MINIGUIDE FOR THE @HOME TEST
SOME DAYS BEFORE THE TEST: CHECK YOUR EMAILS

We send you an email describing how to upload your ID document, set your room and what devices you can use for taking the test.
ON THE TEST DAY:
CHECK YOUR EMAILS AGAIN

In this second email, you will get the link, the username and the password for taking the test from your computer.
Please refer to the "On the test day" guide in order to properly place the desk, the chair, the mobile device and the computer.
On your desk, you can only have your ID document, some blank sheet, a pen and the headset, necessary only for the listening test section.
THE TEST: ENTER THE AREA

Open the email we sent directly from your computer, click on the link to the CISIA Student Area and enter your username and password.
For entering the virtual room, frame the QR code displayed on the computer screen with your mobile device and wait for the validation of the Commission.
THE TEST: LET'S START

Time has come! Keep the camera of your mobile device on, your microphone unmute and keep silent. Remember: you can use your headset only for the listening test section!
