decree No. 101 dated 10 August 2018.

The personal data transmitted by the candidates with their applications for participation are processed exclusively for the purposes of managing this call and the procedures related to it, also in the event of litigation.

The provision of data is mandatory for the purposes of participation in the selection.

In view of the above, the candidate is invited to read the annex relating to the information on the processing of personal data, which is annexed to this notice and is an integral part thereof (Form C).

It should also be noted that the party authorised to process the data relating to this procedure is the Company to which currently is responsible for the management of the platform used for the formulation of the application for participation, and which is accessible to the Committee members so that they can become acquainted with and examine the content of the applications submitted.

It is possible to view the name of the company indicated above, currently in charge, by sending a request to the following e-mail address: pon2021@unich.it.

Art. 22 - **Derogative and supplementary provisions of this notice in force during the covid emergency period - 2019**

CONSIDERING therefore the current condition of exceptionality which requires to guarantee the completion of the procedures for the recruitment of researchers, also in consideration of the fact that scientific research is one of the essential ones;

NOTING therefore that it is necessary to allow the possibility of carrying out or concluding bankruptcy procedures remotely, also taking into account the particular attention that government indications place on recruitment in the health sector;

1. **EXISTENCE AND APPLICATION**

In each article of the call in which reference is made to the provisions referred to in this article, the latter are understood to be prevalent and in force for the entire duration of the COVID 2019 emergency period that has been laid down by national regulations.

2. **DEADLINE OF THE APPLICATION DEADLINE**

During the emergency period the protocol service is not active for the public, therefore the delivery must take place with the alternative methods already indicated.

3. **METHOD OF TRANSMISSION OF THE APPLICATION**

In application of the current emergency provisions, in particular referring to the possibility of carrying out bankruptcy procedures only electronically, recalled the D.R. n. 377 prot. n. 14714 of 02/03/2020 - "Adoption of measures to contain the risk of the epidemiological emergency from COVID-19" and the D.R. n. 437/2020 - prot. n. 17650 of 11/03/2020 with which the "Temporary Regulation for the conduct of collegiate sessions electronically" was issued in compliance with the health security procedures, the sessions of the Commission will be held electronically.

The members of the judging commissions participate in the session using, as a rule, their own telematic devices.

4. **POSSESSION OF PARTICIPATION REQUIREMENTS**

Even the oral interview - if the date set for the conduct of the same falls within the emergency period - will take place with the telematic method of the interview to be carried out via SKYPE, or through the use of the Microsoft Teams platform.

In this sense, when completing the application, the candidate must communicate his / her skype address in order to be contacted in the public call during which the interview will be carried out.

The interview must take place in compliance with the following principles:

a) simultaneous connection between the participants;

b) security of data and information exchanged during the session;
c) publicity of evidence;
d) guarantee of certain identification of the candidates.

The use of audio-video connection tools must in any case allow:
a) viewing the candidate during the entire test;
b) the correct identification of the candidate through a valid identification document;
c) the conduct of the session in public form, guaranteed by the possibility of simultaneous connection for the entire duration of the session by all candidates and by third parties who request it to the Administration.

Like the members of the selection boards, the candidates participate in the interview session using their own telematic devices.

The University of Annunzio is excluded from any liability in the event of technical problems of any nature not attributable to the same, which do not allow the correct start or execution of the test.

It is specified that the Commission will be entitled, by means of a communication from the President - once the candidates have been contacted via the skype address communicated - to invite all candidates and any others present at the call to enter another virtual platform in order to ensure the best functionality of the interactions, for example Microsoft Teams platform.

In the event that one of the members of the commission or one of the candidates at the time of the discussion or test, for technical reasons, is unable to attend or continue to attend, the session is suspended and must be resumed as soon as possible, according to the provisions adopted by the President.

In any case, the identification of the candidate and the publicity of the test must be ensured.

It should be noted that the candidate must be available at the Skype contact previously indicated in the application, on the day and time indicated for the interview.

Failure or incorrect communication of the personal Skype contact will be considered a waiver of participation in the interview and, therefore, of the selection.

In case of non-response and / or the unavailability of the candidate on the day or at the established time, the Commission will immediately try to contact the candidate either by email or by calling him on his mobile number to invite him to answer the Skype call and, therefore, to support the interview. Failure to reply will also be considered a waiver of participation in the interview and, therefore, of the selection.

The method of carrying out the meetings and the interview is adopted by the University in order to avoid the blocking of research activities while respecting the provisions for the protection of public health and safety during the period of the COVID - 19 emergency

5. METHOD RELATING TO THE SERVICE OUTLET
In application of the emergency provisions, the hiring of the winner - if it should take place during the period covered by these provisions - will take place through the conferment of the availability of the same electronically without therefore the actual physical presence, unless otherwise determined by the Bodies when calling.

It will be his responsibility to make arrangements with the Director of the Department for the best organization of activities while respecting the provisions on public safety and security.

When formulating the call proposal, the Department will take care to indicate a date of service taking into account the concrete possibility of carrying out the research activity, compatibly with the restrictions in place during the emergency period.

Regarding the taking of service of the winner, see the provisions of art. 23 of this announcement.

6. OPENING OF THE RECRUITMENT SECTOR TO THE PUBLIC
In order to allow the correct application of the prescriptions dictated by the legislation regarding the health emergency in progress, we inform you that the opening to the public of the Administrative Offices of the University (including the Secretariat of the Rector and the Director General) will be guaranteed by telephone and email. The non-postponable issues that require physical presence will be ensured by appointment to be agreed by e-mail or telephone, with the Head of the structure.

7. GENERAL PROVISION

If the evolution of the emergency provisions may require the need to put in place specific notices and communications relating to this notice, the same will be made known on the University website at the dedicated page concorsiigelmini2021 (https://www.unich.it/pon_dm1062). In this sense, interested parties are invited to periodically check the section of the site https://www.unich.it/pon_dm1062 in which this competition announcement is published.

ART. 23. SPECIFIC PROVISIONS IN IMPLEMENTATION OF THE NATIONAL OPERATIONAL PROGRAM "RESEARCH AND INNOVATION 2014-2020", FOR THE IMPLEMENTATION OF INTERNAL ACTIVITIES: "ACTIONS IV.4 - DOCTORAL PROGRAMS AND RESEARCH CONTRACTS ON INNOVATION TOPICS; "ACTIONS IV.6 - RESEARCH CONTRACTS ON GREEN TOPICS.

Considering the extremely short deadlines - as imposed by the MUR when granting the indicated loan - the following is established

- if, at the date of publication of this call for applications, the positive opinions whose acquisition is foreseen according to the University regulations have not yet been received, they will be considered as positively expressed, without prejudice to the circumstance that in any case, the expression of the same arrives within the deadline for submitting applications. If an opinion is negative, the call will be partially canceled only for the position that received a negative opinion

- in consideration of the objectives of speeding up the timing dictated by the MUR, candidates must communicate their waiver of the terms of recusal of the appointed Commissioners in order to allow the immediate operation of the Commission itself

- the commissions must complete the work by 22.11.2021;

- the formulation of the call proposals by the Departments must take place within two days from the date of receipt of the communication of the decree approving the deeds and identification of the winner, also by means of an urgent provision taken by the Director of the Department and subsequently ratified by the Director of the Department;

- the communication of service taking, and invitation to sign the contract, will be subject to minimum notice, indicatively, the aforementioned is set in the first days of January 2022

the annual salary deriving from the stipulation of the contract in question is equal to € 33,548.2200 (full time) to which a sum of approximately € 600.00 per month will be added, limited to the company / abroad period, by way of mobility allowance. The sums are indicated a.i. lender including the thirteenth installment, pursuant to Presidential Decree 15/12/2011 n. 232 (to the items indicated, they are added to the increases referred to in the D.P.C.M. 11/13/2020). The mobility allowance may be modified by reason of the confirmation of the definitively acquired loan;

- the duration of the contract, drawn from the PON "Research and Innovation 2014-2020" funds, is set at 36 months, with provision for a period of research in the company for at least 6 months and a maximum of 12 months, possibly a period research abroad (optional) from a minimum of 6 to a maximum of 12 months, planned in line with the research activities envisaged by the Department that requested the activation of the call;

- The Researcher carries out his / her functions according to the procedures better indicated in the relative form. 1 annex to this announcement which must be consistent with the lines defined in the SNSI (National Strategy for Intelligent Specialization 2014-2020) in the PNR (National Research Program);

- Failure to carry out the off-site period, if foreseen by the activity sheet and the contract, due to a fact attributable to the researcher, entails the automatic termination of the contract with consequent refund of the amounts received.
information relating to research periods at companies and/ or abroad are indicated in the project sheets published in the section relating to the publication of this call. It is the candidate’s responsibility to read the project sheets they intend to apply for.

In the section of the site where the notice is published, the D.M. 1062/2021 and the related Regulations to which reference is made and which are an integral and substantial part of this announcement. In particular, with regard to the execution of the research contract, all the provisions of the aforementioned Regulations apply.

The candidate declares to be aware of and accept that:

- the activation of the selected contract will be subject to the suspensive condition of the disbursement of the ministerial loan and to the termination condition, once activated, in the event of existence of causes for revocation or suspension of the loan pursuant to and for the effects of the provisions of which to the Ministerial Decree 1062/2021 and the Implementation Regulations, published together with the announcement and their prerequisite documents.

The selected contract must:

A) relate to disciplinary and thematic areas (Competition Sector and Scientific-Disciplinary Sector) consistent with the bound issues referred to in points a) and b) of art. 2 (Action IV.4 - Doctorates and research contracts on innovation topics "and Action IV.6 - Research contracts on Green topics");

B) provide for the implementation of the entire assignment, at the administrative and operational headquarters of the beneficiary University, without prejudice to the research periods at the company and abroad, planned consistently with the research activities envisaged at the premises of the subject beneficiary;

C) provide for research periods within the company from a minimum of six (6) months to a maximum of twelve (12) months;

D) provide for research periods abroad from a minimum of six (6) months to a maximum of twelve (12) months (optional);

E) ensure that the researcher can make use of qualified and specific operational and scientific structures for activities and research;

F) promote the exploitation of research results and guarantee the protection of intellectual property;

G) encourage the involvement of companies in the definition of the research path also in the context of wider collaborations with the University;

H) ensure compliance with horizontal priorities (climate, digital transition, biodiversity, equality between women and men).

The candidate also declares to be aware of and accept that:

- the implementation of the activities, for the purposes of eligibility under the PON "Research and Innovation" 2014-2020, must take place no later than 31 December 2023. The financial coverage of the selected researchers will be ensured with the resources referred to in cited decree up to 31 December 2023. The financial coverage of the contracts for the period after 31 December 2023 is financed by the individual beneficiaries of the resources referred to in art. 1, charged to its budget.

