

23rd World Congress on Advances in Oncology and 22nd International Symposium on Molecular Medicine

September 20-22, 2018

Athens Marriott Hotel, Athens, Greece

RECIPIENTS OF THE AWARDS OF THE BEST PRESENTATIONS

109. Cold plasma-stimulated transfusion (PLAST) induces necroptosis in murine and human osteosarcoma cell lines. **T. Ando**, M. Suzuki-Karasaki, H. Haro, Y. Suzuki-Karasaki (Yamanashi; Tochigi; Tokyo, Japan)
113. Circular dumbbell RNAs loaded with miR34a: A novel anti-angiogenic approach. M. Gnanamony, **C.S. Gondi** (Peoria, IL, USA)
130. Atopic dermatitis and stress. **K. Nordlind** (Stockholm, Sweden)
139. Proteomics insights into complexity and molecular heterogeneity of bone marrow failure disorders. **A. Alaiya**, Z. Shinwari, H. Alzahrani, T. Owaidah, F. AlMohareb, F. Al Sharif, R. AlNounou, W. Rasheed, R. ElFakih, A. Hanbali, M. Shaheen, F. Alfraih, H. Shahrukh, M. Dasouki, N. Chaudhri, O.A. Syed, M. Aljurf (Riyadh, Saudi Arabia)
146. Apoferritin as a nanoscaled delivery vehicle for anticancer agents. T. Cerna, J. Hrabeta, Z. Heger, S. Dostalova, R. Indra, V. Adam, M. Stiborova, **T. Eckschlager** (Prague; Brno, Czech Republic)
172. MicroRNA-374c-5p regulates TGF- β 1 induced epithelial-mesenchymal transition and migration of cervical cancer cell. **Y. Huang**, H. Huang, M. Li, X. Zhang, Y. Liu, Y. Wang (Guangdong, P.R. China)
173. Vitamin D receptor gene and its regulation by all-trans-retinoic acid in normal blood cells and in leukemic blasts. **E. Marcinkowska** (Wroclaw, Poland)
178. Platelet-derived microparticles (MPs), pro-thrombinase-induced clotting times and phospholipids in a cohort of patients with deep vein thrombosis: A pilot study. **S.S. Signorelli**, G. Oliveri Conti, M. Fiore, F. Cangiano, P. Zuccarello, M. Ferrante (Catania, Italy)
216. Biomarkers of radio-sensitivity and radio-resistance. **R. Di Pietro** (Chieti, Italy)
225. Use of mesenchymal stem cells for protection of kidney cells against cisplatin toxicity. **N. Eliopoulos** (Montreal, Canada)
