In case of absence in the University of professors on the scientific sector(s) (i-disciplinary) professors will be appointed within the competition sector concerned.

Each Commission shall be composed in one of the following ways:

- 1 internal component of the University + 2 external components
- 1 intraneo component (not necessarily drawable) + 2 external components;
- 3 external components

It is understood that the Commission may be supplemented by one or more experienced members in cases of contracts to be activated with external financing.

The above must be integrated with the current ANVUR provisions – as recalled by art. 6 paragraphs 7 and 8 of Law 240/2010 - in particular the reference is to ANVUR resolution no. 132 of 12/09/2016. Causes of incompatibility and changes in the legal status that have occurred since the decision appointing the Commission shall not affect the status of member of the Selection Board.

### **Art. 9 – Obligations of the Jury**

The Commission, in order to make the comparative evaluation of the candidates, on the basis of the elements that are evaluated in the preliminary phase, also predetermines the criteria to be used for the attribution of a score to the titles, to each of the publications presented by the candidates admitted to the discussion and to the overall scientific production of the same, within the ranges indicated below:

- ✓ Qualifications and curriculum: score min 10 max 40
- ✓ Total scientific production: score min 0 max 15
- ✓ Scientific publications presented: Score min 45 max 75
- ✓ clinical-assistance activity or professional activity in the non-medical sector both carried out in the public sphere (to be understood as carried out within the P.A. in a broad sense): min 0 max 15

(for a total of 100).

The determination of the evaluation score in the indicated range must be specified by the Commission when identifying the criteria, except in the case where the weighting of the percentages within the indicated ranges has been established by the Department when requesting activation of the procedure. In the latter case, reference is made to what is reported in Model 1 attached to the Call or to the weights of the elements subject to evaluation always within the limits of the percentages indicated above.

The Jury in the first session, after declaring the individual components of the non-existence of the causes of incompatibility and absence of conflict of interest between them, following the provisions of Ministerial Decree 243/2011 "*recognized criteria and parameters, also at international level, for the preliminary evaluation of the candidates receiving the contracts referred to in art. 24 of Law 240/2010*", determines in general the elements on which it will express a **motivated preliminary assessment regarding the titles, curriculum, publications, overall scientific production of the candidates through the expression of a motivated analytical judgment.**

Considering that the total must always be equal to 100, the formula to identify the final score to be attributed to the evaluations is indicated below:

$$\frac{\text{punteggio scelto}}{\text{voto max}} = \frac{\text{voto rapp } (x)}{\text{voto}}$$
$$(x) = \frac{\text{voto} * \text{punteggio scelto}}{\text{voto max}}$$

### **CALCULATION OF VOTE COMPARED es: TOTAL SCIENTIFIC PRODUCTION**

**SCORE CHOSEN:** defined by the Commission/Department and maximum score 15→

**MAX GRADE:** maximum possible grade in the "overall scientific production evaluation":  $Ex:[6 \text{ (max vote per criterion)} * 3 \text{ (number of criteria)}] = 18$

**VOTE: sum of** the marks attributed to the overall "evaluation of the overall scientific production" of the individual candidate es (criterion a: 6 + criterion b: 4 + etc ... = 14) eg. 14

$$(x) = \frac{14 * 15}{18}; (x) = 11,67$$

It also predetermines the general criteria for the evaluation of theoral test aimed at ascertaining the adequate knowledge of a foreign language and of the Italian language for foreign candidates.

At the first meeting, the Commission shall:

- identifies the type of publications that will be evaluated;

- determine the weighting of each criterion and parameter to be taken into account;
- has the right to identify any further criteria and parameters more selective than those indicated in the call;
- establishes the date and time scheduled for the public discussion of titles and scientific production through the Teams platform as well as the assessment of knowledge of foreign language and / or Italian language for foreign candidates. This publication has the value of notification for all purposes and therefore it will not be followed by further calls. If the date indicated by the **Commission for the completion of the interview is subject to changes, the new date will be published in the section indicated <https://www.unich.it/concorsigelmini2022> by notice; however, further communications to the candidates will not follow.** This publication will always take place 20 days before the date indicated for the interview.

The criteria adopted are made public by posting, for at least seven days, the official University Register, as well as contextual inclusion on the University website. After seven days, the Commission may continue its work. The members of the Commission have electronic access to the documentation submitted by the candidates, to guarantee the confidentiality of the data and access is through codes assigned by the University and communicated to each of the Commissioners.

The date of publication is the day of publication.

At the meeting following the first, the Commission declares that there are no situations of incompatibility with the candidates pursuant to Articles. 51 and 52 c.p.c. and not to have kinship or affinity, within the fourth degree included, with them.

The Commission carries out a **reasoned comparative preliminary evaluation** of **qualifications, curriculum, publications** – including the doctoral thesis if presented, overall scientific production of the candidates, through the expression of a reasoned analytical judgment.

Following the aforementioned evaluation, it admits to the public discussion of qualifications and scientific production the comparatively most deserving candidates, in an amount between 10 and 20 percent of the number of the same and in any case not less than six units. **All candidates are admitted to the discussion if their number is equal to or less than six.**

**Promptly – with respect to the date set for the interview – the report containing a motivated preliminary evaluation of the candidates will be published.**

Following the public discussion, the Commission assigns a score to the qualifications and curriculum, to each of the publications presented, and to the overall scientific production and expresses a judgment on the oral test aimed at ascertaining the adequate knowledge of a foreign language and of the Italian language for foreign candidates. These evaluations will be made public by publication in the Official University Register, as well as, at the same time, included on the University website and have the value of notification for all purposes.

The Commission will have to establish for each qualification the criterion on the basis of which to assign the score, without prejudice to compliance with the consistency of the qualifications with the S.S.D. object of this procedure.

The Commission in evaluating the overall scientific output may take into account what has already been indicated by the candidate when submitting the application.

The Commission is required to apply the principles expressed in the European Charter for Researchers on qualitative and quantitative merit assessment. This evaluation shall emphasise the outstanding results achieved in a personal journey which is characterised exclusively by the number of publications and shall give appropriate consideration to teaching and supervision, teamwork, knowledge transfer, research management, innovation and public awareness activities. Career breaks, aimed at conducting other experiences in public or private bodies, or changes in the chronological order of the curriculum are considered as a contribution to the professional development of researchers in a multidimensional path. Any mobility experiences or the change of discipline or sector are considered valuable contributions.

The consultation of publications subject to intellectual property rights will take place in compliance with current legislation to protect publishing activity and copyright.

The acts of the selection procedure consist of the minutes of the individual meetings of which the reasoned analytical judgments relating to the preliminary comparative evaluation, the scores attributed to the evaluation of the candidates admitted to the public discussion and the evaluation of the oral test aimed at ascertaining the adequate knowledge of a foreign language and of the Italian language for foreign candidates are an integral and necessary part.