- the intervention is co-financed by the European Social Fund REACT EU - National Operational Program for Research and Innovation 2014-2020, owned by the Ministry of University and Research;

- failure to comply with the requirements of the Ministerial Decree for the allocation of resources of this specification will result in the revocation of the approved intervention and the full refund of the amounts received;

- the modification of the project objectives and the expected results (if not previously authorized by the MUR) involves the revocation of the approved intervention and the full return of the amounts already received;

- the recipient of the resources referred to in table A will not be able to autonomously make substantial changes to the selected projects that involve changes in the original objectives and expected results;

- The beneficiary cannot independently make substantial technical-scientific variations to the intervention that involve changes to the original objectives and expected results. All the substantial technical-scientific variants must be subjected
in advance to the evaluation of the MUR, which will also proceed with the support of ANVUR, upon receipt of a specific request transmitted through the appropriate online platform (http://www.ponricerca.gov.it/siri) that highlights the needs and reasons of a technical-scientific nature. With a specific subsequent provision, the MUR will inform the beneficiary of the acceptance of the variation request or of any motivated rejection;

the activities connected with the realization of the funded research project must be completed within 36 months from the start date of the research contract. The periods of suspension of the contract provided for by law are not counted. An interim report must be submitted on 31 December 2023, including all the activities carried out from the start of the contract to the end of the funding of the NOP R&I FSE REAC EU. A final report must be submitted within 30 days of the end of the research contract. Taking into account the Community constraints for the eligibility of expenses, also set for the REACT-EU initiative as of 31 December 2023, the start of the interventions linked to the research contracts must take place by 2021 to receive funding from at least two of the three expected annuity. Together with the financial resources guaranteed through the REACT-EU instrument for the PON "Research and Innovation" 2014-2020, the resources necessary to complete the aforementioned activities for the year 2024 must be borne by the universities which must therefore provide for their co-financing;

- the effectiveness of the contract stipulated with the winner is conditional upon the positive outcome of the Ministry's checks and controls as indicated below: "After the completion of the platform compilation procedure and the completion of the insertion procedure, the admissibility check of the contracts selected and awarded by individual subjects are carried out by the MUR - General Secretariat - Directorate General for Research, through Office III "Promotion of public research and enhancement of researchers in the European Research Area", on the basis the admissibility requirements identified in the document "Selection criteria for operations based on ESF-REACT EU resources" approved by the Supervisory Committee (of the PON "Research and Innovation" 2014-2020 referred to in the introduction, as published at www.ponricerca.gov.it.

Once the admissibility check has been completed, Office III communicates the research contracts activated within the resources already assigned pursuant to the publication at http://www.ponricerca.gov.it/siri ’art. 1 of this Decree and the quantification of the total amount earmarked for funding the researchers selected within the aforementioned resources assigned."

In the event of ineligibility of the loan contract, it will have no effect and will be considered terminated,

The Ministry of University and Research and the Managing Authority of the PON "Research and Innovation" 2014-2020, in compliance with the provisions of art. 125 paragraph 2, lett. d) and art. 110 and ss. of Reg. (EU) n. 1303/2013 and Annex III of Reg. (EU) no. 480/2014, from the national regulations on monitoring and surveillance of the Program, oversees the monitoring of the PON and acquires information on the progress of the interventions;

- the reporting of the activities carried out must be carried out by the beneficiary on a bimonthly basis through the appropriate online platform http://www.ponricerca.gov.it/siri, as indicated in the Regulations, attached as an integral and substantial part of this Decree;

- Each beneficiary of the resources is consequently required to feed the information system of the PON "Research and Innovation" 2014-2020 every two months with procedural, financial and physical progress data of the interventions, guaranteeing their correctness, reliability and consistency with in order to allow compliance with the aforementioned regulatory provisions;

All the above conditions will be the subject of an explicit declaration of knowledge and acceptance by the candidate when submitting the application.

It should be noted that upon signing the contract, the winner must submit, together with the documentation required by law, the declaration according to the model provided by the MUR, certifying: a) to be aware that the intervention is co-financed by European Social Fund - National Operational Program for Research and Innovation 2014-2020, owned by the Ministry of University and Research; b) to be aware that failure to comply with the requirements of the Notice referred to in Ministerial Decree n. 1002 of 10/08/2021 and the attached Implementation Regulations entails the revocation of the approved intervention and the full refund of the amounts received; c) to be aware that the modification of the project objectives and the expected results (if not previously authorized by the MUR) entails the revocation of the approved intervention and the full refund of the amounts already received. This declaration is essential for the conclusion of the contract.
Finally, it should be noted that the “G. D’Annunzio” of Chieti-Pescara reserves the right to revoke the selection procedure in question, or not to proceed with the hiring of the winner, should the financial guarantees to cover the announced position cease to exist or, in relation to the time of the procedure, if the hiring of the winner is not allowed in compliance with the regulations currently in force.

Art. 24. Final provisions

For all and any matters not provided for by this Rector Call Decree, please refer to the rules set forth in the applicable "Regulations for recruitment of temporary researchers", issued by D.R. No. 172 dated 23 December 2011 and subsequent amendments and additions; by the "Regulations on the academic duties of professors and researchers, methods of self-certification, checking and evaluation of educational tasks and service to students, as well as verification of the research activity", issued by D.R. No. 597 dated 15 February 2017 and by article 24, paragraph 3, letter a) of Law 240/2010 and subsequent amendments and additions;

For the purposes of the implementation of the provisions of the Italian Law No. 241/90, the Head of the procedure is Valentine ALBERTAZZI, Head of Division 13 – Teaching Staff, reference e-mail pon2021@unich.it

This decree shall be added to the register of this Administration.

Signed The Rector
Prof. Sergio CAPUTI

Mod. 1 - PROFILE

(attached to the D.R. rep. n. 1368 /2021, prot. n. 74772 of 01 /10 /2021)

A comparative evaluation procedure based on qualifications and public discussion is announced for the recruitment of no. 1 full-time fixed-term researcher position, pursuant to art. 24 co. 3 lett. a) of Law 240/2010, S.C. 08 / C1 - Design and technological planning of architecture - SSD ICAR / 10 - Technical architecture activated for the study and research needs of the Department of Engineering and Geology, as part of the National Operational Program for Research and Innovation 2014-2020 (PON R&I) additional ESF - REACT-EU funds, for the realization of the activities within: “ACTIONS IV.4 - DOCTORATES AND RESEARCH CONTRACTS ON INNOVATION TOPICS”;

- resolution of the Department with which the scientific disciplinary and competition sector was identified relating to the post of Researcher with a fixed-term full-time employment relationship pursuant to Art. 24 co. 3 letter a) of Law 240/2010 to be announced: cdd of 20/09/2021;
- resolution of the Department with which the profile referred to in Article 4, point 4 of the “Regulations for the recruitment of fixed-term researchers” was approved: cdd of 20/09/2021;
- date of the S.A. with which the favorable opinion was expressed for the initiation of the requested procedure: 01/10/2021;
- date of the C. d. A. with which the induction of the requested procedure was authorized: 28/09/2021;
- macro sector: 08 / C - Design and Technological Planning of Architecture;
- competition sector: 08 / C1 - Design and technological planning of architecture;
- profile: S.S.D. : ICAR / 10 - Technical architecture;
- place of employment: Department of Engineering and Geology;
- specific functions that the researcher is called to perform:
  - teaching commitment: the expected teaching commitment is on the three-year degree in construction engineering L23 and on the master's degree in construction engineering LM24;
  - scientific commitment: it is aimed at the critical evaluation of new digital manufacturing and additive manufacturing technologies and their translation in terms of design and construction of buildings and building components. Classic performance analyzes will be conducted in synergy with multi-criteria analyzes to identify the best design solutions. Finally, the results of the research project will allow the development of guidelines and suggestions for technicians and designers towards the digital transition of construction;
  - rights and duties: as provided for by the current provisions of law on the legal status of the university researcher on a fixed-term basis and by the current university code of ethics;
  - contract duration: 30 months and may be renewed for only two years upon the actual finding of the necessary economic resources, as resolved by the Board of Directors;
  - the annual salary deriving from the stipulation of the contract in question is equal to € 33,548.2200 (full time) to which a sum of approximately € 600.00 per month will be added, limited to the company / abroad period by way of mobility allowance. The sums are indicated a.I. lender including the thirteenth installment, pursuant to Presidential Decree 15/12/2011 n. 232 (to the items indicated, they are added to the increases referred to in the D.P.C.M. 11/13/2020). The mobility allowance may be modified based on the confirmation of the loan acquired definitively;
  - financial coverage: PON 2014/2020-FSE REACT-EU D.M. No. 1062 of 10 August 2021 for the first 2 years and for the last year 2024 Departmental Funds resulting in the University Financial Statements;
  - maximum number of publications: 12 (twelve);
  - foreign language whose adequate knowledge will be assessed in relation to the multilingual profile of the University or the educational needs of study courses in a foreign language: English;
  - methods of ascertaining the foreign language, or rather the knowledge of the Italian language for foreign candidates: interview;
  - the specific research activity will be linked to the development of the project: “The new frontiers of the design of buildings and components made through digital manufacturing and additive manufacturing”;
  - scientific productivity objectives of the researcher over the three-year period: no. 6 (six) publications in international journals;
  - methods of ascertaining scientific qualification: by evaluating qualifications, curricula, scientific production and interview, pursuant to and for the purposes of art. 24 of the law 30/12/2010 n. 240;
- Scientific Responsible: prof. Enrico Spaccone
Mod. 1 - PROFILE

(attached to the D.R. rep. n. 1368 /2021, prot. n. 74772 of 01 /10 / 2021)

A comparative evaluation procedure based on qualifications and public discussion is announced for the recruitment of no. 1 full-time fixed-term researcher position, pursuant to art. 24 co. 3 lett. a) of Law 240/2010, S.C. 13 / B1 - Business Economics - SSD SECS-P / 07 - Business Economics activated for the study and research needs of the Department of Neuroscience Imaging and Clinical Sciences, as part of the National Operational Program for Research and Innovation 2014-2020 (PON R&I) additional ESF - REACT-EU funds, for the implementation of the activities within: "ACTIONS IV.4 - DOCTORATES AND RESEARCH CONTRACTS ON INNOVATION TOPICS";

- Resolution of the Department with which the disciplinary and competitive scientific sector relating to the post of Researcher with a full-time fixed-term employment relationship was identified pursuant to Art. 24 co. 3 letter a) of Law 240/2010 to be announced: cdd of 17/09/2021;
- resolution of the Department with which the profile referred to in Article 4, point 4 of the "Regulations for the recruitment of fixed-term researchers" was approved: cdd of 17/09/2021;
- date of the S.A. with which the favorable opinion was expressed for the initiation of the requested procedure: 01/10/2021;
- date of the C. d.l A. with which the call for the requested procedure was authorized: 28/09/2021;
- macro sector: 13 / B - Business Administration;
- competition sector: 13 / B1 - Business economics;
- profile: S.S.D. : SECS-P / 07 - Business Administration;
- place of employment: Department of Neuroscience Imaging and Clinical Sciences;
- specific functions that the researcher is called to perform:
- Teaching commitment: within the SECS-P / 07 sector for teaching in the university's three-year and master's degree courses and PhD courses in Business and Behavioral Sciences;
- scientific commitment: Research activities in the field of enhancing new technologies in the company and measuring the impact of the chatbot in terms of economic-company performance. In particular, the researcher will have to define an experimental protocol for the development of innovations aimed at improving human-machine interaction, in order to facilitate the optimization of industrial automation processes and the strengthening of the corporate image as an innovative company;
- rights and duties: as provided for by the current provisions of law on the legal status of the university researcher on a fixed-term basis and by the current university code of ethics;
- contract duration: 36 months and may be renewed for only two years upon the actual finding of the necessary economic resources, as resolved by the Board of Directors;
- the annual salary: deriving from the stipulation of the contract in question is equal to € 33,548.2200 (full time) to which a sum of approximately € 600.00 per month will be added, limited to the company / abroad period by way of mobility allowance. The sums are indicated a.l. lender including the thirteenth installment, pursuant to Presidential Decree 15/12/2011 n. 232 (to the items indicated, they are added to the increases referred to in the D.P.C.M. 11/13/2020). The mobility allowance may be modified based on the confirmation of the loan acquired definitively;
- financial coverage: PON 2014/2020-FSE REACT-EU D.M. No. 1062 of 10 August 2021 for the first 2 years and for the last year 2024 Departmental Funds resulting in the University Financial Statements;
- maximum number of publications: 12 (twelve) in addition to the doctoral thesis;
- foreign language whose adequate knowledge will be assessed in relation to the multilingual profile of the University or the educational needs of study courses in a foreign language: English;
- methods of ascertaining the foreign language, or rather the knowledge of the Italian language for foreign candidates: interview;
- the specific research activity will be linked to the carrying out of the project: "Enabling technologies, professional profiles and creation of value for companies through the chatbot: man-machine interaction and economic-company dynamics";
- scientific productivity objectives of the researcher over the three-year period: no. 3 papers in international journals with referees, of a high level according to the criteria of the University and published by leading Scientific Responsible: Prof. Riccardo Palumbo
A comparative evaluation procedure based on qualifications and public discussion is announced for the recruitment of no. 1 full-time fixed-term researcher position, pursuant to art. 24 co. 3 lett. a) of Law 240/2010, S.C. 05 / G1 - Pharmacology, clinical pharmacology and pharmacognosy - SSD BIO / 14 - Pharmacology activated for the study and research needs of the Department of Neuroscience Imaging and Clinical Sciences within the National Operational Program for Research and Innovation 2014-2020 (PON R&I) additional ESF - REACT-EU funds, for the realization of the activities within: "ACTIONS IV.4 - DOCTORATES AND RESEARCH CONTRACTS ON INNOVATION TOPICS";

