The Examining Board shall select a Chairperson and a Secretary in charge of the minutes of its meetings, from among its members.

Participation in the activities of the Board is a professional duty of its members, except in cases of force majeure. The causes of incompatibility and the changes of the legal status occurred after the appointment of the Board do not affect the position as a member of the Examining Board.

Art. 9 – Duties of the Examining Board

During its first meeting, after having verified the eligibility of the applications, subject to a declaration of all its members that there is no incompatibility nor conflict of interest, the Examining Board predetermines the general criteria for:

- a. the preliminary comparative evaluation of the curriculum, qualifications, and scientific production, including the doctoral thesis;
- b. the evaluation of the oral examination designed to verify the appropriate knowledge of a foreign language and/or Italian language for foreign applicants.

The Examining Board also predetermines the criteria for the assignment of an analytical score to the qualifications and to each publication submitted by the candidates admitted to the discussion, up to maximum, respectively, 20 points for qualifications and 80 points for publications.

The Examining Board may hold online sessions.

The criteria adopted shall be publicized in the official University Register, for at least seven days and, at the same time, on the University website. After seven days, the Examining Board may start its activities. The Examiners of the Board access the documentation presented by the candidates online and, in order to guarantee the confidentiality of the data, access is via codes assigned by the university and communicated to each of the Examiners.

The date of publishing will be considered the useful day for publicity.

In its first session, the Examining Board shall also:

- set out the types of publications to be evaluated;
- decide the weighting of each criterion and parameter to be considered;
- set out any further critical criteria and parameters that are more selective than those indicated in the announcement.

In the second session, the Examining Board must declare that there are no situations of incompatibility with the candidates in accordance with articles 51 and 52 of the Italian Code of Civil Procedure, and that there are no marriage or family relationships, nor affinities within the 4th degree, inclusive, with them.

The Examining Board carries out a preliminary comparative assessment of the candidates, with justified analytical judgment of their curricula, qualifications and scientific production, including their doctoral thesis, according to the criteria and parameters which are also recognised internationally and identified by a Decree of the Italian Ministry of Education, University, and Research MIUR no. 243 dated 23 May 2011 "Internationally recognised criteria and parameters for the preliminary assessment of applicants for the contracts referred to in art. 24 of the Italian Law no. 240/2010".

Following the preliminary comparative assessment, the Examining Board shall admit between 10 and 20 percent of the candidates of comparatively higher merit to the public discussion of the qualifications and scientific

production, and in any case not less than six candidates. All candidates are admitted to the discussion if their number is equal to or lower than six. Following the discussion, a score is assigned to qualifications and to each publication submitted by admitted candidates.

The location, date and time of the discussion and of the oral examination are published on the official register of the University and entered in the University website at least 20 days before the discussion.

The list of candidates admitted to the discussion, together with justified analytical judgments relating to the preliminary comparative assessment, will be promptly published.

These publications shall be fully considered as notifications in all respects. Therefore, the candidates are required to present themselves with a valid document of identity on the fixed day(s) and place without any further notice or summons. Failure of candidates to present themselves shall be considered as final implicit withdrawal from the selection.

The Examining Board proceeds with the public discussion of qualifications and publications with candidates and, simultaneously, with the oral test, which is designed to verify the appropriate knowledge of a foreign language and/or of the Italian language for foreign applicants.

After the discussion, according to the provisions of article 12, the Board assigns an analytical score to qualifications and to the publications submitted by the candidates admitted to the discussion, evaluates the oral examination, and identifies the suitable candidate by resolution taken with majority of the members.

The overall score assigned to the qualifications and publications of candidates admitted to the discussion and the evaluation of the oral test, aimed at assessing appropriate knowledge of a foreign language and/or Italian language for foreign applicants, shall be publicized in the official Register of the University and, at the same time, on the University website. This publication shall be considered as a notification in all respects.

The consultation of the publications covered by intellectual property rights will take place according to the laws in force to protect publishing activity and copyright.

The proceedings of the selection procedure consist of the minutes of all meetings, of which the justified analytic judgments relating to the preliminary comparative evaluation, the scores assigned to the qualifications and publications of candidates admitted to public discussion, and the evaluation of the oral examination aimed at assessing adequate knowledge of a foreign language and/or Italian language for foreign applicants, are an integral and necessary part.
