From the date of publication in the Official Register of the University of the decree of appointment of the Committee, a period of thirty days shall commence, during which candidates can submit any instances of recusal of the Committee members to the Rector. After that period, and in any case after the establishment of the Committee, no instances of recusal of the Committee members shall be accepted.

The Committee shall select a Chairperson and a Secretary in charge of the minutes of its meetings, from among its members.

The Committee shall carry out its activities in the presence of all its members and take its decisions by an absolute majority of its members.

The Committee may use computer tools for collective work, in order to allow for the completion of the work within the prescribed period of four months from the date of appointment by decree of the Rector.

Participation in the activities of the Committee is an official obligation of its members, except in cases of force majeure. The causes of incompatibility and the changes of the legal status occurred after the decision to appoint the Committee do not affect the position as a member of the Selection Committee.

Art. 9 - Duties of the Selection Committee

During its first meeting, after having verified the eligibility of applications, subject to a declaration of all its members that there is no reason for incompatibility and absence of conflict of interest, the Selection Committee predetermines the general criteria for:

- a. the preliminary comparative evaluation of the curriculum, qualifications, and scientific production, including the doctoral thesis;
- b. the evaluation of the oral examination designed to verify the proper knowledge of a foreign language and Italian language for foreign applicants.

The Committee also predetermines the criteria for the assignment of an analytical score to the qualifications and to each publication submitted by the candidates admitted to the discussion, to the maximum extent, respectively, of 20 points for qualifications and 80 points for publications.

The selection board may perform the sessions via computer.

The criteria shall be made public by posting it, for at least seven days, on the official University, as well as contextual placement in the University website. Seven days after the commission can continue work. The members of the commission have access via computer to the documents submitted by the candidates, to ensure data confidentiality and access is via codes assigned by the university and communicated to each of them.

In its first session, the Committee shall also:

- set out the types of publications that are to be evaluated;
- decide the weighting of each criterion and parameter to be taken into account;
- identify any additional more selective criteria and parameters than those specified in the call.

The weighting of the criteria and parameters must be balanced and justified.

In the second session, the Committee must declare that there are no situations of incompatibility with the candidates in accordance with articles 51 and 52 of the Italian Code of Civil Procedure, and that there are no family relationships or affinities within the 4th degree, inclusive, with them.

The Committee carries out a preliminary comparative assessment of the candidates, with justified analytical judgment on their curriculum, their qualifications and scientific production, including their doctoral thesis, according to the criteria and parameters which are also recognised internationally and identified by a decree of the Italian Ministry of Education, University, and Research MIUR No. 243 dated 23 May 2011 concerning "Criteria parameters for the preliminary assessment of candidates for public procedures for selecting recipients of contracts pursuant to art. 24, paragraph 2, letter c) of the Italian Law dated 20 December 2010, No. 240".

Following the preliminary comparative assessment, the Committee shall admit between 10 and 20 percent of the candidates of comparatively higher merit to public discussion of the qualifications and scientific production, and in any case not less than six candidates. All candidates are admitted to the discussion if their number is equal to or lower than six. Following the discussion, a score is assigned to qualifications and to each publication submitted by admitted candidates.

The location, date and time of the discussion and of the oral examination are published on the official register of the University and entered in the University website at least 20 days before the discussion.

The list of candidates admitted to the discussion, together with justified analytical judgments relating to the preliminary comparative assessment will also be published.

These publications shall be fully considered as notifications in all respects. Therefore, the candidates are required to appear with a valid document of identity on the day(s) and place to be determined without any further notice or call. **Failure of the candidate to appear shall be considered as final implicit withdrawal from the selection.**

The Committee proceeds with public discussion of qualifications and publications with candidates and, in the same context, with the oral test, which is designed to verify the proper knowledge of a foreign language and Italian language for foreign applicants.

After the discussion, the Committee assigns an analytical score for qualifications to each of the publications submitted by the candidates admitted to the discussion, makes a judgment on the oral examination, and identifies the suitable candidate by a decision made by the majority of the members.

The overall ratings assigned to the qualifications and publications of candidates admitted to the discussion and the judgment on the oral test aimed at assessing adequate knowledge of a foreign language and Italian language for foreign applicants shall be made public by posting on the official register of the University and, at the same time, entered in the website of the University. This publication shall be considered as a notification in all respects.

The proceedings of the selection procedure consist of the minutes of each meeting of which the justified analytic judgments relating to the preliminary comparative evaluation, the scores assigned to the qualifications and publications of candidates

admitted to public discussion, and the evaluation of the oral examination aimed at ensuring adequate knowledge of a foreign language and Italian language for foreign applicants, are an integral and necessary part.

- a) Originality, innovation, rigorous methodology, and relevance of each scientific publication;