- Resolution of the Department: with which the disciplinary and competitive scientific sector relating to the post of Researcher with a full-time fixed-term employment relationship was identified pursuant to Art. 24 co. 3 letter a) of Law 240/2010 to be announced: odd of 17/09/2021;
- resolution of the Department: with which the profile referred to in Article 4, point 4 of the "Regulations for the recruitment of fixed-term researchers" was approved: odd of 17/09/2021;
- date of the S.A. with which the favorable opinion was expressed for the initiation of the requested procedure: 01/10/2021;
- date of the C. d. A. with which the call for the requested procedure was authorized: 28/09/2021;
- macro sector: 05 / G - Experimental and Clinical Pharmaceutical Sciences;
- competition sector: 05 / G1 - Pharmacology, clinical pharmacology and pharmacognosy;
- profile: S.S.D. : BIO / 14 - Pharmacology;
- place of employment: Department of Neuroscience Imaging and Clinical Sciences;
- specific functions that the researcher is called to perform:
  - teaching commitment: the activity will be carried out within the three-year and master's degree courses of interest of the Department of Neuroscience, Imaging and Clinical Sciences;
  - scientific commitment: it concerns the development of new "drug-delivery" methods through the use of engineered platelets capable of releasing in a cell-specific manner drugs with antitumor and anti-inflammatory action with the aim of making therapy more effective and safe;
- rights and duties: as provided for by the current provisions of law on the legal status of the university researcher on a fixed-term basis and by the current university code of ethics;
- contract duration: 36 months and may be renewed for only two years upon the actual finding of the necessary economic resources, as resolved by the Board of Directors;
- the annual salary deriving: from the stipulation of the contract in question is equal to € 33,648.2200 (full time) to which a sum of approximately € 600.00 per month will be added, limited to the company / abroad period by way of mobility allowance. The sums are indicated a.l. lender including the thirteenth installment, pursuant to Presidential Decree 15/12/2011 n. 232 (to the items indicated, they are added to the increases referred to in the D.P.C.M. 11/13/2020). The mobility allowance may be modified based on the confirmation of the loan acquired definitively;
- financial coverage: PON 2014/2020-FSE-REACT-EU D.M. No. 1062 of 10 August 2021 and the related Regulations, and for the last year 2024 Departmental Funds resulting in the University Financial Statements
- foreign language whose adequate knowledge will be assessed in relation to the multilingual profile of the University or the educational needs of study courses in a foreign language: English;
- methods of ascertaining the foreign language, or rather the knowledge of the Italian language for foreign candidates: interview;
- the specific research activity will be linked to the carrying out of the project: "Platelets as vectors for the drug delivery of anticancer and anti-inflammatory drugs";
- scientific productivity objectives of the researcher over the three-year period: no. 2 articles (in high impact factor peer-reviewed journals) within the 2nd year of the project and another 2 articles, approximately 6 months after the end of the project, and the presentation of the results in at least 1 international meeting per year;
- methods of ascertaining scientific qualification: by evaluating qualifications, curricula, scientific production and interview, pursuant to and for the purposes of art. 24 of the law 30/12/2010 n. 240;
- Scientific manager: Prof. Paola Patrignani,
A comparative evaluation procedure based on qualifications and public discussion is announced for the recruitment of no. 1 full-time fixed-term researcher position, pursuant to art. 24 co. 3 lett. a) of Law 240/2010, S.C. 13 / D2 - economic statistics; SSD SECS-S / 03 - economic statistics - activated for the study and research needs of the Department of ECONOMY as part of the National Operational Program for Research and Innovation 2014-2020 (PON R&I) additional funds ESF - REACT-EU, for implementation of internal activities: "ACTIONS IV.4 - DOCTORAL PROGRAMS AND RESEARCH CONTRACTS ON INNOVATION TOPICS";

- Resolution of the Department with which the disciplinary and competitive scientific sector relating to the post of Researcher with a full-time fixed-term employment relationship was identified pursuant to Art. 24 co. 3 letter a) of Law 240/2010 to be announced: cdd of 20/09/2021;
- resolution of the Department with which the profile referred to in Article 4, point 4 of the "Regulations for the recruitment of fixed-term researchers" was approved: cdd of 20/09/2021;
- date of the S.A. with which the favorable opinion was expressed for the initiation of the requested procedure: 01/10/2021;
- date of the C. di A. with which the call for the requested procedure was authorized: 20/09/2021;
- macro sector: 13 / D - statistics and mathematical methods;
- competition sector: 13 / D2 - economic statistics;
- profile: S.S.D.: SECS-S / 03 - economic statistics;
- place of employment: Department of Economics;
- specific functions that the researcher is called to perform:
- teaching commitment: within the entire scope of the courses of the scientific-disciplinary sector SECS-S / 03 (Economic Statistics) offered in the Degree Courses and Master's Degree Courses of the School of Economics, Business, Legal and Sociological Sciences and of the Department of Economics;
- scientific commitment: the research activity will focus on issues related to the territorial statistical-economic analysis and will have as its objective the definition of statistical methodologies for the treatment of spatial Big Data. In particular, the activity will concern the definition of spatially defined composite indicators, machine learning techniques and spatial clustering algorithms, methodologies for measuring business growth using local data and Big Data;
- rights and duties: as provided for by the current provisions of law on the legal status of the university researcher on a fixed-term basis and by the current university code of ethics;
- contract duration: 36 months and may be renewed for only two years upon the actual finding of the necessary economic resources, as resolved by the Board of Directors;
- the annual salary deriving from the stipulation of the contract in question is equal to € 33,548.2200 (full time) to which a sum of approximately € 600.00 per month will be added, limited to the company / abroad period by way of mobility allowance. The sums are indicated a.i. lender including the thirteenth installment, pursuant to Presidential Decree 15/12/2011 n. 232 (to the items indicated, they are added to the increases referred to in the D.P.C.M. 11/13/2020). The mobility allowance may be modified based on the confirmation of the loan acquired definitively;
- financial coverage: PON 2014/2020-FSE REACT-EU D.M. n 1062 of 10 August 2021 and the related Regulations, and for the last year 2024 Departmental Funds resulting in the University Financial Statements;
- maximum number of publications: 12 (twelve);
- foreign language whose adequate knowledge will be assessed in relation to the multilingual profile of the University or the educational needs of study courses in a foreign language: English;
- methods of ascertaining the foreign language, or rather the knowledge of the Italian language for foreign candidates: interview;
- the specific research activity will be linked to the development of the project: "Supporting business innovation through digital and geographical data: New statistical methodologies and Big Data applications";
- scientific productivity objectives of the researcher over the three-year period: no. 2 (two) papers of high scientific value in international journals and the presentation of research results at national or international conferences;
- methods of ascertaining scientific qualification: by evaluating qualifications, curricula, scientific production and interview, pursuant to and for the purposes of art. 24 of the law 30/12/2010 n. 240;
- Scientific coordinator: Prof. Paolo Postiglione
A comparative evaluation procedure based on qualifications and public discussion is announced for the recruitment of no. 1 full-time fixed-term researcher position, pursuant to art. 24 co. 3 lett. a) of Law 240/2010, S.C. 14 / C1 - General sociology - SSD SPS / 07 - General sociology activated for the study and research needs of the Department of Legal and Social Sciences, as part of the National Operational Program for Research and Innovation 2014-2020 (PON R&I) additional funds FSE - REACT-EU, for the realization of the activities within: "ACTIONS IV.4 - DOCTORATES AND RESEARCH CONTRACTS ON INNOVATION TOPICS";

- Resolution of the Department with which the disciplinary and competitive scientific sector relating to the post of Researcher with a full-time fixed-term employment relationship was identified pursuant to Art. 24 co. 3 letter a) of Law 240/2010 to be announced: cdd of 17/09/2021;
- Resolution of the Department with which the profile referred to in Article 4, point 4 of the "Regulations for the recruitment of fixed-term researchers" was approved: cdd of 17/09/2021;
- Date of the S.A. with which the favorable opinion was expressed for the initiation of the requested procedure: 01/10/2021;
- Date of the C. di A. with which the call for the requested procedure was authorized: 28/09/2021;
- Macro sector: 14 / C - Sociology;
- Competition sector: 14 / C1 - General sociology;
- Profile: S.S.D.: SPS / 07 - General sociology;
- Place of employment: Department of Legal and Social Sciences;
- Specific functions that the researcher is called to perform:
  - Teaching commitments: teaching in the three-year and / or master's degree courses, in the Masters and Postgraduate Courses of the Department of Legal and Social Sciences, in which the SSD SPS / 07 is inserted; carry out supplementary teaching and service activities for students relating to the SSD / 07 SSD;
  - Scientific commitments: mainly addressed to the analysis of social change in relation to new technologies, with particular reference to the field of computational social research (Social Network Analysis, Text Mining and Social Simulation). The specific research activity will be linked to the development of the project: "Social Data Science for innovation and the Brand Reputation of the company 4.0";
- Rights and duties: as provided for by the current provisions of law on the legal status of the university researcher on a fixed-term basis and by the current university code of ethics;
- Contract duration: 36 months and may be renewed for only two years upon the actual finding of the necessary economic resources, as resolved by the Board of Directors;
- The annual salary resulting from the stipulation of the contract in question is equal to € 33,548,2200 (full time) to which a sum of approximately € 600.00 per month will be added, limited to the company / abroad period by way of mobility allowance. The sums are indicated with the following formula: the salary is increased by the amount indicated in the table, pursuant to Presidential Decree 15/12/2011 n. 232 (to the items indicated, they are added to the increases referred to in the D.P.C.M. 11/13/2020). The mobility allowance may be modified based on the confirmation of the loan acquired definitively;
- Financial coverage: PON 2014/2020-FSE REACT-EU D.M. n 1082 of 10 August 2021 and the related Regulations, and for the last year 2024 Departmental Funds resulting in the University Financial Statements;
- Maximum number of publications: 12 (twelve) in addition to the doctoral thesis;
- Foreign language whose adequate knowledge will be assessed in relation to the multilingual profile of the University or the educational needs of study courses in a foreign language: English;
- Methods of ascertaining the knowledge of the foreign language, or rather the knowledge of the Italian language for foreign candidates: interview;
- The specific research activity will be linked to the development of the project: "Social Data Science for innovation and the Brand Reputation of the 4.0 company;
- Scientific productivity objectives of the researcher over the three-year period: 2 scientific articles in period A journals and a total of 4 publications;
- Methods of ascertaining scientific qualification: by evaluating qualifications, curricula, scientific production and interview, pursuant to and for the purposes of art. 24 of the law 30/12/2010 n. 24;
- Scientific coordinator: Prof. Mara Maretti.
A comparative evaluation procedure based on qualifications and public discussion is announced for the recruitment of a full-time fixed-term researcher position, pursuant to art. 24 co. 3 lett. a) of Law 240/2010, S.C. 09 / H1 - Information processing systems - SSD ING-INF / 05 - Information processing systems activated for the study and research needs of the Department of Neuroscience Imaging and Clinical Sciences, as part of the National Operational Program for Research and Innovation 2014-2020 (NOP R&I) additional ESF-REACT-EU funds, for the implementation of activities within: "ACTIONS IV.4 - DOCTORATES AND RESEARCH CONTRACTS ON INNOVATION TOPICS";

- Resolution of the Department with which the disciplinary and competitive scientific sector relating to the post of Researcher with a full-time fixed-term employment relationship was identified pursuant to Art. 24 co. 3 letter a) of Law 240/2010 to be announced: cdd of 20/09/2021;
- resolution of the Department with which the profile referred to in Article 4, point 4 of the "Regulations for the recruitment of fixed-term researchers" was approved: cdd of 20/09/2021;
- date of the S.A. with which the favorable opinion was expressed for the initiation of the requested procedure: 01.10.2021;
- date of the C. di A. with which the call for the requested procedure was authorized: 08.28.2021;
- macro sector: 09 / H - Computer Engineering;
- competition sector: 09 / H1 - Information processing systems;
- profile: S.S.D.: ING-INF / 05 - Information processing systems;
- place of employment: Department of Neuroscience Imaging and Clinical Sciences;
- specific functions that the researcher is called to perform:
  - teaching commitment: within the ING-INF / 05 sector for teaching in the university's three-year and master's degree courses, with particular reference to the teaching activities of the courses of the School of Medicine and Health Sciences and for the teaching activities of the PhD in Neuroscience Imaging with regard to issues relating to information processing in bio-signals;
  - scientific commitment: research activity in the field of information processing with multidisciplinary aspects involving the life sciences. In particular, the researcher will have to implement and use instrumentation for neurostimulation, the acquisition of bioelectrical signals and analyze the latter in the context of the study of brain states of activity and connectivity in basic neuroscience and rehabilitation;
- rights and duties: as provided for by the current provisions of law on the legal status of the university researcher on a fixed-term basis and by the current university code of ethics;
- contract duration: 36 months and may be renewed for only two years upon the actual finding of the necessary economic resources, as resolved by the Board of Directors;
- the annual salary deriving from the stipulation of the contract in question is equal to € 33,548.2200 (full time) to which a sum of approximately € 600.00 per month will be added, limited to the company / abroad period by way of mobility allowance. The sums are indicated a.i. lender including the thirteenth installment, pursuant to Presidential Decree 15/12/2011 n. 232 (to the items indicated, they are added to the increases referred to in the D.P.C.M. 11/13/2020). The mobility allowance may be modified based on the confirmation of the loan acquired definitively;
- financial coverage: PCN 2014/2020-FSE REACT-EU D.M. No. 1062 of 10 August 2021 for the first 2 years and for the last year 2024 Departmental Funds resulting in the University Financial Statements;
- maximum number of publications: 12 (twelve) in addition to the doctoral thesis;
- foreign language whose adequate knowledge will be assessed in relation to the multilingual profile of the University or the educational needs of study courses in a foreign language: English;
- methods of ascertaining the foreign language, or rather the knowledge of the Italian language for foreign candidates: interview;
- the specific research activity will be linked to the development of the project: "Advanced processing of brain and muscle signals measured after personalized neurostimulation intervention for the improvement of motor performance";
- scientific productivity objectives of the researcher over the three-year period: no. 3 papers in international journals with referees, of a high level according to the criteria of the University "G. d'Annunzio" of Chieti-Pescara, and the presentation of research results and international conferences;
- methods of ascertaining scientific qualification: by evaluating qualifications, curricula, scientific production and interview, pursuant to and for the purposes of art. 24 of the law 30/12/2010 n. 240;
- Scientific Responsible: Prof. Laura Marzetti.
A comparative evaluation procedure based on qualifications and public discussion is announced for the recruitment of no. 1 full-time fixed-term researcher position, pursuant to art. 24 co. 3 lett. a) of Law 240/2010, S.C. 06 / A4 - Pathological Anatomy - SSD MED / 08 - Pathological Anatomy - activated for the study and research needs of the Department of Medicine and Sciences of Aging, as part of the National Operational Program for Research and Innovation 2014-2020 (PON R＆I) additional ESF - REACT-EU funds, for the implementation of the activities within: "ACTIONS IV.4 - DOCTORAL PROGRAMS AND RESEARCH CONTRACTS ON INNOVATION TOPICS";

- Resolution of the Department with which the disciplinary and competitive scientific sector relating to the post of Researcher with a full-time fixed-term employment relationship was identified pursuant to Art. 24 co. 3 letter a) of Law 240/2010 to be announced: cdd of 20.09.2021;
- resolution of the Department with which the profile referred to in Article 4, point 4 of the "Regulations for the recruitment of fixed-term researchers" was approved: cdd of 20.09.2021;
- date of the S.A. with which the favorable opinion was expressed for the initiation of the requested procedure: 01.10.2021;
- date of the C. di A. with which the call for the requested procedure was authorized: 09.28.2021;
- macro sector: 06 / A - Pathology and Laboratory Diagnostics;
- competition sector: 06 / A4 - Pathological anatomy;
- profile: S.S.D.: MED / 08 - Pathological anatomy;
- place of employment: Department of Medicine and Aging Sciences;
- specific functions as the researcher is called to perform:
- teaching commitment: teaching of Pathological Anatomy at the School of Medicine and Health Sciences for university students in Medicine, at the degree courses in Cardiac Nursing, the specialty courses in Cardiovascular Perfusion Techniques, Nursing, and Midwifery Sciences, at the Specialization Courses, Doctorates of Research and Masters for postgraduate students;
- scientific commitment: carried out in the field of Pathological Anatomy, Oncology, and Immunopathology and Molecular Genetics with reference to the study of the pathogenetic mechanisms of neoplastic and autoimmune diseases and the development of personalized immunotherapeutic schedules;
- rights and duties: as provided for by the current provisions of law on the legal status of the university researcher on a fixed-term basis and by the current university code of ethics;
- contract duration: 36 months and can be renewed for only two years upon the actual finding of the necessary economic resources, as resolved by the Board of Directors TO;
- the annual salary deriving from the stipulation of the contract in question is equal to € 33,648.2200 (full time) to which a sum of approximately € 600.00 per month will be added, limited to the company / abroad period by way of mobility allowance. The sums are indicated at the thirteenth installment, pursuant to Presidential Decree 16/12/2011 n. 232 (to the items indicated, they are added to the increases referred to in the D.P.C.M. 11/13/2020). The mobility allowance may be modified based on the confirmation of the loan acquired definitively;
- financial coverage: PCN 2014/2020-FSE REACT-EU D.M. No. 1082 of 10 August 2021 for the first 2 years and for the last year 2024 Departmental Funds resulting in the University Financial Statements;
- number of publications: 12 (twelve);
- foreign language whose adequate knowledge will be assessed in relation to the multilingual profile of the University or the educational needs of study courses in a foreign language: English;
- method of ascertaining the foreign language, or rather the knowledge of the Italian language for foreign candidates: interview;
- the specific research activity will be linked to the development of the project: "Nanotechnology for the Prevention and Personalized Immunological Therapy of Prostatic Carcinoma";
- scientific productivity objectives of the researcher over the three-year period: no. 3 publications in international journals;
- method of ascertaining scientific qualification by evaluating qualifications, curricula, scientific production and interview, pursuant to and for the purposes of art. 24 of the law 30/12/2010 n. 240;
- Scientific coordinator: Prof. Emma di Carlo.
A comparative evaluation procedure based on qualifications and public discussion is announced for the recruitment of no. 1 full-time fixed-term researcher position, pursuant to art. 24 co. 3 lett. a) of Law 240/2010, S.C. 11 / E3 - Social, work and organizational psychology - SSD M-PSI / 06 - Work and organizational psychology activated for the study and research needs of the Department of Psychological, Health and Territory Sciences, within of the National Operational Program for Research and Innovation 2014-2020 (NOP R&I) additional funds ESF - REACT- EU, for the realization of the activities within: "ACTIONS IV.4 - DOCTORATES AND RESEARCH CONTRACTS ON INNOVATION TOPICS";

- **Resolution of the Department** with which the disciplinary and competitive scientific sector relating to the post of Researcher with a full-time fixed-term employment relationship was identified pursuant to Art. 24 co. 3 letter a) of Law 240/2010 to be announced: odd of 16.09.2021;
- **resolution of the Department** with which the profile referred to in Article 4, point 4 of the "Regulations for the recruitment of fixed-term researchers" was approved: odd of 16.09.2021;
- **date of the S.A.** with which the favorable opinion was expressed for the initiation of the requested procedure: 01.10.2021;
- **date of the C. di A.** with which the call for the requested procedure was authorized: 09.28.2021;
- **macro sector:** 11 / E - Psychology;
- **competition sector:** 11 / E3 - Social, work and organizational psychology;
- **profile:** S.S.D.: M-PSI / 06 - Psychology of work and organizations;
- **place of employment:** Department of Psychological, Health and Territory Sciences;
- **specific functions that the researcher is called to perform:**
  - teaching commitment: within the three-year and master's courses relevant to the disciplinary scientific sector and of interest to the Department of Psychological, Health and Territory Sciences;
  - **scientific commitment:** the research activity, conducted on both qualitative and quantitative data, will concern the development of gamification in the selection and development of talents;
  - rights and duties: as provided for by the current provisions of law on the legal status of the university researcher on a fixed-term basis and by the current university code of ethics;
  - **contract duration:** 36 months and can be renewed for only two years upon the actual finding of the necessary economic resources, as resolved by the Board of Directors TO;
  - **the annual salary** deriving from the stipulation of the contract in question is equal to € 33,548.2200 (full time) to which a sum of approximately € 600.00 per month will be added, limited to the company / abroad period by way of mobility allowance. The sums are indicated a.i. Iodoro including the thirteenth installment, pursuant to Presidential Decree 15/12/2011 n. 232 (to the items indicated, they are added to the increases referred to in the D.P.C.M. 11/13/2020). The mobility allowance may be modified based on the confirmation of the loan acquired definitively;
  - **financial coverage:** PON 2014/2020-FSE REACT-EU D.M. No. 1062 of 10 August 2021 for the first 2 years and for the last year 2024 Departmental Funds resulting in the University Financial Statements;
  - **maximum number of publications:** 12 (twelve);
  - **foreign language** whose adequate knowledge will be assessed in relation to the multilingual profile of the University or the educational needs of study courses in a foreign language: English;
  - **methods of ascertaining the foreign language, or rather the knowledge of the Italian language for foreign candidates:** interview;
  - **the specific research activity** will be linked to the carrying out of the project: "The development of gamification in the selection and development of talents";
  - **scientific productivity objectives of the researcher over the three-year period:** no. 3 papers in international journals with referees and presentation of research results at international conferences;
  - **methods of ascertaining scientific qualification:** by evaluating qualifications, curricula, scientific production and interview, pursuant to and for the purposes of art. 24 of the law 30/12/2010 n. 240;
  - **Scientific Responsible:** Prof. Michela Cortini.
A comparative evaluation procedure based on qualifications and public discussion is announced for the recruitment of no. 1 full-time fixed-term researcher position, pursuant to art. 24 co. 3 lett. a) of Law 240/2010, S.C. 10 / E1 - Middle-Latin and Romance philologies and literatures - SSD L-FIL-LET / 08 - Medieval and humanistic Latin literature activated for the study and research needs of the Department of Humanities, Arts and Social Sciences, within the National Operational Program for Research and Innovation 2014-2020 (NOP R&I) additional ESF - REACT-EU funds, for the implementation of the activities within: "ACTIONS IV.4 - DOCTORATES AND RESEARCH CONTRACTS ON INNOVATION TOPICS":

- Resolution of the Department with which the disciplinary and competitive scientific sector relating to the post of Researcher with a full-time fixed-term employment relationship was identified pursuant to Art. 24 co. 3 letter a) of Law 240/2010 to be announced: cdd of 20.09.2021;
- resolution of the Department with which the profile referred to in Article 4, point 4 of the "Regulations for the recruitment of fixed-term researchers" was approved: cdd of 20.09.2021;
- date of the D.A. with which the favorable opinion was expressed for the initiation of the requested procedure: 01.10.2021;
- date of the C. di A. with which the call for the requested procedure was authorized: 09.28.2021;
- macro-sector: 10 / E - Middle-Latin and Romance Philologies and Literatures;
- competition sector: 10 / E1 - Middle-Latin and Romance philologies and literatures;
- profile: S.S.D. : L-FIL-LET / 08 - Medieval and humanistic Latin literature;
- place of employment: Department of Humanities, Arts and Social Sciences;
- specific functions that the researcher is called to perform:
  - Impegno didattico: almeno un corso di insegnamento annuale o equivalente per anno accademico; attività didattica integrativa e di servizio per gli studenti relativi alla SSD L-FIL-LET/08;
  - Impegno scientifico: sviluppo e gestione del sito web Petrarcha online (POI) con la prima edizione critica digitale di una delle opere patriarche che ancora l’attendono (De remedibus, De ignorantia, Epistole, Secretum), per realizzare la quale il ricercatore dovrà mettere a frutto e coniugare competenze filologiche e informatiche. La ricerca sarà condotta attraverso missioni in archivio e in biblioteca, un periodo di formazione presso l’azienda Net7 S.r.l. per acquisire conoscenze specifiche nel campo dell’informatica applicata alle Digital Humanities e un periodo presso l’Università di Genève con partecipazione alle attività legate alle digital humanities organizzate dalla sede ospitante;
  - diritti e doveri: come previsti dalle vigenti disposizioni di legge in materia di stato giuridico del ricercatore universitario a tempo determinato e dal vigente codice etico di Ateneo;
  - durata contratto: 36 mesi o potrà essere rinnovato per soli due anni all’effettivo reperimento delle necessarie risorse economiche, così come deliberato dal C.A. di Ateneo;
  - il trattamento economico annuo derivante dalla stipula del contratto in parola è pari a Euro 33.548,2200 € (tempo pieno) cui sarà aggiunta una somma pari a circa € 600,00 mensili limitatamente al periodo aziendale/estero a titolo di indennità di mobilità. Le somme sono indicate a.I. prestatori comprensivo del rato del tredicesima, ai sensi del D.P.R. 15/12/2011 n. 232 (alle voci indicate, si aggiungono agli aumenti di cui al D.P.C.M. 13/11/2020). L’indennità di mobilità potrà essere modificata in ragione della conformità del finanziamento acquisito in via definitiva;
  - copertura finanziaria: PON 2014/2020-FSE REACT-EU D.M. n. 1062 del 10 agosto 2021 per i primi 2 anni e per l’ultima annualità 2024 Fondi Dipartimentali risultanti nel Bilancio di Ateneo;
  - numero massimo di pubblicazioni: 12;
  - foreign language whose adequate knowledge will be assessed in relation to the multilingual profile of the University or the educational needs of study courses in a foreign language: English;
  - methods of ascertaining the foreign language, or rather the knowledge of the Italian language for foreign candidates: interview;
  - the specific research activity will be linked to the development of the project: "Development and Management of the Petrarcha online portal (POI)";
  - scientific productivity objectives of the researcher over the three-year period: 3 articles in journals and / or in peer-reviewed volumes, and presentation of research results at national and international conferences;
  - methods of ascertaining scientific qualification: by evaluating qualifications, curriculum, scientific production and interview, pursuant to and for the purposes of art. 24 of the law 30/12/2010 n. 240;
  - Scientific Responsible: Prof. Monica Bertè
A comparative evaluation procedure based on qualifications and public discussion is announced for the recruitment of no. 1 full-time fixed-term researcher position pursuant to art. 24 co. 3 lett. a) of Law 240/2010, S.C. 08 / B2 - Construction science - SSD ICAR / 08 - Construction science activated for the study and research needs of the Department of Engineering and Geology, as part of the National Operational Program for Research and Innovation 2014-2020 (PON R&I) funds additional ESF - REACT-EU, for the implementation of activities within: “ACTIONS IV.4 - DOCTORATES AND RESEARCH CONTRACTS ON INNOVATION TOPICS”;

- Resolution of the Department with which the disciplinary and competitive scientific sector relating to the post of Researcher with a full-time fixed-term employment relationship was identified pursuant to Art. 24 co. 3 letter a) of Law 240/2010 to be announced: cdd of 20/09/2021;
- resolution of the Department with which the profile referred to in Article 4, point 4 of the "Regulations for the recruitment of fixed-term researchers" was approved: cdd of 20/09/2021;
- date of the S.A. with which the favorable opinion was expressed for the initiation of the requested procedure: 01.10.2021;
- date of the C. di A. with which the call for the requested procedure was authorized: 09.28.2021;
- macro sector: 08 / B;
- competition sector: 08 / B2;
- profile: S.S.D. ICAR / 08;
- place of employment: Department of Engineering & Geology;
- specific functions that the researcher is called to perform:
  - teaching commitment: the expected teaching commitment is on the three-year degree in biomedical engineering L9 and the master's degree in construction engineering LM24;
  - scientific commitment: research activity in the PON project entitled "SIMULATION AND PREDICTION WITH NUMERICAL SIMULATION MODELS OF THE MECHANICAL BEHAVIOR OF THE MAXILLARY BONE SYSTEM / IMPLANT-SUPPORTED PROSTHESSES", participation in national and international congresses and publication in international scientific journals is required of scope;
  - rights and duties: as provided for by the current provisions of law on the legal status of the university researcher on a fixed-term basis and by the current university code of ethics;
  - contract duration: 36 months and can be renewed for only two years upon the actual finding of the necessary economic resources, as resolved by the Board of Directors TO;
  - the annual salary deriving from the stipulation of the contract in question is equal to € 33,548.2200 (full-time) to which a sum of approximately € 800.00 per month will be added, limited to the company / abroad period by way of mobility allowance. The sums are indicated a.l. lender including the thirteenth installment, pursuant to Presidential Decree 15/12/2011 n. 232 (to the items indicated, they are added to the increases referred to in the D.P.C.M. 11/13/2020). The mobility allowance may be modified based on the confirmation of the loan acquired definitively;
  - financial coverage: PON 2014/2020-FSE REACT-EU D.M. n 1082 of 10 August 2021 and the related Regulations, and for the last year 2024 Departmental Funds resulting in the University Financial Statements;
  - maximum number of publications: 12;
  - foreign language whose adequate knowledge will be assessed in relation to the multilingual profile of the University or the educational needs of study courses in a foreign language: English;
  - methods of ascertaining the foreign language, or rather the knowledge of the Italian language for foreign candidates: interview;
  - the specific research activity will be linked to the development of the project: "SIMULATION AND PREDICTION WITH NUMERICAL SIMULATION MODELS OF THE MECHANICAL BEHAVIOR OF THE MAXILLARY BONE SYSTEM / IMPLANT-SUPPORTED PROSTHESSES";
  - scientific productivity objectives of the researcher over the three-year period: the RTDa and the proponent of the project will undertake in the second and especially in the third year to first disseminate the scientific results achieved in the reference international communities, through communications at conferences (national and esters) and in first rank scientific journals (Q1) in the fields of theoretical and computational biomechanics. In parallel with the world of research, dissemination will also take place in the professional and industrial technical world, in close collaboration with the Medere company with the aim of implementing finite element techniques that are increasingly responsive and patient oriented;
  - methods of ascertaining scientific qualification: by evaluating qualifications, curricula, scientific production and interview, pursuant to and for the purposes of art. 24 of the law 30/12/2010 n. 240;
  - Scientific Responsible: Prof. Marcello Vasta.
A comparative evaluation procedure based on qualifications and public discussion is announced for the recruitment of no. 1 full-time fixed-term researcher position pursuant to art. 24 co. 3 lett. a) of Law 240/2010, S.C. 05 / F1 - Applied Biology - SSD BIO / 13 - Applied Biology activated for the study and research needs of the Department of Medical, Oral and Biotechnology Sciences, within the National Operational Program for Research and Innovation 2014-2020 (PON R&I) additional ESF - REACT- EU funds, for the realization of the activities within: "ACTIONS IV.4 - DOCTORATES AND RESEARCH CONTRACTS ON INNOVATION TOPICS";

- Resolution of the Department with which the disciplinary and competitive scientific sector relating to the post of Researcher with a full-time fixed-term employment relationship was identified pursuant to Art. 24 co. 3 letter a) of Law 240/2010 to be announced: cdd of 20.09.2021;
- resolution of the Department with which the profile referred to in Article 4, point 4 of the "Regulations for the recruitment of fixed-term researchers" was approved: cdd of 20.09.2021;
- date of the S.A. with which the favorable opinion was expressed for the initiation of the requested procedure: 01.10.2021;
- date of the C. di A. with which the call for the requested procedure was authorized: 09.28.2021;
- macro sector: 05 / F - Applied Biology;
- competition sector: 05 / F1 - Applied biology;
- place of employment: Department of Medical, Oral and Biotechnology Sciences;
- specific functions that the researcher is called to perform:
  - teaching commitment: Teachings, workshops and internships relating to the disciplines of the SSD BIO / 13 in the context of three-year study courses (Health Professions) and Master's Degrees. In compliance with Ministerial Decree 1082 of 10.8.2021, the teaching, supplementary teaching and student service activities must necessarily be carried out in relation to the aforementioned related topics of INNOVATIONS
  - scientific commitment: The candidate, with the aim of developing and / or implementing innovative and customized translational approaches, will have to carry out research activities in the development of innovative tools through advanced biotechnological applications, including nanotechnologies, tissue engineering and Organ-on-Chip technology;
- rights and duties: as provided for by the current provisions of law on the legal status of the university researcher on a fixed-term basis and by the current university code of ethics;
- contract duration: 36 months and can be renewed for only two years upon the actual finding of the necessary economic resources, as resolved by the Board of Directors TO;
- the annual salary deriving from the stipulation of the contract in question is equal to € 33,548.2200 (full time) to which a sum of approximately € 800.00 per month will be added, limited to the company / abroad period by way of mobility allowance. The sums are indicated a.i. lender including the thirteenth installment, pursuant to Presidential Decree 15/12/2011 n. 232 (to the items indicated, they are added to the increases referred to in the D.P.C.M. 11/13/2020). The mobility allowance may be modified based on the confirmation of the loan acquired definitively;
- financial coverage: PON 2014/2020-FSE REACT-EU D.M. No. 1062 of 10 August 2021 for the first 2 years and for the last year 2024 Departmental Funds resulting in the University Financial Statements;
- maximum number of publications: 12
- foreign language whose adequate knowledge will be assessed in relation to the multilingual profile of the University or the educational needs of study courses in a foreign language: English;
- methods of ascertaining the foreign language, or rather the knowledge of the Italian language for foreign candidates: interview;
- the specific research activity will be linked to the development of the project: "Engineering of corneal lenticles with mesenchymal cells and / or exosomes (mRNA) and / or nanoparticles (neurotrophic molecules) for the release of regenerative factors useful for the treatment of complex ophthalmic diseases high need for care ";
- scientific productivity objectives of the researcher over the three-year period: at least three papers in international journals
- methods of ascertaining scientific qualification: by evaluating qualifications, curricula, scientific production and interview, pursuant to and for the purposes of art. 24 of the law 30/12/2010 n. 240;
- Scientific responsible: Prof. Assunta Pandolfi.
A comparative evaluation procedure based on qualifications and public discussion is announced for the recruitment of no. 1 full-time fixed-term researcher position, pursuant to art. 24 co. 3 lett. a) of Law 240/2010, S.C. 06 / F1 - Odontostomatological diseases - SSD MED / 28 - Odontostomatological diseases activated for the study and research needs of the Department of Innovative Technologies in Medicine & Dentistry, as part of the National Operational Program for Research and Innovation 2014-2020 (PON R&I) additional ESF - REACT- EU funds, for the implementation of activities within: "ACTIONS IV.4 - DOCTORATES AND RESEARCH CONTRACTS ON INNOVATION TOPICS".

- Resolution of the Department with which the disciplinary and competitive scientific sector relating to the post of Researcher with a full-time fixed-term employment relationship was identified pursuant to Art. 24 co. 3 letter a) of Law 240/2010 to be announced: cdd of 20.09.2021;
- resolution of the Department with which the profile referred to in Article 4, point 4 of the "Regulations for the recruitment of fixed-term researchers" was approved: cdd of 20.09.2021;
- date of the S.A. with which the favorable opinion was expressed for the initiation of the requested procedure: 01.10.2021;
- date of the C. di A. with which the call for the requested procedure was authorized: 09.28.2021;
- macro sector: 06 / F - Integrated Surgical Clinic;
- competition sector: 06 / F1 - Odontostomatological diseases;
- profile: S.S.D. : MED / 28 - Odontostomatological diseases;
- place of employment: Department of Innovative Technologies in Medicine & Dentistry;
- specific functions that the researcher is called to perform:
  - teaching commitment: within the three-year master's degree courses and research doctorate courses provided by the school of health medicine referring to the scientific-disciplinary sector of med 28;
  - scientific commitment: the research activity will be focused on the development of an innovative medical device for the simplification and catalyzing of dental procedures, specifically for the development of an angular detector and spatial line, the objective of the scientific commitment will be to develop and prototype a technological and innovative medical service to support human work reducing the margin of error during daily work Davis can be integrated with augmented reality for real-time visualization of the work by exploiting, if possible, extremely fast communication and connection protocols such as for example 5G;
  - rights and duties: as provided for by the current provisions of law on the legal status of the university researcher on a fixed-term basis and by the current university code of ethics;
  - contract duration: 36 months and may be renewed for only two years upon the actual finding of the necessary economic resources, as resolved by the Board of Directors;
  - the annual salary deriving from the stipulation of the contract in question is equal to € 33,548.220 (full time) to which a sum of approximately € 800.00 per month will be added, limited to the company / abroad period by way of mobility allowance. The sums are indicated a.I. lender including the thirteenth installment, pursuant to Presidential Decree 15/12/2011 n. 232 (to the items indicated, they are added to the increases referred to in the D.P.C.M. 11/13/2020). The mobility allowance may be modified based on the confirmation of the loan acquired definitively;
  - financial coverage: PON 2014/2020-FSE REACT-EU D.M. No. 1062 of 10 August 2021 for the first 2 years and for the last year 2024 Departmental Funds resulting in the University Financial Statements;
  - maximum number of publications: 12 in addition to the degree, doctorate and specialization thesis;
  - foreign language whose adequate knowledge will be assessed in relation to the multilingual profile of the University or the educational needs of study courses in a foreign language: English;
  - methods of ascertaining the foreign language, or rather the knowledge of the Italian language for foreign candidates: interview;
  - the specific research activity will be linked to the carrying out of the project: "Development of an innovative medical device for the simplification and catalyzing of dental procedures";
  - scientific productivity objectives of the researcher over the three-year period: 3 publications in peer-reviewed international journals and presentation of research results;
  - methods of ascertaining scientific qualification: by evaluating qualifications, curricula, scientific production and interview, pursuant to and for the purposes of art. 24 of the Law 30/12/2010 n. 240;
- Scientific Responsible: Prof. Bruna Sinnari.
(attached to the D.R. rep. n. 1388 /2021, prot. n. 74772 of 01 /10 /2021)

A comparative evaluation procedure based on qualifications and public discussion is announced for the recruitment of no. 1 full-time fixed-term researcher position, pursuant to art. 24 co. 3 lett. a) of Law 240/2010, S.C. 06 / B1 - Internal medicine - SSD MED / 09 - Internal medicine activated for the study and research needs of the Department of Medicine and Sciences of Aging, within the National Operational Program for Research and Innovation 2014-2020 (PON R&I) additional ESF - REACT-EU funds, for the realization of the activities within: "ACTIONS IV.4 - DOCTORATES AND RESEARCH CONTRACTS ON INNOVATION TOPICS";

- Resolution of the Department with which the disciplinary and competitive scientific sector relating to the post of Researcher with a full-time fixed-term employment relationship was identified pursuant to Art. 24 co. 3 letter a) of Law 240/2010 to be announced: cdd of 20.09.2021;
- resolution of the Department with which the profile referred to in Article 4, point 4 of the "Regulations for the recruitment of fixed-term researchers" was approved: cdd of 20.09.2021;
- date of the S.A. with which the favorable opinion was expressed for the initiation of the requested procedure: 01.10.2021;
- date of the C. di A. with which the call for the requested procedure was authorized: 09.28.2021;
- macro sector: 06 / B - General Medical Clinic;
- competition sector: 06 / B1 - Internal medicine;
- profile: S.S.D. :: MED / 09 - Internal medicine;
- place of employment: Department of Medicine and Aging Sciences;
- specific functions that the researcher is called to perform:
- Teaching commitment: teaching and assistance activities for students with particular reference to the themes inherent to the research program described above;
- Scientific commitment: to be carried out in the context of issues relating to the approved project line with particular reference to the implementation of clinical studies, the study of the platelet profile, and the need to contribute to the analysis and interpretation of the "omics data" from experiments in transcriptomics, proteomics and lipidomics of platelets, favoring the development of personalized medicine protocols for the benefit of patients suffering from cardiovascular diseases.
- rights and duties: as provided for by the current provisions of law on the legal status of the university researcher on a fixed-term basis and by the current university code of ethics;
- contract duration: 36 months and can be renewed for only two years upon the actual finding of the necessary economic resources, as resolved by the Board of Directors TO;
- the annual salary deriving from the stipulation of the contract in question is equal to € 33,548.2200 (full time) to which a sum of approximately € 600.00 per month will be added, limited to the company / abroad period by way of mobility allowance. The sums are indicated a.i. lender including the thirteenth installment, pursuant to Presidential Decree 15/12/2011 n. 232 (to the items indicated, they are added to the increases referred to in the D.P.C.M. 11/13/2020). The mobility allowance may be modified based on the confirmation of the loan acquired definitively;
- financial coverage: PON 2014/2020-FSE-REACT-EU D.M. No. 1062 of 10 August 2021 for the first 2 years and for the last year 2024 Departmental Funds resulting in the University Financial Statements;
- maximum number of publications: 12;
- foreign language whose adequate knowledge will be assessed in relation to the multilingual profile of the University or the educational needs of study courses in a foreign language: English;
- methods of ascertaining the foreign language, or rather the knowledge of the Italian language for foreign candidates: interview;
- the specific research activity will be linked to the development of the project: "Molecular phenotype and lifespan of platelets and inter-individual variability in the response to aspirin: from determinants to potential biomarkers for personalized therapy";
- scientific productivity objectives of the researcher over the three-year period: no. 3 publications in international journals;
- methods of ascertaining scientific qualification: by evaluating qualifications, curricula, scientific production and interview, pursuant to and for the purposes of art. 24 of the law 30/12/2010 n. 240;
- Scientific Responsible: Prof. Francesca Santilli.
(attached to the D.R. rep. n. 1368 /2021, prot. n. 74772 of 01/10/2021)

A comparative evaluation procedure based on qualifications and public discussion is announced for the recruitment of no. 1 full-time fixed-term researcher position, pursuant to art. 24 co. 3 lett. a) of Law 240/2010, S.C. 12 / E1 - International law - SSD IUS / 13 - International law activated for the study and research needs of the Department of Legal and Social Sciences, as part of the National Operational Program for Research and Innovation 2014-2026 (PON R&I) additional funds FSE - REACT-EU, for the implementation of internal activities: "ACTIONS IV.5: RESEARCH CONTRACTS ON GREEN TOPICS".

- Resolution of the Department with which the disciplinary and competitive scientific sector relating to the post of Researcher with a full-time fixed-term employment relationship was identified pursuant to Art. 24 co. 3 lett. a) of Law 240/2010 to be announced: cdd of 08.17.2021;
- resolution of the Department with which the profile referred to in Article 4, point 4 of the “Regulations for the recruitment of fixed-term researchers” was approved: cdd of 17.03.2021;
- date of the S.A. with which the favorable opinion was expressed for the initiation of the requested procedure: 01.10.2021;
- date of the C. di A. with which the call for the requested procedure was authorized: 09.28.2021;
- macro-sector: 12 / E - International, European Union, Comparative, Economy, Markets and Navigation Law;
- competition sector: 12 / E1 - International law;
- profile: S.S.D. : IUS / 13 - International law;
- place of employment: Department of Legal and Social Sciences;
- specific functions that the researcher is called to perform:
  - didactic commitment: the researcher / researcher will have to carry out 350 hours per year of didactic activity, supplementary teaching and service to students (full-time regime) within the SSD IUS / 13, of which hours for official teaching activities in the maximum number of 60. The teaching commitment will concern the organization of in-depth seminars on the issues connected with the research project, to be held mainly in the specialist degree course in "Legal Sciences for Internationalization and Business Innovation" (GUIR - INF), as part of the teaching of "international trade and foreign investment law". Furthermore, information and training activities will be carried out on the possibilities offered by these green products to reduce pollution by toxic chemicals, addressed to both Italian and foreign companies, and on national, European and international legal disciplines;
  - scientific commitment: the researcher / researcher will have to study the legal problems related to the internationalization and marketing on a global scale of biostimulants / compostments / resistance inducers / reinforcers, with particular reference to the positive effects of the circulation of these products for the purpose of reducing pesticides, monocultures and in general unsustainable chemical products in agriculture, as required by EU legislation (eg European Directive No. 2008/128 / EC and EC Regulation 2015/1053) and by the international community with the Agenda 2030 UN 2030;
  - To this end, he / she will have the task of taking stock of the existing regulatory situation at national, European and international level, identifying international and European regulatory models and standards for regulating international trade in the aforementioned agricultural products, through the collection, analysis and comparison of national regulations on the subject; the comparison between the previous national regulations and the regulations adopted by the EU Member States related to the entry into force of the EU regulation 1000/2018, and verification of the existence or non-existence of international standards on the subject. It will therefore have to highlight the criticalities and gaps in the current national, European and international legal structure, which make the free movement and export of these products very difficult and administratively burdensome. Regarding the marketing in non-EU countries, the researcher will have to study a model of international agreement for the mutual recognition of similar products, in order to achieve a wider circulation and diffusion of these products, and to contribute to the reduction of polluting chemicals. The analysis of the implementation of European and international legislation will be conducted starting from the experience of an Italian company of excellence producing organic and innovative fertilizers, in which part of the research activity will be carried out;
  - rights and duties: as provided for by the current provisions of law on the legal status of the university researcher on a fixed-term basis and by the current university code of ethics;
  - contract duration: 36 months and may be renewed for only two years upon the actual finding of the necessary economic resources, as resolved by the Board of Directors;
  - the annual salary deriving from the stipulation of the contract in question is equal to € 35,548.2000 (full time) to which a sum of approximately € 600.00 per month will be added, limited to the company / agreed period by way of mobility allowance. The sums are indicated a.i. tender including the thirteenth installment, pursuant to Presidential Decree 15/12/2011 n. 232 (to the items indicated, they are added to the increases referred to in the D.P.C.M. 11/13/2020). The mobility allowance may be modified based on the continuation of the loan acquired definitively;
  - financial coverage: PON 2014/2020 FSE REACT-EU D.M. No. 1062 of 10 August 2021 for the first 2 years and for the last year 2024 Departmental Funds resulting in the University Financial Statements;
  - Maximum number of publications: 12;
  - foreign language whose adequate knowledge will be assessed in relation to the bimodal profile of the University or the educational needs of study courses in a foreign language: English;
  - methods of ascertaining the foreign language, or rather the knowledge of the Italian language for foreign candidates: interview;
  - the specific research activity will be linked to the development of the project: "Internationalization and marketing on a global scale of biostimulants / reinforcing / compostments / resistance inducers: analysis of the current national, European and international legal context and prospects for regulatory evolution and harmonization legislative”;
  - scientific productivity objectives of the researcher over the three-year period:
    1. establishment of a database on the national regulations of the EU member countries and some model countries outside the EU, on the European and international regulations on marketing (import and export) of agricultural products, in particular of biostimulants / compostments / resistance inducers / reinforcers;
    2. Scientific publication on the current regulations on the naming, free circulation and marketing of biostimulants / etc. and on the prospects for reform at the national, European and international level.
    3. Elaboration of a model of international recognition agreement for the facilitation of the free circulation of agricultural products such as biostimulants / etc. within the framework of the international trade system which is part of the World Trade Organization;
  - methods of ascertaining scientific qualification: by evaluating qualifications, curricula, scientific production and interview, pursuant to and for the purposes of art. 24 of the law 30/12/2010 n. 240;
  - Scientific coordinator: Prof. Paola Puoti.
A comparative evaluation procedure based on qualifications and public discussion is announced for the recruitment of no. 1 full-time fixed-term researcher position pursuant to art. 24 co. 3 lett. a) of Law 240/2010, S.C. 05 / H1 - Human Anatomy - SSD BIO / 16 - Human Anatomy activated for the study and research needs of the Department of Medicine and Sciences of Aging as part of the National Operational Program for Research and Innovation 2014-2020 (PON R&I) funds additional ESF - REACT - EU, for the implementation of activities within: “ACTIONS IV,6 - RESEARCH CONTRACTS ON GREEN TOPICS”.

- Resolution of the Department with which the disciplinary and competitive scientific sector relating to the post of Researcher with a full-time fixed-term employment relationship was identified pursuant to Art. 24 co. 3 letter a) of Law 240/2010 to be announced: cdd of 20.09.2021;
- resolution of the Department with which the profile referred to in Article 4, point 4 of the “Regulations for the recruitment of fixed-term researchers” was approved: cdd of 20.09.2021;
- date of the S.A. with which the favorable opinion was expressed for the initiation of the requested procedure: 01.10.2021;
- date of the C. di A. with which the call for the requested procedure was authorized: 09.28.2021;
- macro sector: 05 / H1 - Human Anatomy and Histology;
- competition sector: 05 / H1 - Human Anatomy;
- profile: S.S.D.: BIO / 16 - Human anatomy;
- place of employment: Department of Medicine and Aging Sciences;
- specific functions that the researcher is called to perform: teaching commitment lectures and practical exercises in the discipline of the Beyonce scientific-disciplinary sector of human anatomy belonging to the master's degrees and in the three-year degree courses relating to the school of medicine and health sciences;
- scientific research and development of innovative multiparametric cyclometric methods for the development of extracellular vesicles;
- rights and duties: as provided for by the current provisions of law on the legal status of the university researcher on a fixed-term basis and by the current university code of ethics;
- contract duration: 36 months and may be renewed for only two years upon the actual finding of the necessary economic resources, as resolved by the Board of Directors;
- the annual salary deriving from the stipulation of the contract in question is equal to € 33.548,2200 (full time) to which a sum of approximately € 600.00 per month will be added, limited to the company / abroad period by way of mobility allowance. The sums are indicated a.l. lender including the thirteenth installment, pursuant to Presidential Decree 15/12/2011 n. 232 (to the items indicated, they are added to the increases referred to in the D.P.C.M. 11/13/2020). The mobility allowance may be modified based on the confirmation of the loan acquired definitively;
- financial coverage: PON 2014/2020-FSE REACT-EU D.M. No. 1062 of 10 August 2021 for the first 2 years and for the last year 2024 Departmental Funds resulting in the University Financial Statements;
- maximum number of publications: 12;
- foreign language whose adequate knowledge will be assessed in relation to the multilingual profile of the University or the teaching needs of study courses in a foreign language: English;
- methods of ascertaining the foreign language, or rather the knowledge of the Italian language for foreign candidates: interview;
- the specific research activity will be linked to the carrying out of the project: “Endocrine disruptors: a challenge for the green and for health;
- scientific productivity objectives of the researcher over the three-year period: publication of at least three papers in international journals;
- methods of ascertaining scientific qualification: by evaluating qualifications, curricula, scientific production and interview, pursuant to and for the purposes of art. 24 of the law 30/12/2010 n. 240;
- Scientific Responsible: Prof. Di Baldassarre Angelo.
A comparative evaluation procedure based on qualifications and public discussion is announced for the recruitment of no. 1 full-time fixed-term researcher position, pursuant to art. 24 co. 3 lett. a) of Law 240/2010, S.C. 04 / A1, SSD GEO / 09 Mining georesources and applications activated for the study and research needs of the Department of Engineering and Geology, as part of the National Operational Program for Research and Innovation 2014-2020 (PON R&I) additional funds ESF - REACT - EU, for the implementation of internal activities: "ACTIONS IV.6 - RESEARCH CONTRACTS ON GREEN TOPICS"

- resolution of the Department of Engineering and with which, the scientific disciplinary and competition sector relating to the post of Researcher with a fixed-term full-time employment relationship was identified pursuant to Art. 24 co. 3 letter a) of Law 240/2010 to be announced: odd of 20/09/2021;
- resolution of the Department with which the profile referred to in Article 4, point 4 of the "Regulations for the recruitment of fixed-term researchers" was approved: odd of 20/09/2021;
- date of the S.A. with which the favorable opinion was expressed for the initiation of the requested procedure: 01.10.2021;
- date of the C. di A. with which the call for the requested procedure was authorized: 09.28.2021;
- macro sector: 04 / A Geosciences;
- competition sector: 04 / A1 Geochemistry, mineralogy, Petrology, Volcanology, Georesources and applications;
- profile: S.S.D. GEO / 09 Mining georesources and applications;
- place of employment: Department of Engineering & Geology;
- specific functions that the researcher is called to perform:
  - teaching commitment: with reference to the PCN profile in question, the teaching commitment will be carried out at the three-year degree course in geology L34 and the master’s degree course in geological sciences and technologies LM-74;
  - scientific commitment: research activity in the PON project entitled "Petrographic characterization of CDW for the upcycling preparation of new concretes"; participation in national and international congresses and publication in relevant international scientific journals is required;
- rights and duties: as provided for by the current provisions of law on the legal status of the university researcher on a fixed-term basis and by the current code of ethics of the University;
- contract duration: 36 months and can be renewed for only two years when the necessary economic resources are actually found, as resolved by the Board of Directors TO;
- annual salary deriving from the stipulation of the contract in question is equal to € 33,548.2200 (full time) to which a sum of approximately € 600.00 per month will be added, limited to the company / abroad period, by way of mobility allowance. The sums are indicated a.i. lender including the thirteenth installment, pursuant to Presidential Decree 15/12/2011 n. 232 (to the items indicated, they are added to the increases referred to in the D.P.C.M. 11/13/2020). The mobility allowance may be modified based on the confirmation of the loan acquired definitively;
- financial coverage: PON 2014/2020-FSE REACT-EU D.M. No. 1062 of 10 August 2021 and the related Regulations, and for the last year 2024 Departmental Funds resulting in the University Financial Statements;
- maximum number of publications: 12 (twelve);
- foreign language whose adequate knowledge will be assessed in relation to the multilingual profile of the University or the educational needs of study courses in a foreign language: English;
- methods of ascertaining the foreign language, or rather the knowledge of the Italian language for foreign candidates: interview;
- the specific research activity will be linked to the carrying out of the project: "Petrographic characterization of CDW for the upcycling preparation of new concretes";
- scientific productivity objectives of the researcher over the three-year period: the RTDA aims to achieve relevant scientific results in the international reference communities of the CDW, through communications at conferences (national and foreign) and in first rank scientific journals (Q1 ) in the fields of waste, environmental, materials and earth sciences, and civil engineering. In parallel with the world of research, dissemination will also take place in the technical, professional and industrial world, in close collaboration with the ANPAR association (National Association of Recycled Aggregate Producers) methods of ascertaining scientific qualification: by evaluating qualifications, curricula, production scientific and interview, pursuant to and for the purposes of art. 24 of the law 30/12/2010 n. 240;
- Scientific Responsible: Prof. Gianluca Iezzi.
A comparative evaluation procedure based on qualifications and public discussion is announced for the recruitment of no. 1 full-time fixed-term researcher position pursuant to art. 24 co. 3 lett. a) of Law 240/10, S.C. 03 / A2 - Models and methodologies for chemical sciences - SSD CHIM / 02 - Physical chemistry activated for the study and research needs of the Department of Pharmacy within the National Operational Program for Research and Innovation 2014-2020 (PON R&I) funds additional ESF - REACT- EU, for the implementation of internal activities: "ACTIONS IV.6 - RESEARCH CONTRACTS ON GREEN TOPICS"

- Resolution of the Department with which the disciplinary and competitive scientific sector relating to the post of Researcher with a full-time fixed-term employment relationship was identified pursuant to Art. 24 co. 3 letter a) of Law 240/2010 to be announced: cdd of 09.15.2021;
- resolution of the Department with which the profile referred to in Article 4, point 4 of the "Regulations for the recruitment of fixed-term researchers" was approved: cdd of 15.09.2021;
- date of the S.A. with which the favorable opinion was expressed for the initiation of the requested procedure: 01.10.2021;
- date of the C. di A. with which the call for the requested procedure was authorized: 09.28.2021;
- macro sector: 03 / A - Analytical, Chemical-Physical;
- competition sector: 03 / A2 - Models and methodologies for chemical sciences;
- profile: S.S.D.: CHIM / 02 - Physical chemistry;
- place of employment: Department of Pharmacy;
- specific functions that the researcher is called to perform:
  - didactic commitment: didactic commitment: Bioelectrochemistry course - TAF D - CTF Study Course; supplementary teaching of the Physical Chemistry Course - TAF A - CTF Study Course
  - scientific commitment: Development of process and manufacturing methodologies - Preparation of electrospun materials - Use of pressure and temperature controlled reactors - Monitoring of gas development and absorption - Detailed analysis of waste through the use of different analytical and chemical-physical characterization techniques - Fabrication and characterization of carbonaceous materials and solid polymer electrolytes for energy storage technologies.
  - rights and duties: as provided for by the current provisions of law on the legal status of the university researcher on a fixed-term basis and by the current university code of ethics;
  - contract duration: 36 months and may be renewed for only two years upon the actual finding of the necessary economic resources, as resolved by the Board of Directors;
  - the annual salary deriving from the stipulation of the contract in question is equal to € 33,548.2200 (full time) to which a sum of approximately € 600.00 per month will be added, limited to the company / abroad period, by way of mobility allowance. The sums are indicated a.i. lender including the thirteenth installment, pursuant to Presidential Decree 15/12/2011 n. 232 (to the items indicated, they are added to the increases referred to in the D.P.C.M. 11/13/2020). The mobility allowance may be modified based on the confirmation of the loan acquired definitively;
  - financial coverage: PON 2014/2020-FSE REACT-EU D.M. No. 1062 of 10 August 2021 for the first 2 years and for the last year 2024 Departmental Funds resulting in the University Financial Statements;
  - maximum number of publications: 12
  - foreign language whose adequate knowledge will be assessed in relation to the multilingual profile of the University or the educational needs of study courses in a foreign language: English;
  - methods of ascertaining the foreign language, or rather the knowledge of the Italian language for foreign candidates: interview;
  - the specific research activity will be linked to the carrying out of the project: "Economic and efficient recycling of waste materials for the storage of sustainable energy in a circular economy approach";
  - scientific productivity objectives of the researcher over the three-year period: 1 per year;
  - methods of ascertaining scientific qualification: by evaluating qualifications, curricula, scientific production and interview, pursuant to and for the purposes of art. 24 of the law 30/12/2010 n. 240;
  - Scientific Responsible: Prof. Stefania Ferrari - Prof. Antonella Fontana
A comparative evaluation procedure based on qualifications and public discussion is announced for the recruitment of no. 1 full-time fixed-term researcher position, pursuant to art. 24 co. 3 lett. a) of Law 240/2010, S.C. 03 / B1 - Fundamentals of chemical sciences and inorganic systems - SSD CHIM / 03 - General and inorganic chemistry activated for the study and research needs of the Department of Philosophical, Pedagogical and Economic-Quantitative Sciences as part of the National Operational Program for Research and Innovation 2014-2020 (NOP R&I) additional ESF - REACT-EU funds, for the implementation of activities within: "ACTIONS IV.6 - RESEARCH CONTRACTS ON GREEN TOPICS"

- Resolution of the Department with which the disciplinary and competitive scientific sector relating to the post of Researcher with a full-time fixed-term employment relationship was identified pursuant to Art. 24 co. 3 letter a) of Law 240/2010 to be announced: cdd of 20/09/2021;
- resolution of the Department with which the profile referred to in Art. 4, point 4 of the "Regulations for the recruitment of fixed-term researchers" was approved: cdd of 20/09/2021;
- date of the S.A. with which the favorable opinion was expressed for the initiation of the requested procedure: 01/10/2021;
- date of the C. dl A. with which the call for the requested procedure was authorized: 28/09/2021;
- macro sector: 03 / B - inorganic, Technological;
- competition sector: 03 / B1 - Fundamentals of chemical sciences and inorganic systems;
- profile: S.S.D.: CHIM / 03 - General and inorganic chemistry;
- place of employment: Department of Philosophical, Pedagogical and Economic-Quantitative Sciences;
- specific functions that the researcher is called to perform:
  - teaching commitment: it will mainly concern the disciplines of the SSD. CHIM / 03 present in the Degree Programs provided by the Department;
  - scientific commitment: addressed to the topics of the PON Project "CO2 valorization: from waste to high value added resource through chemical reactions in green conditions"; they will concern the search for green conditions for the photo-reduction reaction of CO2 to methanol;
  - rights and duties: as provided for by the current provisions of law on the legal status of the university researcher on a fixed-term basis and by the current university code of ethics;
  - contract duration: 36 months and may be renewed for only two years upon the actual finding of the necessary economic resources, as resolved by the Board of Directors;
  - the annual salary deriving from the stipulation of the contract in question is equal to € 33,548.2200 (full time) to which a sum of approximately € 600.00 per month will be added, limited to the company / abroad period, by way of mobility allowance. The sums are indicated a.d. lender including the thirteenth installment, pursuant to Presidential Decree 15/12/2011 n. 232 (to the items indicated, they are added to the increases referred to in the D.P.C.M. 11/13/2020). The mobility allowance may be modified based on the confirmation of the loan acquired definitively;
  - financial coverage: PON 2014/2020-FSE REACT-EU D.M. No. 1062 of 10 August 2021 for the first 2 years and for the last year 2024 Departmental Funds resulting in the University Financial Statements;
  - maximum number of publications: 12;
  - foreign language whose adequate knowledge will be assessed in relation to the multilingual profile of the University or the teaching needs of study courses in a foreign language: English;
  - methods of ascertaining the foreign language, or rather the knowledge of the Italian language for foreign candidates: interview;
  - the specific research activity will be linked to the carrying out of the project: "CO2 valorization: from waste to high value added resource through chemical reactions in green conditions"
  - scientific productivity objectives of the researcher over the three-year period: no. 6 (six) articles in international journals and reports at international conferences;
  - methods of ascertaining scientific qualification: by evaluating qualifications, curricula, scientific production and interview, pursuant to and for the purposes of art. 24 of the law 30/12/2010 n. 240;
- Scientific Responsible Prof.ssa Torucci Lucia,
A comparative evaluation procedure based on qualifications and public discussion is announced for the recruitment of no. 1 full-time fixed-term researcher position, pursuant to art. 24 co. 3 lett. a) of Law 240/2010, S.C. 08 / D1 - Architectural design - SSD ICAR / 14 - Architectural and urban composition activated for the study and research needs of the Department of Architecture within the National Operational Program for Research and Innovation 2014-2020 [PON R&I] additional ESF funds - REACT- EU, for the implementation of internal activities: "ACTIONS IV.6 - RESEARCH CONTRACTS ON GREEN TOPICS"

- Resolution of the Department with which the disciplinary and competitive scientific sector relating to the post of Researcher with a full-time fixed-term employment relationship was identified pursuant to Art. 24 co. 3 letter a) of Law 240/2010 to be announced: cdd of 20/09/2021;
- resolution of the Department with which the profile referred to in Article 4, point 4 of the "Regulations for the recruitment of fixed-term researchers" was approved: cdd of 20/09/2021;
- date of the S.A. with which the favorable opinion was expressed for the initiation of the requested procedure: 01/10/2021;
- date of the C. di A. with which the call for the requested procedure was authorized: 28/09/2021;
- macro sector: 08 / D - Architectural Design;
- competition sector: 08 / D1 - Architectural design;
- profile: S.S.D.: ICAR / 14 - Architectural and urban composition;
- place of employment: Department of Architecture;
- specific functions that the researcher is called to perform:
  teaching commitment: The researcher will have to carry out teaching within the architectural and urban design courses, both in the Architecture and Sustainable Habitat Courses and finally within the Research Doctorate. The researcher will have to make a significant and innovative contribution on the study and design of open spaces conceived as public places of urban sustainability and ecological transition and address issues relating to alternative mobility, public green spaces and the effects induced by climate change on public spaces;
  scientific commitment: The researcher will have to follow a line of research aimed at the study and investigation of how open space can affect the quality of the built environment and how the design of open space should be conceived from both a multi-scale and cross-sectoral. Particular attention will also be given to the open spaces of urban contexts located in areas of social and political criticality (for example the Balkan or Middle Eastern context) in order to respond to needs that come to us from fragile territories;
- rights and duties: as provided for by the current legal provisions regarding the legal status of the university researcher for a fixed term and by the current university code of ethics;
- contract duration: 36 months and may be renewed for only two years upon the actual finding of the necessary economic resources, as resolved by the Board of Directors;
- the annual salary deriving from the stipulation of the contract in question is equal to € 33,548.2200 (full time) to which a sum of approximately € 600.00 per month will be added, limited to the company / abroad period, by way of mobility allowance. The sums are indicated e.i. lender including the thirteenth installment, pursuant to Presidential Decree 15/12/2011 n. 232 (to the items indicated, they are added to the increases referred to in the D.P.C.M. 11/13/2020). The mobility allowance may be modified based on the confirmation of the loan acquired definitively;
- financial coverage: PON 2014/2020-FSE REACT-EU D.M. No. 1062 of 10 August 2021 for the first 2 years and for the last year 2024 Departmental Funds resulting in the University Financial Statements;
- maximum number of publications: 13;
- foreign language whose adequate knowledge will be assessed in relation to the multilingual profile of the University or the educational needs of study courses in a foreign language: English;
- methods of ascertaining the foreign language, or rather the knowledge of the Italian language for foreign candidates: interview;
- the specific research activity will be linked to the development of the project: "Next Space, the project of the open space in response to contemporary emergencies";
- scientific productivity objectives of the researcher over the three-year period: at least n. 3 (three) publications;
- methods of ascertaining scientific qualification: by evaluating qualifications, curricula, scientific production and interview, pursuant to and for the purposes of art. 24 of the law 30/12/2010 n. 240 ;
- Scientific Responsible: Prof. Pignatti Lorenzo.
Mod. 1 - PROFILE

(attached to the D.R. rep. n. 1368 /2021, prot. n. 74772 of 01 /10 / 2021)

A comparative evaluation procedure based on qualifications and public discussion is announced for the recruitment of no. 1 full-time fixed-term researcher position, pursuant to art. 24 co. 3 lett. a) of Law 249/2010, S.C. 07 / F1 - Food sciences and technologies - SSD Agr / 15 - Food sciences and technologies activated for the study and research needs of the Department of Innovative Technologies in Medicine & Dentistry within the National Operational Program for Research and Innovation 2014-2020 (PON R&I) additional funds ESF - REACT- EU, for the implementation of activities within: "ACTIONS IV.6 - RESEARCH CONTRACTS ON GREEN TOPICS"

- Resolution of the Department with which the disciplinary and competitive scientific sector relating to the post of Researcher with a full-time fixed-term employment relationship was identified pursuant to Art. 24 co. 3 letter a) of Law 249/2010 to be announced: cdd of 20/09/2021;
- date of the S.A. with which the favorable opinion was expressed for the initiation of the requested procedure: 01.10.2021;
- date of the C. di A. with which the call for the requested procedure was authorized: 09.26.2021;
- macro sector: 07 / F - Food Science and Technology;
- competition sector: 07 / F1 - Food science and technology;
- profile: S.S.D. : Agr / 15 - Food science and technology;
- place of employment: Department of Innovative Technologies in Medicine & Dentistry;
- specific functions that the researcher is called to perform:
- teaching commitment: teaching in the field of ssd, for the educational needs of the DEPARTMENT OF INNOVATIVE TECHNOLOGIES IN MEDICINE & DENTISTRY, of specialization courses and doctoral courses available at the University;
- scientific commitment: Study of food industry processes, aimed at safeguarding the nutritional properties of natural and processed foods, dietary products, supplements and health and nutraceutical foods; identification of the components responsible for biological activity, with particular reference to the recovery of by-products of the food industry and recovery of valuable compounds from the processing stages;
- rights and duties: as provided for by the current provisions of law on the legal status of the university researcher on a fixed-term basis and by the current university code of ethics;
- contract duration: 36 months and may be renewed for only two years upon the actual finding of the necessary economic resources, as resolved by the Board of Directors;
- the annual salary deriving from the stipulation of the contract in question is equal to € 33,548.2200 (full time) to which a sum of approximately € 600.00 per month will be added, limited to the company / abroad period by way of mobility allowance. The sums are indicated a.l. to the University's account, pursuant to Presidential Decree 15/12/2011 n. 232 (to the items indicated, they are added to the increases referred to in the D.P.C.M. 11/13/2020). The mobility allowance may be modified based on the confirmation of the loan acquired definitively;
- financial coverage: PON 2014/2020-FSE REACT-EU D.M. No. 1062 of 10 August 2021 for the first 2 years and for the last year 2024 Departmental Funds resulting in the University Financial Statements;
- maximum number of publications: 12;
- foreign language whose adequate knowledge will be assessed in relation to the multilingual profile of the University or the educational needs of study courses in a foreign language: English;
- methods of ascertaining the foreign language, or rather the knowledge of the Italian language for foreign candidates: interview;
- the specific research activity will be linked to the carrying out of the project: "Encapsulation of active ingredients, from processing phases of the agro-industrial sector, for the improvement of food quality";
- scientific productivity objectives of the researcher over the three-year period: 3;
- methods of ascertaining scientific qualification: by evaluating qualifications, curricula, scientific production and interview, pursuant to and for the purposes of art. 24 of the law 30/12/2010 n. 240;
- Scientific Responsible: Prof. Cichelli Angelo.
